What do we mean when we use the term 'failed states'? This book presents the origins of the term, how it shaped the conceptual framework for international development and security in the post-Cold War era, and why. The book also questions how specific international interventions on both aid and security fronts - greatly varied by actor - based on these outsiders' perceptions of state failure create conditions that fit their characterizations of failed states. Susan L. Woodward offers details of international interventions in peacebuilding, statebuilding, development assistance, and armed conflict by all these specific actors. The book analyzes the failure to re-order the international system after 1991 that the conceptual debate in the early 1990s sought - to the serious detriment of the countries labelled failed or fragile and the concept's packaging of the entire 'third world', despite its growing diversity since the mid-1980s, as one.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity. Complemented by archival photos from Margaret Pokiak-Fenton's collection and striking artworks from Liz Amini-Holmes, this inspiring first-person account of a plucky girl's determination to confront her tormentor will linger with young readers.

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

Alistair May explores the part played by sexual ethics and the rhetoric of sexual morality in the formation of Christian identity by focusing on the longest discussion of sex in the New Testament - 1 Corinthians 5-7. Viewing this passage as a unified discourse, he considers how Paul's ethics serve to give his converts a distinct identity. Although tools from the social sciences are used, the major focus of the work is in careful exegesis of the text. As the study progresses through the text of 1 Corinthians 5-7, May argues that Paul strives to maintain an absolute distinction between insider and outsider in regard to morality. Immorality belongs exclusively to the outside and to the pre-conversion identity of the Corinthians. Hence those labelled immoral can no longer remain in the community. 1 Corinthians 6.12-20 reveals that, for Paul, sexual sin is unique in its destruction of Christian identity and that any sexual participation is a potential conflict with participation in Christ. Thus, chapter 6 is directly connected with the discussion of the legitimacy of marriage in 1 Corinthians 7. Rejecting the scholarly consensus that Paul is reacting to ascetics, May controversially argues that chapter 7 should be read as Paul's commendation of singleness to a reluctant Corinthian audience. This is volume 278 in the Journal for the Study of the New Testament Supplement series.

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A "brilliant" (Lupita Nyong'o, Time), "poignant" (Entertainment Weekly), "soul-nourishing" (USA Today) memoir about coming of age during the twilight of apartheid "Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten." —Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Times, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took

to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Statistics tell us that Christianity has an image problem. But what are the stories behind the stats? This question led Jim Henderson, Todd Hunter, and Craig Spinks to host a national interview tour with young non-Christians and Christians in Kansas City, Phoenix, Denver, and Seattle. They wanted to hear why Christians get such a bad rap and what we can do to improve. Inspired by David Kinnaman's bestselling book *unChristian*, *The Outsider Interviews* provides close encounters with what a new generation really thinks of Christianity and helps readers learn to live faithfully in a fast-changing world.

The informal economy is a dynamic, active, and hotly debated domain in the developing world.

Unfortunately, it remains one of the most ignored areas in mainstream economic theory and development economics. In this book, Marjit and Kar provide a detailed theoretical overview and analytical understanding of informal labour markets in the context of economic reforms. Grounded in the neo-classical general equilibrium framework, the book analyses the impact of deregulatory policies on the welfare of informal workers in a segmented labour market. It discusses how informal wage responds to unemployment in the formal sector by exploring the interactions between the formal and the informal labour markets. The authors also examine institutional factors—political, economic, and governance mechanisms—to explore the major causes that sustain or impede the dynamism of informal labour markets. They offer empirical applications using official data sources and micro-level case studies of informal activities in West Bengal, Maharashtra, and Gujarat.
