It's tempting to think that we live in an unprecedentedly fertile age for conspiracy theories, with seemingly each churn of the news cycle bringing fresh manifestations of large-scale paranoia. But the sad fact is that these narratives of suspicion—and the delusional psychologies that fuel them—have been a constant presence in American life for nearly as long as there's been an America. In this sweeping book, Thomas Milan Konda traces the country's obsession with conspiratorial thought from the early days of the republic to our own anxious moment. Conspiracies of Conspiracies details centuries of sinister speculations—from antisemitism and anti-Catholicism to UFOs and reptilian humanoids—and their often incendiary outcomes. Rather than simply rehashing the surface eccentricities of such theories, Konda draws from his unprecedented assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self-sealing worlds of denial. What is distinctively American about these theories, he argues, is not simply our country's homegrown obsession with them but their ongoing prevalence and virulence. Konda proves that conspiracy theories are no harmless sideshow. They are instead the dark and secret heart of American political history—one that is poisoning the bloodstream of an increasingly sick body politic.

#1 New York Times bestseller for 13 consecutive weeks! "As long as humanity speaks of virtue and dreams of freedom, the life and writings of Whittaker Chambers will ennoble and inspire." - PRESIDENT RONALD REAGAN "One of the dozen or so indispensable books of the century..." - GEORGE F. WILL "Witness changed my worldview, my philosophical perceptions, and, without exaggeration, my life." - ROBERT D. NOVAK, from his Foreward "Chambers has written one of the really significant American autobiographies. When some future Plutarch writes his American Live, he will find in Chambers penetrating and terrible insights into America in the early twentieth century." - ARTHUR SCHLESINGER JR. "Chambers had a gift for language....to call Chambers an activist or Witness a political event is to say Dostoevsky was a criminologist or Crime and Punishment a morality tract." - WASHINGTON POST "Chambers was not just the witness against Alger Hiss, but was also one of the articulators of the modern conservative philosophy, a philosophy that has something to do with restoring the spiritual values of politics." - SAM TANENHAUS, author of Whittaker Chambers "One of the few indispensable autobiographies

ever written by an American - and one of the best written, too." - HILTON KRAMER, *The New Criterion* First published in 1952, *Witness* is the true story of Soviet spies in America and the trial that captivated a nation. Part literary effort, part philosophical treatise, this intriguing autobiography recounts the famous Alger Hiss case and reveals much more. Chambers' worldview and his belief that "man without mysticism is a monster" went on to help make political conservatism a national force. *Regnery History's Cold War Classics* edition is the most comprehensive version of *Witness* ever published, featuring forewords collected from all previous editions, including discussions from luminaries William F. Buckley Jr., Robert D. Novak, Milton Hindus, and Alfred S. Regnery.

The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization; giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations.

It's an idea I read from Cleon Skousen from his book in the 1950s, *The Naked Communist*, where he talked about [how] someday the history of this country's going to be lost because it's going to be hijacked by intellectuals and communists and everything else. And I think we're there."—Glenn Beck, host of the nationally syndicated Glenn Beck Radio Program "The Naked Communist lays out the whole progressive plan. Edgar Hoover, first Director of the Federal Bureau of Investigation "We believe in a moral code. Communism denies innate right or wrong. As W. Cleon Skousen has said in his timely book, *The Naked Communist: The communist 'has convinced himself that nothing is evil which answers the call of expediency.'* This is a most damnable doctrine. People who truly accept such a philosophy have neither conscience nor honor. Force, trickery, lies, broken promises are wholly justified."—Ezra Taft Benson, United States Secretary of Agriculture under President Eisenhower

