In 1492, when Ferdinand and Isabella expel the Jews from Spain, six year old Esther Sarfati finds herself travelling to Rome to join her father, a successful banker who has helped his fellow Spaniard, Rodrigo Borgia, finance his bid for the Papacy. Nine years later, as Pope Alexander VI, he repays the favour by offering Esther a place in the household of his daughter, Lucrezia, who is about to marry Alfonso d'Este, heir to the Duchy of Ferrara. Against her own better judgement, but in accordance with her father's wishes for her future, the re-named Violante converts to Christianity and enters Lucrezia's service as lady-in-waiting. Flattered by Lucrezia's favour, seduced by the friendship of her cousin, Angela Borgia and swept off her feet by Lucrezia's glamorous and dangerous brother, Cesare, she is drawn into a web of intrigue and deceit which will test her heart to its utmost and burden her with secrets she must carry to her grave. Set against the glittering background of the court of Ferrara in the early sixteenth century, this is the heart-breaking story of what happens to an innocent abroad in the world of the Borgias.

Twenty years in the making, Sarah Schulman's *Let the Record Show* is the most comprehensive political history ever assembled of ACT UP and American AIDS activism. In just six years, ACT UP, New York, a broad and unlikely coalition of activists from all races, genders, sexualities, and backgrounds, changed the world. Armed with rancor, desperation, intelligence, and creativity, it took on the AIDS crisis with an indefatigable, ingenious, and multifaceted attack on the corporations, institutions, governments, and individuals who stood in the way of AIDS treatment for all. They stormed the FDA and NIH in Washington, DC, and started needle exchange programs in New York; they took over Grand Central Terminal and fought to change the legal definition of AIDS to include women; they transformed the American insurance industry, weaponized art and advertising to push their agenda, and battled—and beat—The New York Times, the Catholic Church, and the pharmaceutical industry. Their activism, in its complex and intersectional power, transformed the lives of people with AIDS and the bigoted society that had abandoned them. Based on more than two hundred interviews with ACT UP members and rich with lessons for today's activists, *Let the Record Show* is a revelatory exploration—and long-overdue reassessment—of the coalition's inner workings, conflicts, achievements, and ultimate fracture. Schulman, one of the most revered queer writers and thinkers of her generation, explores the how and the why, examining, with her characteristic rigor and bite, how a group of desperate outcasts changed America forever, and in the process created a livable future for generations of people across the world.

Narrating Midlife: Crisis, Transition, and Transformation is rooted in a discussion about why it is important to address the midlife years in ways that challenge and interrogate the myths that surround this phase of life. Although readers are free to construct their own meaning after reading each narrative, they are encouraged to attend to the ways in which each narrative reveals how the author grapples with their particular issues communicatively. More important, readers are invited to see the power of narrative re-framing as authors seek to understand, interpret and "live" midlife change(s) in ways that are empowering and life affirming. In this book, contributors spin compelling and meaningful narratives about change at midlife. The empty nest, the surprise discovery of cancer, re-defining one's life at midlife and re-imagining long term commitment after divorce are just some of the topics explored in this book. Auto-ethnographically crafted, the narratives presented throughout the book aim to show how managing and living through change at midlife is very much a communicative endeavor.

Blood Test is a vampire novel by Sarah R. Shaber, who is best known as the award-winning author of the Louise Pearlie World War II mysteries. The chilling tale begins when small town dentist James Godwin and his wife, Shelley, attend a rock concert and spot a young man who is the perfect image of James' brother, who disappeared twenty years ago. But this man is only twenty, while James' brother would be nearly forty if he were alive. James' brother's doppelganger turns out to be a destitute student, Carl Miller, who also has a disabling disease. In sympathy, and because of Carl's uncanny resemblance to his brother, James takes Carl under his wing. At first Carl is universally liked in James' small town, but a series of disturbing incidents occur, which brings Carl, the odd stranger, to the attention of the local sheriff, and causes a deep rift between James and Shelley. Evidence mounts that Carl may be responsible for two grisly deaths, while gossip about his peculiar lifestyle turns the town against him. And despite all reason, James begins to think of Carl as his brother. Even when James learns the stunning truth about Carl he cannot bring himself to abandon the young man. The sheriff, reinforced by state troopers, is determined to capture or kill Carl. James has to decide whether to risk everything, even Shelley, to help him escape.
