From the moment Adam and Eve were expelled from Paradise, exile has been a part of the human experience. The circumstances in which individuals or entire peoples are compelled to leave their homeland are as various as they are numerous, and in this book John Simpson has brought together examples of exile from all over the world, and from all periods of history. The emphasis is on personal experience, with writers from Ovid to Solzhenitsyn describing their exile, their emotions, their struggle and their despair. For those who have chosen a life in exile, the response is more mixed: ambivalence about the country they have left and the country they have chosen suffuses the writing of intellectuals seeking freedom of speech, as of ex-pats living in India or Australia. Those persecuted for their faith or their politics rub shoulders with those fleeing from war, or from debt, or even from the weather. Castaways and spies, premiers and princes describe their departure, their reception and sometimes their return, in an anthology that is by turns inspiring, moving, and deeply thought-provoking. With sources ranging from police records, newspaper articles, interviews, letters and memoirs, as well as verse and fiction, and settings as remote as Iran and Russia, China and Palestine, The Oxford Book of Exile provides a fascinating insight into an experience that touches so many, and captures the imagination of us all.

This is a unique anthology. Drawing on the full range of English prose, wherever it has been written, it illustrates the growth, development, and resources of the language from the legends of Sir Thomas Malory to the novels of Kashuo Ishiguro. In the process it reveals a variety of achievements which no other language can match. The book represents an enormous diversity of men and women - from John Bunyan to John Updike, from Brendan Behan to Chinua Achebe, from Dorothy Wordsworth to Patrick White. As the centuries progress, American writers increase their presence, and by the twentieth century there are contributions from India, Australia, Canada, Nigeria, the Caribbean and many other parts of the world. The selection is no less remarkable for its breadth in terms of subject-matter and treatment. Fiction is generously represented, but many other kinds of writing have also been drawn on: letters, diaries, and memoirs; history and philosophy; criticism and reportage; sermons and satire; travel-books; reflections on art, science, politics and sport. There are classic and well-loved passages, and also a great deal that is unfamiliar. John Gross has chosen with consummate skill to produce a volume that is both a testimonial to English prose and an endless source of pleasurable browsing.

Health foods and dietary supplements are widely used throughout the world - it is estimated that more than seventy million people in Europe regularly buy these products, and it is a billion dollar business in the USA. Health foods include vitamins, minerals, cereals, nuts, herbal medicines, functional foods, and many others. A large number of people use these foods in the belief that they contribute to their general health, while, in most countries, little or no information is given on products explaining their therapeutic values. The Oxford Book of Health Foods begins with an account of modern concepts of human nutrition, followed by a series of over one hundred accounts of individual health foods and dietary supplements. In all cases the importance of these products in human health is explained, and, for herbal

medicines, the evidence for their claimed therapeutic value is given, and toxic effects are described. Full-colour illustrations accompany these accounts. The Oxford Book of Health Foods will be of interest not just to health professionals, but to all people with an interest in health foods and healthy eating. The text is supplemented throughout by beautifully drawn botanical illustrations.

This is the ultimate anthology of theatrical anecdotes, edited by lifelong theatre-lover Gyles Brandreth in the Oxford tradition, and covering every kind of theatrical story and experience from the age of Shakespeare and Marlowe to the age of Stoppard and Mamet, from Richard Burbage to Richard Briers, from Nell Gwynn to Daniel Day-Lewis, from Sarah Bernhardt to Judi Dench. Players, playwrights, prompters, producers--they all feature. The Oxford Book of Theatrical Anecdotes provides a comprehensive, revealing, and hugely entertaining portrait of the world of theatre across four hundred years. Many of the anecdotes are humorous: all have something pertinent and illuminating to say about an aspect of theatrical life--whether it is the art of playwriting, the craft of covering up missed cues, the drama of the First Night, the nightmare of touring, or the secret ingredients of star quality. Edmund Kean, Henry Irving, John Gielgud, Laurence Olivier, Ellen Terry, Edith Evans, Maggie Smith, Helen Mirren--the great 'names' are all here, of course, but there are tales of the unexpected, too--and the unknown. This is a book--presented in five acts, with a suitably anecdotal and personal prologue from Gyles Brandreth--where, once in a while, the understudy takes centre-stage and Gyles Brandreth treats triumph and disaster just the same, including stories from the tattiest touring companies as well as from Broadway, the West End and theatres, large and small, in Australia, India, and across Europe.

