Dr. Michael Gurian has studied and served girls and their families for thirty years. In *Boys and Girls Learn Differently* (2000), *The Wonder of Girls* (2002), and *Leadership and the Sexes* (2008), he blew the lid off contemporary thinking on how to help girls become strong, confident, and successful women. *The Minds of Girls* provides parents, educators, and mentors with a new understanding of who girls are, what they need, and how to raise them to their full potential. The book focuses on brain-based research and practical strategies growing from that science, including tools that have proven successful in the Gurian Institute's programs and interventions throughout the world. Noting an uptick in female depression and anxiety over the last two decades, Gurian provides assets for epigenetic analysis (gene testing) and ways to protect girls from environmental neurotoxins (in food, lotions, and other nearby products). A father

of two grown daughters, he helps parents and others become citizen scientists on a girl's behalf. In areas of technology use, screen time and social media, he provides specific guidelines girls themselves are likely to follow as they become scientists of their own development. Gurian provides a road map for raising healthy girls. His practical analysis and tools for helping with 'girl drama' will surprise some readers as he shows how drama often builds emotional boundaries and helps the brain become resilience. Because Gurian has worked with Fortune 500 companies in tech and engineering fields to help advance women, his insights on how to build better math, science, and technology success for girls provide a rich new call to action for parents and school systems. Always inspiring, at times humorous, and always practical, *The Minds of Girls* is a parent's bible for raising healthy and resilient daughters.

This novel is just a figment of my imagination and does not depict the views of my personal opinion. In memory of the dearly departed, I would like to bow my head in a moment of silence for all the fallen soldiers who didn't get a chance to see life for the way it was meant to be viewed. For our predecessors who've been misguiding our young minds of the ghettos for far too long. For those who helped to prevent prosperity from ever reaching its full potential. For the many demons of their own destruction, who truly believe that genocide is the only way to properly represent their neighborhoods with pride. For the athletic, or intellectual being, who seem -to have missed their true calling for dedicating so much of their lives to the lost cause of gang violence, we say no more! If we don't stand for something, we will eventually start falling for anything. It's time to wake up, and build up to the expectation of our own greatness! If not, the very future of our children, and our children's, children's lives will one day depend on it...

Imagine growing up in the largest slum on the planet in the year 2080AD. Twenty million people are your neighbors, huddled together in an ocean of rusted dwellings made from

whatever Sedonia City, the towering metropolis in the distance, decides to throw away. Gang members, known as the T99s, are the heads of your community: smuggling tech, trafficking drugs, and fighting a constant guerilla war against the City's bio-augmented EXO police force. There is little hope for survival. None for escape to a better life beyond the half-mile high Border between city and slum. This is Matteo's world. A bright kid, but sick and weak since childhood, he is painfully dependent on Jogun: loving older brother, and hardened soldier for the T99s. When a luxury transport from Sedonia's aerial traffic crash-lands in Rasalla, it threatens to change Matteo and Jogun's fate forever. And all fates are connected. The Dwellers of Rasalla, bound by family in the scrap, ashes, and dirt. The Citizens of Sedonia, oblivious to danger in the buzzing twilight of the Neuro-Social Revolution. The EXOs, placing themselves in harm's way to perform their duty to protect their homes and fellow officers. And the Ruling Elite, whose long-buried secrets and desperate plans could spell the end of civilization...or a new beginning. Son of Sedonia is an action-filled science fiction epic with a soul and a clear message. Its characters live, breathe, suffer, and love in their different worlds, each brought to the brink as the Third-World collides with the First. Their future could well be ours. Two years before adopting seven-year-old Keydell from a group home for young boys, Kim made a vow before the Dalai Lama to become a bodhisattva: one who cultivates an enlightened mind, is free from delusion, and practices kindness and compassion above all else. However, she struggles with this practice as her new son's challenged mind sends him into fits of rage and violence, while seemingly allowing him to feel no remorse for his actions. His behaviors go against everything Kim believes in, but she is determined to keep her chocolate-eyed

boy safely in the home she has created with her husband and two biological children. As she tries everything she can to get Keydell the help he needs, she must also learn to accept him exactly as he is: a tiger in the home of elephants. This vulnerable and touching account highlights the interplay between desire and reality, denial and acceptance, struggle and enlightenment. As the minds of this mother and her extraordinary son awaken - Kim's through her Buddhist practice, and Keydell's through the science of neurofeedback - we witness the power of love and compassion to overcome even the greatest odds."

Michael Gurian's blockbuster

bestseller The Wonder of Boys is the

bible for mothers, fathers, and

educators on how to understand and

raise boys. It has sold over 400,000

copies, been translated into 17

languages, and sells over 25,000

every year, which is more than any

other book on boys in history. To

follow up on this first book, which

launched the boy's movement, he has

now written this revolutionary new

book which confronts what he and a lot

of other parents and teachers in this

country truly believe to be a "boy's

crisis". Here are the facts: Boys today

are simply not learning as well as girls

Boys receive 70% of the Ds and Fs

given all students Boys cause 90% of

classroom discipline problems 80% of

all high school dropouts are boys

Millions of American boys are on

Ritalin and other mind-bending control

drugs Only 40% of college students

are boys And three out of four

learning disabled students are boys So

what can we do? Gurian has the

answer in this enormously fascinating

---

and practical book which shows parents and teachers how to help boys overcome their current classroom obstacles by helping to create the proper learning environment, understand how to help boys work with their unique natural gifts, nurture and expand every bit of their potential, and enabling them to succeed in life the way they ought to. Gurian presents a whole new way of solving the problem based on the success of his program in schools across the country, the latest research and application of neuro-biological research on how boys' brains actually work and how they can learn very well if they're properly taught. Anyone who cares about the future of our boys must read this book.

**The Airplane Effect** Jossey-Bass  
Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's *The Scream*. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and

reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay-which is sometimes zany and sometimes frightening-he meet his hero, Michelangelo, who teaches him the true meaning of art.
