Sons of Guns is the official tie-in to Discovery's hit show starring Will Hayden, founder and owner of Red Jacket Firearms, the Louisiana-based family business which has been called the nation's most unique custom weapons shop. With characteristic down-home wit and wisdom, Hayden tells the stories behind some of the best episodes of the show. He talks about his all-time favorite weapons, what it takes to modify a normal, run-of-the-mill rifle into a world-class work of art, guns in America (their construction, their history, and using them responsibly), and the trials and tribulations of creating a successful family-owned firearms business. If there's one thing folks from Louisiana can do, says Hayden, it's tell a hell of a story. Sons of Guns is the next best thing to sitting around the campfire with Hayden and his crew, listening to him recount his favorites.

In 1913, 13-year-old Mary Phagan was found brutally murdered in the basement of the Atlanta pencil factory where she worked. The factory manager, a college-educated Jew named Leo Frank, was arrested, tried, and convicted in a trial that seized national headlines. When the governor commuted his death sentence, Frank was kidnapped and lynched by a group of prominent local citizens. Steve Oney's acclaimed account re-creates the entire story for the first time, from the police investigations to the gripping trial to the brutal lynching and its aftermath. Oney vividly renders Atlanta, a city enjoying newfound prosperity a half-century after the Civil War, but still rife with barely hidden prejudices and resentments. He introduces a Dickensian pageant of characters, including zealous policemen, intrepid reporters, Frank's martyred wife, and a fiery populist who manipulated local anger at Northern newspapers that pushed for Frank's exoneration. Combining investigative journalism and sweeping social history, this is the definitive account of one of American history's most repellent and most fascinating moments.

The killer responsible, Ramzi Tayeb, has proved maddeningly elusive. Then a chance: a Mossad operation in Central Europe aims to steal information from Ramzi's brother, a terrorist financier who could lead to the shadowed extremist. Slaton takes the lead, but a mission to hack the man's laptop goes horribly wrong, and soon the police are investigating a murder. Slaton is withdrawing his team to safety when new information arises. Ramzi himself may soon appear--a rare moment of vulnerability.
