A beautiful lost classic of nature writing which sits alongside Tarka the Otter, Watership Down, War Horse and The Story of a Red Deer This is the story of Wulfgar, the dark-furred fox of Dartmoor, and of his nemesis, Scoble the trapper, in the seasons leading up to the pitiless winter of 1947. As breathtaking in its descriptions of the natural world as it is perceptive its portrayal of damaged humanity, it is both a portrait of place and a gripping story of survival. Uniquely straddling the worlds of animals and men, Brian Carter's A Black Fox Running is a masterpiece: lyrical, unforgiving and unforgettable.

#1 NEW YORK TIMES BESTSELLER! At one of the most chaotic periods in American history, in a time of national distrust and despair, one tanned TV host holds the key to the future. In *How I Saved the World*, Jesse Watters takes readers on a tour of his life from basement-dwelling Fox minion to pampered champion of right-thinking Americans. He has divined great truths about the nature of our country while stumbling across beaches asking oblivious college students basic political questions and while stumbling out of Air Force One with the President. Interspersed are his thoughtful suggestions for overcoming left-wing radicalism, maintaining American democracy, moving beyond aging hippies (like his long-suffering, loving parents), saving the world from social justice warriors and the deep state—all while smirking his way through life in only the nicest way. Watters outlines the stark choice ahead of us between all-American hamburgers and leftist Green New Deal breadlines (okay, maybe that one is a no-brainer) and shows the way for order and fairness to be restored. A manifesto and a call-to-arms from a man for all seasons, *How I Saved the World* is a hilarious, enlightening, entertaining book with a reasonable chance of winning a Nobel Prize in every category, even chemistry.

Written by an L. A. County homicide detective and former atheist, *Cold-Case Christianity* examines the claims of the New Testament using the skills and strategies of a hard-to-convince criminal investigator. Christianity could be defined as a “cold case”: it makes a claim about an event from the distant past for which there is little forensic evidence. In *Cold-Case Christianity*, J. Warner Wallace uses his nationally recognized skills as a homicide detective to look at the evidence and eyewitnesses behind Christian beliefs. Including gripping stories from his career and the visual techniques he developed in the courtroom, Wallace uses illustration to examine the powerful evidence that validates the claims of Christianity. A unique apologetic that speaks to readers’ intense interest in detective stories, *Cold-Case Christianity* inspires readers to have confidence in Christ as it prepares them to articulate the case for Christianity.

Field and Hedgerow Simon and Schuster

It is a chilly and foggy Twelfth Night, wild with North Sea wind, when a bizarre murder disturbs the outward piece of Rackmoor, a tiny Yorkshire fishing village with a past that proves a tangled maze of unrequited loves, unrevenged wrongs, and even undiscovered murders. Inspector Jury finds no easy answers in his investigation—not even the identity of the victim, a beautiful young woman. Was she Gemma Temple, an impostor, or was she really Dillys March, Colonel Titus Crael’s long-lost ward, returning after eight years to the Colonel’s country seat and to a share of his fortune? And who was her murderer?

"The author keeps us enthralled with the rich interior and exterior lives of her characters in this emotionally stormy family saga." THE NEW YORK TIMES BOOK REVIEW When Scotland Yard superintendent Richard Jury is drawn into a brief affair with a troubled widow named Jane Holdsworth, her subsequent death makes him a suspect in her murder. Unable to leave London, Jury sends Melrose Plant, eighth Earl of Caverness to the Lake District to pry open the Holdsworth family's locked box of secrets. Plant does what he is bidden, in his own particular style, and what he uncovers is a shocking sheaf of surprises about the death-prone Holdsworth clan and its growing number of orphans.... "As always, Grimes' characters are gems, and her writing is as witty as ever." USA TODAY Selected by the Literary Guild and the Mystery Guild

The Magician King TrineDay

For waitress and cub reporter Emma Graham, tragedy defines where she lives. Spirit Lake, La Porte, and Lake Noir have been held in thrall by intertwined crimes: the murders of Mary-Evelyn Devereau, Rose Queen, and Fern Queen; the supposed kidnapping of a four-month-old baby from the Belle Ruin hotel twenty years previously; and, most recently, the attack on Emma. And with the arrival of an unexpected visitor and a drifter, it looks like

