In The New Terrorism Walter Laqueur, one of the foremost experts on terrorism and international strategic affairs, recounts the history of terrorism and, more importantly, examines the future of terrorist activity worldwide. Laqueur traces the chilling trend away from terrorism perpetrated by groups of oppressed nationalists and radicals seeking political change to small clusters of fanatics bent on vengeance and simple destruction.

The New Terrorism: Fanaticism and the Arms of Mass ...

Laqueur argues that as a new quasi-religious extreme right rises, with more personal and less ideological motivations than their left-wing counterparts, it is only a matter of time before the attainability of weapons of mass destruction creates a terrifying and unstable scenario. From militant separatism in Kashmir to state-sponsored extremism in Libya and ecoterrorism in the West, The New Terrorism offers a thorough account of terrorism in all its past and current manifestations.

The New Terrorism: Fanaticism and the Arms of Mass ...

Although it is hardly a how-to book, The New Terrorism describes what it takes for terrorism to succeed--Laqueur's list of essentials includes careful planning, an ability to improvise, small units of operation, the anonymity of large urban areas, and ready sources of money. The book is full of rich observations, and there probably isn't a more knowledgeable source on the subject than Laqueur, who has written several books on European and Middle Eastern history and military analysis.

Abstract. This article aims to challenge the dominant view that the expressions of terrorism since the last decade of the twentieth century are fundamentally new. It questions the new aspects of terrorism, such as the transnational nature of the perpetrators and their organizations, their religious inspiration and fanaticism, their use of weapons of mass destruction, and their indiscriminate targeting.

More frequently, "new" terrorism has focused on a perceived new threat of mass casualties caused by chemical, biological or other agents. Discussions of "new terrorism" are often highly alarmist: it is described as "far more lethal than anything that has come before it," "a terrorism that seeks the total collapse of its opponents" (Dore Gold, the American Spectator, March/April 2003).
