The Nicomachean Ethics of Aristotle Legare Street Press
Consists of sixteen essays on one of the most widely studied texts in the history of ethics. This book discusses the human good, the general nature of virtue, the distinctive characteristics of particular virtues, voluntariness, self-control, and pleasure. It illuminates Aristotle's ethics for both scholars and students new to the work.

The Fifth Book of the Nicomachean Ethics of Aristotle John Wiley & Sons
An excellent new translation and commentary. It will serve newcomers as an informative, accessible introduction to the Nicomachean Ethics and to many issues in Aristotle's philosophy, but also has much to offer advanced scholars. The commentary is noteworthy for its frequent citations of relevant passages from other works in Aristotle's corpus, which often shed new light on the texts. Reeve's translation is meticulous: it hits the virtuous mean--accurate and technical, yet readable--between translation's vicious extremes of faithlessness and indigestibility.--Jessica Moss, New York University

The Nicomachean Ethics of Aristotle
Forgotten Books
This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. The Cambridge Companion to Aristotle's Nicomachean Ethics Read Books Ltd
Aristotle's Nicomachean Ethics is one of the most important ethical treatises ever written, and has had a profound influence on the subsequent development of ethics and moral psychology. This collection of essays, written by both senior and younger scholars in the field, presents a thorough and close examination of the work. The essays address a broad range of issues including the compositional integrity of the Ethics, the nature of desire, the value of emotions, happiness and the virtues. The result is a volume which will challenge and advance the scholarship on the Ethics, establishing new ways of viewing and appreciating the work for all scholars of Aristotle.

Aristotle's Nicomachean Ethics Book X Oxford, Clarendon P
Anyone interested in theories of moral or human practice will find in Aristotle's Nicomachean Ethics one of the few basic models relevant through to today. At the centre of his analysis, both sober and cautious, are such concepts as happiness, virtue, choice, prudence, incontinence, pleasure and friendship. Aristotle's arguments are by no means of merely historical interest, but continue to exert a key influence on present-day ethical debate. The thirteen contributions in this volume present the foundations of Aristotle's investigation, along with the modern background of its reception.

Commentary on Aristotle's Nicomachean Ethics Lebooks Editora
Briefly: Aristotle's Nicomachean Ethics is a short summary of Aristotle's Nicomachean Ethics which is designed to assist university and school-leaving students in acquiring knowledge and understanding of this key text in the philosophy of religion. The Nicomachean Ethics of Aristotel Cambridge University Press
This volume provides a systematic guide to Aristotle's Nicomachean Ethics, a key text of ancient philosophy, and Western philosophy in general.

Grounding for the Metaphysics of Morals Legare Street Press
Nicomachean Ethics is the magnum opus of the eminent Greek philosopher Aristotle on Ethics. In it, he unveils his teleological conception of practical rationality, his vision of virtue, and his reflections on the role of habit and prudence. It is considered the most mature and representative work of Aristotelian thought. The title derives from the name of his son and also disciple, Nicomachus. It is believed that the work is the result of Nicomachus' lecture notes, published by Aristotle's disciples after Nicomachus' premature death in combat. It is an indispensable ebook in the field of philosophy and ethics.

The Nicomachean Ethics of Aristotle, Tr. by F.H. Peters LibreDigital
Excerpt from The Nicomachean Ethics of Aristotle: Newly Translated Into English Not only do the Nicomachean Ethics lie almost at the threshold of Moral Philosophy, but they have, perhaps, more in common with modern thought than any other among the treatises of Aristotle of equal length and importance. The whole of the eighth and ninth books, and, with them, the fourth, the last half of the third, and a considerable portion of the first, may be read without any previous knowledge of Greek Philosophy, and will be found intelligible. The discussion of the physical basis of certain forms of depravity apparently moral, the casuistical determination of the degrees of responsibility, and the treatment of the question of education, are by no means the only points that occur which have in the present day a great interest of their own, and on which it is as well to hear what any great thinker has advanced. And, lastly, the Nicomachean Ethics are of special value as being a brief and methodical system of Moral Philosophy, instead of a desultory and unconnected discussion of some one question in a great subject. The Nicomachean Ethics of Aristotle SDE Classics
The Routledge Guidebook to Aristotle's Nicomachean Ethics introduces the major themes in Aristotle's great book and acts as a companion for reading this key work.

