Kriegskinder speaking for the
(Children of first time ever
War). People about what
who were born in marked them:

bombs, fleeing, fear, hunger, illness, death, missing fathers, overwhelmed mothers--as well as the speechlessness of the post-war era, when memories of the war and its intergenerational consequences were supposed to be forgotten. The forty-five haunting portraits--all of them taken recently with an analog camera--are contrasted with the narratives of childhood experiences told by eyewitnesses.

This makes Kriegskinder a portrait of a generation whose memories will soon disappear with them. Exhibition: 2.2.-8.4.2018, f3 - freiraum für fotografie, Berlin Nazi Plunder Knopf

When discussing the German war crimes of the Second World War, modern histories have focused on the Holocaust. While the Final Solution was a unique and unparalleled horror, German atrocities did not end there. The Nazis terrorized their own citizens, tortured and murdered POWs, and carried out countless executions throughout occupied Europe. Lord Russell

of Liverpool was part of the legal team that brought Nazi war criminals to justice, and from this first-hand position, he published the sensational, bestselling *The Scourge of the Swastika* in 1954. Liverpool shows that the actions of the Third Reich, including the Holocaust, were illegal, not merely immoral.

World War Two:
Under the Shadow
of the Swastika

University of
Illinois Press

A riveting account of the five most crucial days in twentieth-century diplomatic history: from Pearl Harbor to Hitler's declaration of war on the United States By early December 1941, war had changed much of the world beyond

recognition. Nazi Germany occupied most of the European continent, while in Asia, the Second Sino-Japanese War had turned China into a battleground. But these conflicts were not yet inextricably linked—and the United States remained at peace. Hitler's American Gamble recounts the five days that upended everything: December 7 to 11. Tracing developments in real time and backed by deep archival research, historians Brendan Simms and Charlie

Laderman show how Hitler's intervention was not the inexplicable decision of a man so bloodthirsty that he forgot all strategy, but a calculated risk that can only be understood in a truly global context. This book reveals how December 11, not Pearl Harbor, was the real watershed that created a world war and transformed international history. American Amnesia and the Violent Pursuit of Happiness Yale University Press Complicated Complicity is about the forms

taken, motives and spectrum of actions of European collaboration with the Nazis. State authorities, local military organizations and individual players in different countries and areas including France, Scandinavia, Lithuania, Poland, Ukraine, Romania, Hungary, Slovakia, Greece, Italy, Portugal and the countries of the former Yugoslavia are discussed in the context of the history of World War II, the history of occupation and everyday life and as an essential influencing factor in the Holocaust. New forms of

right-wing populism, nationalism and growing intolerance of Jewish fellow citizens and minorities have made such historically sensitive studies considerably more difficult in many countries today. In this time of increasing historical revisionism in Europe, such elucidating discourse is particularly relevant. *The Spies who Armed the Resistance, Sabotaged the Nazis, and Helped Win World War II* Time Inc. Books "Essential

reading. This eloquent, far-ranging analysis of the national psyche goes as far as any book I've ever read toward explaining the peculiar American yen for war and more war." —Bend Sinigaglia, author of *Billy Lynn's Long Halftime Walk* and *Beautiful Country Again* In *Looking for the Good War*, Elizabeth D. Samet reexamines the literature, art, and culture that emerged after World War II, bringing her expertise as a

professor of English at West Point to bear on the complexity of the postwar period in national life. She exposes the confusion about American identity that was expressed during and immediately after the war, and the deep national ambivalence toward war, violence, and veterans—all of which were suppressed in subsequent decades by a dangerously sentimental attitude toward the United States '

disseminated into the recesses of everyday life. Calling on impressive archival research, Jeffrey Herf recreates the wall posters that Germans saw while waiting for the streetcar, the radio speeches they heard at home or on the street, the headlines that blared from newsstands. The Jewish Enemy is the first extensive study of how anti-Semitism pervaded and

shaped Nazi propaganda during World War II and the Holocaust, and how it pulled together the diverse elements of a delusionary Nazi worldview. Here we find an original and haunting exposition of the ways in which Hitler legitimized war and genocide to his own people, as necessary to destroy an allegedly omnipotent Jewish foe. In an era when both anti-