MONEY Master the Game Ballantine Books

"A superb biography, not to be missed either by armchair explorers or students of human nature...reveals the famed missionary and explorer as he really was."—Cleveland Plain Dealer David Livingstone is revered as one of history's greatest explorers and missionaries, the first European to cross Africa, and the first to find Victoria Falls and the source of the Congo River. In this exciting new edition of his biography, Tim Jeal, author of the National Book Critics Circle Award-winning Stanley, draws on fresh sources and archival discoveries to provide the most fully rounded portrait of this complicated man—dogged by failure throughout his life despite his full share of success. Using Livingstone's original field notebooks, Jeal finds that the explorer's problems with his African followers were far graver than previously understood. From recently discovered letters he elaborates on the explorer's decision to send his wife, Mary, back home to England. He also uncovers fascinating information about Livingstone's importance to the British Empire and about his relationship with the journalist-adventurer Henry Morton Stanley. In addition, Jeal here evokes the full pathos of the explorer's final journey. This masterful, updated biography also features an excellent selection of new maps and illustrations. "Fascinating."—Los Angeles Times "A thrilling and in the end moving work...The Livingstone who emerges is a man of terrifying dimensions."—Irish Press

JFK to 911 is already a global phenomenon, having began as a Youtube video which achieved over a billion hits by becoming the first documentary in human history to untangle all the establishment lies and reveal the entire truth about the Kennedy Assassination and 911. These disclosures so frightened the powers-that-be that President Trump and the Queen of England took the joint decision to ban it altogether, so that if you read this book, you will be learning the most cardinal secrets which your government would much rather you did not know. Nearly all intelligent people these days are wary of what we are being told by the mainstream media, but fewer are aware that the very notion of 'fake news' began with the words on these pages, and that all government policy in recent times has been an ongoing effort to hold back the increasing enlightenment these words have inspired. Legions of people have taken the trouble to go online so that they could tell the world about how learning that absolutely everything is a rich man's trick—the justice system, the education system, the economic system, and most importantly, the media. Francis Richard Conolly is extremely hopeful that the people who have made a movie which he originally gave them for free such a central part of their existence will now buy this book in order to build the revenues which he needs to make the sequel which everyone wants to see.

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

In her latest Richard Jury adventure, Martha Grimes takes us to Ashdown Dean, a little English village where animals are dying in a series of seemingly innocuous accidents. While the puzzling deaths of village pets may raise some idle gossip over a pint or two at the Deer Leap, the village pub, this hardly seems a case for Superintendent Jury of Scotland Yard. Nor does it seem much of a challenge for the combined deductive powers of Jury and Melrose, the affable former Earl of Caverness. It is his mystery-writing, amethyst-eyed friend, Polly Praed, who drags Plant and Jury to Ashdown Dean. The impatient Polly, having yanked open a call box in the pouring rain, is ill-prepared for what lands at her feet. The now-deadly case is cause for calling in Scotland Yard.

Its cozy pubs and inns with their polished pewter and blazing hearths had become scenes of the most bizarre crimes. Who were the victims? And who was the murderer? A stranger? A maniac? Or the disarmingly friendly man next door?

The Old Fox Deceived Marshall Cavendish

The protagonist of Tobias Wolff's shrewdly—and at times devastatingly—observed first novel is a boy at an elite prep school in 1960. He is an outsider who has learned to mimic the negligent manner of his more privileged classmates. Like many of them, he wants more than anything on earth to become a writer. But to do that he must first learn to tell the truth about himself. The agency of revelation is the school literary contest, whose winner will be awarded an audience with the most legendary writer of his time. As the fever of competition infects the boy and his classmates, fraying alliances, exposing weaknesses, *Old School* explores the ensuing deceptions and betrayals with an unblinking eye and a bottomless store of empathy. The result is further evidence that Wolff is an authentic American master.