Dr. W. Cleon Skousen spent the majority of his life researching the gospel, the U.S. Constitution, the founding of America and writing numerous books and articles on the topic. He is also one of the most well-known, respected defenders of America and the gospel the world has ever known. At the time of his passing in 2006, his work was not yet finished. His book *The Cleansing of America*, written in 1994 and given into the care and keeping of his sons, is now being brought forth for the first time ever. Included in these pages are the events and stages the Lord has predicted, through his servants, the winding-up scenes of this world. It helps the reader understand: the nature of prophecy, the known chronology of prophetic events, and the importance of staying close to the Lord and his prophets during the difficult and challenging years prior to the Second Coming. We are fast approaching those prophetic events. Some are upon us even now. If we are prepared and obedient, we need not fear these events, but rather embrace them for the blessings they portend. **Mama Bear Apologetics** Izzard Ink Publishing
The Director of the Federal Bureau of Investigation explains the startling facts about the major menace of our time, communism: what it is, how it works, what its aims are, the real dangers it poses, and what loyal American citizens must know to protect their freedom. **MASTERS OF DECEIT** is a powerful and informative book—a firsthand account of American communism from its beginnings to the present, written by a man more intimately familiar with the complete story than any other American. Mr. Hoover shows the day-to-day operations of the Communist Party, USA: who the communists are, what they claim, why people be-come communists and why some break away. He describes life within the Party, communist strategy and tactics, methods of mass agitation and underground infiltration, espionage, sabotage, and its treatment of minorities. The picture of what life in this country would be under

communism (toward which thou-sands of misguided Americans actually are working now!) is vivid and shocking. The forceful, driving message of this book is clarified with many incidents and anecdotes, definitions of communist terms, key dates, and a list of international communist organizations and publications which illustrate the communist Trojan horse in action. And it concretely outlines just what you can do now to combat the evils of the “false religion” of communism, so that you can stay free. MASTERS OF DECEIT is one of the most important books of our time—a warning of the clear and present danger to our way of life.

“International communism is not dead but more powerful and insidious than ever before.” That’s the message of this new book by veteran journalist and media critic Cliff Kincaid. The subject is the Marxist dialectic and communism’s worldwide advance. Chinese Red Army Commander Lin Biao called Marxist dialectics, the communist ideology of struggle and deception, a “spiritual atom bomb,” far superior to the real thing. Lenin called it the “living soul” of Marxism. The *Sword of Revolution* and the *Communist Apocalypse* explains this dangerous and sinister ideology. For the first time, a former U.S. intelligence agency official explains how the Sino-Soviet “split” deceived U.S. policymakers and weakened the Free World. America’s Survival, Inc. was the first American organization that warned about Barack Obama’s Marxist background and outlook when he ran for president in 2008. This book explains how Marxists have carried out the “fundamental transformation” of the United States, as Obama called it, and how Pope Francis has become the leading proponent of a world government based on Marxist principles.

From the days of Father Abraham to the rise of King David were ten turbulent centuries filled with pathos and drama. These were the times of many notable personalities from the Old Testament. This is the epoch of the famous patriarchs Abraham, Isaac and Jacob. Their exemplary lives, as they stood true and faithful in the midst of adversity, are especially poignant today. They were followed by the exciting and tumultuous life of Joseph, who rose to become prime minister of Egypt, and saved that nation from starvation and ruin through his prophetic gifts. From the desert and thundering slopes of Mount Sinai then came the amazing life of Moses, who rose out of his own fear to become one of the greatest prophets and leaders ever known, who used the power of the priesthood to unleash an astonishing flood of miracles that exceeded any other epoch until the ministry of Jesus Christ. He was soon followed by the great Ephraimite general, Joshua, who in his old age lead the children of Israel forth in battle as they conquered the land of Palestine which had been promised to them by the Lord. However, Israel’s rise to greatness was short-circuited by several hundred years of iniquity as they turned from the Lord and wallowed in sin. Fortunately, the Lord did not forsake them as he sent messages of light and hope to many prophets and judges such as Gideon, Deborah, Ruth and Samuel, whose lives still inspire us today. Eventually the children of Israel began to see glimpses of a new golden epoch of righteousness and prosperity through the influence of the prophet Samuel and the rise of King Saul and King David. All of these great names belong to the thrilling third thousand years of human history. The *Third Thousand Years*, like its predecessor, *The First 2,000 Years*, makes the Old Testament come alive with new understanding. Obscure and misunderstood passages of scripture can now be understood through