The Nicomachean Ethics Princeton University Press
Aristotle's "Nicomachean Ethics" is considered to be one of the most important treatises on ethics ever written. In an incredibly detailed study of virtue and vice in man, Aristotle examines one of the most central themes to man, the nature of goodness itself. In Aristotle's "Nicomachean Ethics," he asserts that virtue is essential to happiness and that man must live in accordance with the "doctrine of the mean" (the balance between excess and deficiency) to achieve such happiness.

Nicomachean Ethics Hackett Publishing
Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
Aristotle's Nicomachean Ethics Forgotten Books
One of the philosopher's most studied works, the Nicomachean Ethics, is here made available in the same

translation in the World's Classics. Notes of primarily textual importance have been omitted, leaving only those of more general philosophical interest the index has been adapted for this edition and there is a new Introduction by the translator. Though Aristotle at hisdeath left other ethical works, and this book is therefore called after its first editor Nicomachus, it is this which is usually meant when Aristotle's Ethics is referred to. As such it is of fundamental importance in the development of philosophy.Keywords: Nicomachean Ethics Aristotle Philosophical Interest Philosophy Fundamental Importance Philosopher Translator Translation

The Blackwell Guide to Aristotle's Nicomachean Ethics Hackett Publishing
This expanded edition of James Ellington's preeminent translation includes Ellington's new translation of Kant's essay Of a Supposed Right to Lie Because of Philanthropic Concerns in which Kant replies to one of the standard objections to his moral theory as presented in the main text: that it requires us to tell the truth even in the face of disastrous consequences.

The Routledge Guidebook to Aristotle's Nicomachean Ethics Brill Academic Pub

The Nicomachean Ethics of Aristotle, tr. by F.H. Peters
Cambridge University Press
Gabriel Richardson Lear presents a bold new approach to one of the enduring debates about Aristotle's Nicomachean Ethics: the controversy about whether it coherently argues that the best life for humans is one devoted to a single activity, namely philosophical contemplation. Many scholars oppose this reading because the bulk of the Ethics is devoted to various moral virtues--courage and generosity, for example--that are not in any obvious way either manifestations of philosophical contemplation or subordinated to it. They argue that Aristotle was inconsistent, and that we should not try to read the entire Ethics as an attempt to flesh out the notion that the best life aims at the "monistic good" of contemplation. In defending the unity and coherence of the Ethics, Lear argues that, in Aristotle's view, we may act for the sake of an end not just by instrumentally bringing it about but also by approximating it. She then argues that, for Aristotle, the excellent rational activity of moral virtue is an approximation of theoretical contemplation. Thus, the happiest person chooses moral virtue as an approximation of contemplation in practical life. Richardson Lear bolsters this interpretation by examining three moral virtues--courage, temperance, and greatness of soul--and the way they are fine. Elegantly written and rigorously argued, this is a major contribution to our understanding of a central issue in Aristotle's moral philosophy.

The Ethics of Aristotle Hymns Ancient and Modern Ltd
Of Aristotleas works, few have had as lasting an influence on subsequent Western thought as "The Nicomachean Ethics," In it, he argues that happiness consists in aactivity of the soul in accordance with virtue, a defining avirtuea as both moral (courage, generosity, and justice) and intellectual (knowledge, wisdom, and insight). Aristotle also discusses the nature of practical reasoning, the different forms of friendship, and the relationship between individual virtue and the state. Featuring a lucid translation, a new introduction, updated suggestions for further reading, and a chronology of Aristotleas life and works, this is the authoritative edition of a seminal intellectual masterpiece.

Notes on the Nicomachean Ethics of Aristotle St. Augustine's Press
Excerpt from The Nicomachean Ethics of Aristotle This treatise is intended to assist those who wish to study Aldrich's Logic, in order to pass their era mination in the Oa'ford Schools. The author's sole endeavour has been to render the study of the science as easy as he could, and he has freely made use of the sug gestions of others, wherever he thought that they were calculated to elucidate any dé'iculty.
