Knossos - Wikipedia

The site of Knossos on the Kephala hill in central Crete is of great archaeological and historical importance for both Greece and Europe. Dating to 7000 B.C., it is the home of one of the earliest farming societies in southeastern Europe, and, in the later Bronze Age periods, it developed into a remarkable

center of economic and social organization within the island, enjoying extensive relations with the Aegean, the Greek mainland, the Near East, and Egypt.

The Neolithic Settlement of Knossos in Crete: New Evidence ...
The site of Knossos has had a very long history of human habitation, beginning with the founding of the first Neolithic settlement (c. 7,000 BC). Neolithic remains are prolific

in Crete. They are found in caves, rock shelters, houses, and settlements. Knossos has a thick Neolithic layer indicating the site was a sequence of settlements before the Palace Period. The earliest was placed on bedrock. The Neolithic Settlement of Knossos in Crete

The Neolithic Settlement of Knossos in Crete
Knossos is the largest Bronze Age settlement on the island of Crete, and it also can lay claim to one of the most advanced civilizations of Europe of that era. It is an expansive palace as well as a religious and residential center, but is also steeped in legend and mystery involving King Minos,. the Minotaur and the Labyrinth as recited by Homer. Originally developed as a large neolithic village around 6000 BC, Knossos evolved into a sophisticated center

of language and arts with ...

AD. The palace was built on the
Kephala hill and had easy access to
the sea and the Cretan interior.
According to tradition, it was the
seat of the wise king Minos.

The Minoan palace is the main site
of interest at Knossos, an important
city in antiquity, which was
inhabited continuously from the
Neolithic period until the 5th c.
