Strategic Planning is woefully out of fashion, with many bloggers and thought-leaders claiming it is, in fact, dead. They couldn't be more wrong! Strategic Planning is an integral part of any nonprofit's

ability to conduct effective social change. It allows the organization's staff, management, volunteers and board to identify and focus on the top priorities that the stakeholders agree will matter most to accomplishing their mission. Without a strategy, and the execution that follows - nonprofits are awash in mission creep, money chasing, and burned out and demoralized staff. Ain't nobody wants that. This book will walk you through the process of Strategic Planning invented by Sarai Johnson of Lean Nonprofit. Her practice is based on recent innovations in the business sector, building on the concepts of Lean Canvas and

the Business Model Canvas. Adapting this strategic, action-based tool for nonprofits provides you, the nonprofit practitioner, with step-by-step instructions for leading a group of people through the planning process. Oh, did we mention it is a ONE DAY PROCESS? Yeah, it's cool. We know.

Praise for Nonprofit Strategic Planning Leveraging Sarbanes-Oxley Best Practices "A robust nonprofit sector is a vital part of a civil society. Keeping the sector strong through effective strategic planning and implementation is a critical assignment. As a thought leader in the nonprofit sector, Dr. Jackson's book on the relationship of Sarbanes-Oxley best practices with strategic planning is an invaluable resource for nonprofit governing boards and employees. Her step-by-step, practical approach is easy to read and, more important, provides a specific road map to effective planning."

-Larry Brewster, Dean, College of Professional Studies University of San Francisco "Dr. Jackson's practical and straightforward approach to creating a strategic plan is quite refreshing. I believe that more and more nonprofits understand that they need to be run just as any business needs to be run-with focus, clarity, and purpose. The ideas and methodology stress the importance of sound risk management and the rewards of having such a plan in place. Trying to do good deeds does not guarantee that a nonprofit organization will succeed. The organization must do good deeds well. This textbook offers a blueprint for nonprofit success, adopting a strategic perspective that assumes vision, mission, strategy, and execution as the pillars upon which success is built. While many experts on nonprofits argue that fundraising is the single key to success, William B. Werther Jr., and Evan M. Berman show that effective fundraising depends largely on how the nonprofit is positioned and how it performs. They address such issues as leadership and board development, strategic planning, staffing, fundraising, partnering, productivity improvement, and accountability. Emphasizing the context of nonprofits and detailing improvements that can be made by managers at all levels, the book strikes a balance between policy discussion and practical usefulness. Written for use in graduate courses in nonprofit management, Third Sector Management will also be invaluable to directors, staff, volunteers, and board members of nonprofit organizations.
