[The New Puberty Book - Early Development in Today's Girls ...](#)

The focus of the New Puberty book is early development in girls - with examples as young as 5 year old hitting puberty (but mostly geared at the 8-9 year range). Yet ideally this is also a book for parents with young girls who haven't started showing puberty signs yet to give them an idea of what to look for and some insight into why the modern girl is hitting puberty so much earlier/younger ...
