It turned up in a North Dakota wheat field: a triangle, like a shark's fin, sticking up from the black loam. Tom Lasker did what any farmer would have done. He dug it up. And discovered a boat, made of a fiberglass-like material with an utterly impossible atomic number. What it was doing buried under a dozen feet of prairie soil two thousand miles from any ocean, no one knew. True, Tom Lasker's wheat field had once been on the shoreline of a great inland sea, but that was a long time ago -- ten thousand years ago. A return to science fiction on a grand scale, reminiscent of the best of Heinlein, Simak, and Clarke, *Ancient Shores* is the most ambitious and exciting SF triumph of the decade, a bold speculative adventure that does not shrink from the big questions -- and the big answers.

The captain of the ship, Xiala, is a disgraced Teek whose song can calm the waters around her as easily as it can warp a man's mind. Her ship carries one passenger. The Exile Waiting was the first novel by the Hugo and Nebula award-winning novelist Vonda N McIntyre, published in 1975. It introduces the world that McIntyre later made famous with her multi-award-winning *Dreamsnake*: a post-apocalyptic world in which Center, an enclosed domed city, is run by slave-owning families who control the planet’s resources, and are strangling the city’s economy by their decadence. Mischa is a thirteen-year old sneak thief, struggling to support her drug-addict elder brother Chris, and their predatory uncle who uses their telepathic link with their captive younger sister Gemmi to control them. The alien pseudosibs Subone and Subtwo have come to Earth to take over Center’s resources. Subone is attracted by the decadent living on offer and begins to unlink from his sibling’s conditioning. Subtwo has fallen unexpectedly in love with a slave. When Mischa defends Chris from Subone’s malice, Subtwo hunts her beneath Center’s foundations, and discovers how terrible Center’s cruelty has been to its inhabitants with genetically distorted bodies and minds. They have to rescue them and leave, but how? Also included in this edition, the first republication of McIntyre’s short story ‘Cages’, originally published in *Quark 4* in 1972, in which she first created the pseudosibs and their terrible origins.
