The world's most famous mountain, Everest remains for serious high-altitude climbers an ultimate goal. Ed Viesturs has gone on eleven expeditions to Everest, reaching the summit seven times. He's spent more than two years of his life on the mountain. No climber today is better poised to survey Everest's various ascents—both personal and historic. In *The Mountain*, Viesturs delivers just that: riveting you-are-there accounts of his own climbs as well as vivid narratives of some of the more famous and infamous climbs throughout the last century, when the honour of nations often hung in the balance, depending on which climbers summited first. In addition to his own experiences, Viesturs sheds light on the fate of Mallory and Irvine, whose 1924 disappearance just 800 feet from the top remains one of mountaineering's greatest mysteries, and on the multiply tragic last days of Rob Hall and Scott Fischer in 1996, the stuff of which *Into Thin Air* was made. Informed by the experience of one who has truly been there, *The Mountain* affords a rare glimpse into that place on earth where Heraclitus's maxim—character is destiny—is proved time and again. Complete with gorgeous photos of Everest, many of which were taken by

Viesturs himself, and shots taken on some of the legendary historic climbs, *The Mountain* is an immensely appealing book for active and armchair climber alike.

The bestselling author of *The Mountain and No Shortcuts to the Top* chronicles his three attempts to climb the world's tenth-highest and statistically deadliest peak while exploring the dramatic and tragic history of others who have made—or attempted—the ascent. "Viesturs and Roberts have written an exhaustively researched and wonderfully compelling history of the most fascinating and dangerous of the Himalayan giants." —David Breashers, veteran mountaineer and documentary filmmaker, director of IMAX film *Everest* As a high school student, Ed Viesturs read and was captivated by the French climber Maurice Herzog's famous and grisly account of the first ascent of Annapurna in 1950. When he began his own campaign to climb the world's fourteen highest peaks in the late 1980s, Viesturs looked forward with trepidation to undertaking Annapurna himself. Two failures to summit in 2000 and 2002 made Annapurna his nemesis. His successful 2005 ascent was the triumphant capstone of his climbing quest. In *The Will to Climb* Viesturs and co-author David Roberts bring the extraordinary challenges of Annapurna to vivid life through edge-of-your-seat accounts of the greatest climbs in the mountain's history, and of his own failed attempts and eventual success. In the process Viesturs ponders what Annapurna reveals about some of our most fundamental moral and spiritual questions—questions, he believes,

that we need to answer to lead our lives well. Edge of the Map McGraw Hill Professional Welcome back to Grace Valley, California, where the best things in life never change... "Andrews' wonderful *Down from the Mountain* is deeply informed by personal experience and made all the stronger by his compassion and measured thoughts... Welcome and impressive work." --Barry Lopez Winner of the Banff Mountain Book Competition's Mountain Environment & Natural History Award The story of a grizzly bear named Millie: her life, death, and cubs, and what they reveal about the changing character of the American West The grizzly is one of North America's few remaining large predators. Their range is diminished, but they're spreading across the West again. Descending into valleys where once they were king, bears find the landscape they'd known for eons utterly changed by the new most dominant animal: humans. As the grizzlies approach, the people of the region are wary, at best, of their return. In searing detail, award-winning writer, Montana rancher, and conservationist Bryce Andrews tells us about one such grizzly. Millie is a typical mother: strong, cunning, fiercely protective

of her cubs. But raising those cubs--a challenging task in the best of times--becomes ever harder as the mountains change, the climate warms and people crowd the valleys. There are obvious dangers, like poachers, and subtle ones as well, like the corn field that draws her out of the foothills and sets her on a path toward trouble and ruin. That trouble is where Bryce's story intersects with Millie's. It is the heart of *Down from the Mountain*, a singular drama evoking a much larger one: an entangled, bloody collision between two species in the modern-day West, where the shrinking wilds force man and bear into ever closer proximity.

Ten days passed while the storm raged, yet no rescue was mounted. All seven perished in what remains the most tragic expedition in American climbing history. Revisiting the event in the tradition of Norman Maclean's *Young Men and Fire*, James M. Tabor uncovers elements of controversy, finger-pointing, and cover-up that make this disaster unlike any other.

" In climbing the Seven Summits, Silvia Vasquez-Lavado did nothing less than take back her own life—one brave step at a time. She will inspire untold numbers of souls with this story, for her victory is a win on behalf of all of us. " —Elizabeth Gilbert
Endless ice. Thin air. The threat of dropping into nothingness thousands of feet below. This is the climb Silvia Vasquez-Lavado braves in her page-turning, pulse-raising memoir chronicling her journey to Mount Everest. A Latina hero in the elite macho tech world of Silicon Valley, privately, she was hanging by a thread. Deep in the throes of alcoholism, hiding her sexuality from her family, and repressing the abuse she'd suffered as a child, she started climbing. Something about the brute force required for the ascent—the risk and spirit and sheer size of the mountains and death's close proximity—woke her up. She then took her biggest pain as a

survivor to the biggest mountain: Everest.

“ The Mother of the World, ” as it ’ s known in Nepal, allows few to reach her summit, but Silvia didn ’ t go alone. She gathered a group of young female survivors and led them to base camp alongside her. It was never easy. At times hair-raising, nerve-racking, and always challenging, Silvia remembers the acute anxiety of leading a group of novice climbers to Everest ’ s base, all the while coping with her own nerves of summiting. But, there were also moments of peace, joy, and healing with the strength of her fellow survivors and community propelling her forward. In the Shadow of the Mountain is a remarkable story of heroism, one which awakens in all of us a lust for adventure, an appetite for risk, and faith in our own resilience.