the additional light of modern revelation. The text is carefully documented so that every important point is correlated with appropriate passages in the scriptures. Helpful maps, charts and illustrations are also included to enhance our understanding of this fascinating and dynamic epoch of history. This eBook includes the original index, illustrations, footnotes, table of contents and page numbering from the printed format.

The United States of America has been blessed with the world’s greatest political success formula. In a little over a century, this formula allowed a small segment of the human family—less than 6 percent—to become the richest nation on earth. It allowed them to create more than half of the world’s total output in production and enjoy the highest standard of living in the history of the world. In this book, we learn how the Founding Fathers discovered this success formula. Much of this discovery is told in the words of the Founders themselves, so that the reader can feel the power of their minds sweeping away thousands of years of bad government and illogical laws to formulate a whole new society based on human freedom. By returning to the roots of the Founders’ thinking, and contemplating the logic that they used in establishing the Constitution, we can better understand the challenges and solutions that confront us in today’s political world. This eBook includes the original index, illustrations, footnotes, table of contents and page numbering from the printed format.

The explosive, behind-the-scenes story of Donald Trump’s high-stakes confrontation with Beijing, from an award-winning Washington Post columnist and peerless observer of the U.S.–China relationship There was no calm before the storm. Donald Trump’s surprise electoral victory shattered the fragile understanding between Washington and Beijing, putting the most important relationship of the twenty-first century in the hands of a novice who had bitterly attacked China from the campaign trail. Almost as soon as he entered office, Trump brought to a boil the long-simmering rivalry between the two countries, while also striking up a “friendship” with Chinese president Xi Jinping — whose manipulations of his American counterpart would undermine the White House’s already disjointed response to the historic challenge of a rising China. All the while, Trump’s own officials fought to steer U.S. policy from within. By the time the COVID-19 pandemic erupted in Wuhan, Trump’s love-hate relationship with Xi had sparked a trade war, while Xi’s aggression had pushed the world to the brink of a new Cold War. But their quarrel had also forced a long-overdue reckoning within the United States over China’s

audacious foreign-influence operations, horrific human rights abuses, and creeping digital despotism. Ironically, this awakening was one of the biggest foreign-policy victories of Trump’s fractious term in office. Filled with shocking revelations drawn from Josh Rogin’s unparalleled access to top U.S. officials from the White House and deep within the country’s foreign policy machine, *Chaos Under Heaven* reveals an administration at war with itself during perhaps our most urgent hour.

It contains a distillation of more than one hundred books and treatises—many of them written by Communist authors. It attempts to present the Communist in his true native elements, stripped of propaganda and pretense. Hence, the title, *The Naked Communist*. Therefore, in this book, an attempt has been made to present Communism as the living, breathing force in the earth which it really is. The political development, the philosophy, the economic theory and the big names in international Communism have all been presented in their historical setting. Fantastic Victory tells the brief but exciting account of Israel’s 1967 miracle war, and how this conflict split the world into two camps—those for and those against Israel’s fight for its life. With less than 3 million people facing the combined strength of 110 million Arabs supported by the Soviet Union, Israel should have been wiped off the globe. Instead, after six miraculous days, Israel shocked the world by defeating her enemy and winning back not only her ancient capital of Jerusalem, but hundreds of miles of enemy territory as well. Fantastic Victory explains the complexities behind the decades of failed negotiations and subsequent wars to conquer the Jews. Israel’s past and present are uniquely central to the world’s three great religions—Christianity, Judaism, and Islam—and in the pages that follow, a framework for understanding Israel’s future can be seen intimately tied to the outcome of its miracle Six Day War of 1967.