Semitism and conspiracy theories continue to influence world politics, Herf offers a timely reminder of their dangers along with a fresh interpretation of the paranoia underlying the ideology of the Third Reich. Target Switzerland Westview Press A panoramic narrative of the years leading up to the Second World War—a tale of democratic crisis, racial conflict, and a belated

recognition of evil, with profound resonance for our own time. Berlin, November 1937. Adolf Hitler meets with his military commanders to impress upon them the urgent necessity for a war of aggression in eastern Europe. Some generals are unnerved by the Führer's grandiose plan, but these dissenters are silenced one by one, setting in motion events that will culminate in the most calamitous war in history.

Benjamin Hett takes us behind the scenes in Berlin, London, Moscow, and Washington, revealing the unsettled politics within each country in the wake of the German dictator's growing provocations. He reveals the fitful path by which anti-Nazi forces inside and outside Germany came to understand Hitler's true menace to European civilization and learned to oppose him, painting a

sweeping portrait of governments under siege, as larger-than-life figures struggled to turn events to their advantage. As in *The Death of Democracy*, his acclaimed history of the fall of the Weimar Republic, Hett draws on original sources and newly released documents to show how these long-ago conflicts have unexpected resonances in our own time. To read *The Nazi Menace* is to see past and present in a new

and unnerving light.

This unsettling and illuminating history reveals how Germany's fractured republic gave way to the Third Reich, from the formation of the Nazi party to the rise of Hitler. Amid the ravages of economic depression, Germans in the early 1930s were pulled to political extremes both left and right. Then, in the spring of 1933,

Germany turned itself inside out, from a deeply divided republic into a one-party dictatorship. In Hitler's First Hundred Days, award-winning historian Peter Fritzsche offers a probing account of the pivotal moments when the majority of Germans seemed, all at once, to join the Nazis to construct the Third Reich. Fritzsche examines the events of the period -- the elections and mass arrests, the bonfires and gunfire, the patriotic rallies and anti-Jewish boycotts -- to understand both the terrifying

power the National Socialists exerted over ordinary Germans and the powerful appeal of the new era they promised. Hitler's First Hundred Days is the chilling story of the beginning of the end, when one hundred days inaugurated a new thousand-year Reich. Hitler's American Gamble Cornell University Press

Frank
Blauchman was sixteen years old when the war broke out. In 1942, the killings began in Poland. With his family and friends decimated by the roundups, Blaichman decided that he would rather die fighting; he set off for the forest to find the underground

bunkers of Jews who had already escaped. Together they formed a partisan force dedicated to fighting the Germans. This is a harrowing, utterly moving memoir of a young Polish Jew who chose not to go quietly and defied the mighty German war machine during World War II.

The Nazis Brand Nu Words
This volume of Campfire's graphic history of World War II deals with the war in Europe from the rise of the Nazis through to May 1945 and VE Day. World War II shows the effects of the war on the soldiers, the refugees, the victims and protagonists of the most terrible conflict the world has ever known. In a world that is forgetting the lessons history has to teach, this book is a

reminder of the horrors that come from intolerance. In the 1930s, a great evil was rising in the heart of Europe, a threat unlike any seen before. German leader Adolf Hitler, a madman bent on world domination, was raising an army and growing more violent by the day. The world knew that Hitler had to be stopped. But fearing a war, this growing threat of Hitler's Nazi army was left unchecked. The world simply watched as Germany sank into darkness. The world merely prayed that war would not breach their borders. The world waited. And they waited too long. As cities fell to ruin and millions were slaughtered, the growing darkness of Hitler and his Nazi empire branched out far beyond Europe—tor Asia and Africa and America—and soon threatened to claim the entire world. France, England, Russia, the United States... no single nation had the strength to combat this darkness, at least not on their own. With the fate of the world hanging in the balance, the one final, desperate hope was that all of these nations united together might muster the strength to save humanity.