Over the past one hundred and fifty years, and most especially since the late 1960s, Canadian women have made a remarkable contribution to world literature. Carol Shields won the Pulitzer Prize; Margaret Atwood, Janette Turner Hospital, Anne Michaels, and Carol Shields were short listed for the Booker Award; Atwood and Michaels were nominated for the Orange. This anthology encompasses over a century and a half of writing by Canadian women. The stories collected here represent a cross-section of the best writing by women in the genre and demonstrate a wide range of styles from the realistic to the post-modern and experimental. All the stories are about women: in childhood, adolescence, maturity, old age; in relationships such as daughters, sisters, lovers, mothers; in a variety of social and political contexts. Though all authors are Canadian by birth or choice, nationality and gender have different meanings for each of them. But all write confidently and eloquently of their experience as women. At the end of the last century, no one could have predicted such wealth in women's writing. Now we have only to celebrate it. This collection of highly readable stories is ideal for the trade market while at the same time Rosemary Sullivan establishes a canon of stories for the university/college market. These are writers engaging with many different genres, including historical fiction, domestic drama and more abstract introspection. No reader will fail to be amused, enthralled, intrigued, or invigorated.

Selected and introduced by Richard Dawkins, The Oxford Book of Modern Science Writing is a celebration of the finest writing by scientists for a wider audience - revealing that many of the best scientists have displayed as much imagination and skill with the pen as they have in the laboratory. This is a rich and vibrant collection that captures the poetry and excitement of

communicating scientific understanding and scientific effort from 1900 to the present day. Professor Dawkins has included writing from a diverse range of scientists, some of whom need no introduction, and some of whose works have become modern classics, while others may be less familiar - but all convey the passion of great scientists writing about their science.

The thrill and chill of the ghost story is displayed in all its variety and vitality through this marvellous anthology. Ranging from the early 19th century to the 1960s, the collection reveals the development of the genre, and showcases many of its greatest expositors - from Sir Walter Scott, H. G. Wells, M. R. James, T. H. White, Walter de la Mare, and Elizabeth Bowen in the UK to Edith Wharton in America. Though its heyday coincided with the golden age of Empire in the nineteenth century, the ghost story enjoyed a second flowering between the two World Wars and its popularity is as great as ever.

Adulterous love, marital love, virginal love, religious devotion, agape, lust, eros: there are an infinite variety of meanings that can be packed into the four letters that spell love, and writers of fiction have been trying for centuries to plumb its depths. We turn to literature in large part to learn what love is and what it should be, and readers of The Oxford Book of English Love Stories will find consolation and inspiration in equal measure from some of the sharpest observers of this most essential human emotion. From the bittersweet ending of Trollope's ultra-Trollopian "The Parson's Daughter of Oxney Colne;" to the intricate rituals of courtship in Sylvia Plath's "Stone Boy with Dolphin;" to Paul Theroux's sardonic study of innocence in "An English Unofficial Rose," this collection is a looking glass into the many moods of love. Editor John Sutherland has searched two centuries of English literature to select twenty-eight wholly original works, choosing those that best represent the rich and varied nature of love itself. Readers will find stories by Mary Shelley, W. M. Thackeray, Thomas Hardy, H. G. Wells, John Galsworthy, Virginia Woolf, Aldous Huxley, Graham Greene, and many others, all of which explore the infinite varieties of love and its shifting rules. Indeed, the rules of the game of love tend to change with every new set of players and with each generation. In D.H. Lawrence's "Samson and Delilah," the game is violent and fraught with physical injury. In Katherine Mansfield's "Something Childish but very Natural," love is more reminiscent of two people playing chess blindfolded. And, in Joyce Cary's "The Tunnel," it seems that the lovers cannot, tantalizingly, even get themselves on to the same playing field. Bittersweet endings, ironic angles on traditional platitudes, and other surprises make the insights of writers such as Elizabeth Bowen, W. Somerset Maugham, or V. S. Pritchett always fresh and challenging. Simple or sophisticated, sometimes hilarious and often very moving, The Oxford Book of English Love Stories brings a delightful perspective to the mysteries of love.

Women detectives, police procedurals, the amateur sleuth, locked-room mysteries are all here, and in her introduction Patricia Craig examines the figure of the detective in international literature.

Fifty-one poets represented--deliberately fewer than in most anthologies, so that sufficient space can be devoted to each poet to afford a real understanding of his or her work.
