disappointment over mind and bodies that are weak can become a crushing disappointment. Into any health decline, the Christian is challenged to do something through the ancient teaching of Holy Scripture. Is anyone among you sick? Let them call the elders of the church to pray over him and anoint him with oil in the name of the Lord...the prayer of a righteous person is powerful and effective (James 5:14-16, NIV). Lorna Dueck and Dr. Nell DeBoer have sat at the cross-section of hope and faith in their unique roles as journalist and hospital chaplain. In their combined work of *For Your Health: A Look into God's Methods for Healing*, they document what happens when people put the mystery of God, obedience to pray for healing, and broken health into spiritual practice. Dr. Rodriguez Hirsch's life (born in Venezuela, 1954) has been distinguished by a deep desire to help others in spiritual, emotional and physical pain. He wished to study to become a medical doctor, but through a series of life twists he was led to obtain a Bachelor of Science in Chemical and Petroleum Refining Engineering from Colorado School of Mines (Golden, Colorado - USA). In 1997, after more than thirty years of a successful chemical process engineering career that included the Venezuelan petroleum industry and other private business concerns, William accepted God's calling to fulltime service in His Kingdom. As part of his theological and leadership preparation, he attended Regent University (Virginia Beach, Virginia - USA) with a scholarship from the Latin American Leadership Program (LALP), as an outstanding emerging leader. At Regent, William completed a joint Masters degree program in Biblical Studies and Family Counseling and a doctorate in Strategic Leadership in 2003. After receiving spiritual healing from the devastating pain and loss of his beloved child Andreina, age 16, William began to seriously study and research the Biblical foundations and connections of spiritual, emotional and physical healing while ministering to hundreds of people together with his wife Luisa. In 2007 they both established Restoring The Foundation, Inc. (RTF) a Christian non-profit organization. The calling was to teach the church Scriptural truths contained in the Bible related to broken-heartedness and specific areas of spiritual/emotional captivity and oppression according to Jesus' ministry model stated in Luke 4:18-19 and Isaiah 61:1ff. RTF has become a vibrant international ministry that is touching the lives of thousands as the Body of Christ learns about on-going miracles, signs and wonders that attest to God's Kingdom being ushered on earth. In The Art of Healing Prayer, Charles Ringma and Mary Dickau invite us to enter the realm of God's curative love to aid those seeking the wholeness of Christ. Implicit in this invitation is the understanding that we have opened up our own lives to God's healing grace. For this is a costly ministry, in which precious time and resources will be required of us as we pray biblically, imaginatively and sensitively for someone who may be on a very difficult journey to restoration. Although often carried out behind the scenes of much of the Church's activity, the healing ministry is one of joy and transformation. A person released from long-standing inner woundedness – from the prison of reaction, bitterness, self-pity, self-protection and fear – is one who can grow to inhabit new wide spaces of love and forgiveness. In turn, they may become a source of goodness and healing, as the 'magic' of God's grace results in eddies of life-giving love for others.

Illness comes in many forms and too often we're told to ignore it, hide it, or simply run away from it. With decades of service in the healing ministry as both a teacher and one called upon to pray for healing, Father Richard McAlear has a different approach that recognizes - even embraces - the complex nature of illness. A cluster of emotions anger, anxiety, fear, hate, negative self-image, resentment, and self-pity affect our health. Therefore, a healing ministry must be handled in such a way that emotions and psychological factors are addressed with care and sensitivity. It must also embrace the vast beauty and power and depth of our Catholic Faith, keeping it: Christ-centered deeply rooted in the person and ministry of the Lord Jesus Christ. Today, we need to marshal all the healing resources at our disposal. A growing body of evidence shows that spiritual healing practices have a positive impact, both on healing and on the quality of life that people experience while under medical care. Dr. Bruce Epperly calls on Christians to embrace these varied resources. He crosses both the boundaries between formal scientific medical practice and spiritual healing, and the boundaries between healing practices that come from a variety of spiritual and religious traditions. He then incorporates these into a distinctly Christian theology of healing practice. Where healing takes place, he sees God at work. Healing characterized the ministry of Jesus, and Epperly believes that it should characterize the life and ministry of Christians in all times and places. This is a balanced call that doesn't pit one tradition against another and also does not place spiritual healing practices in opposition to medical science. This is about embracing what heals. Today, we need to marshal all the healing resources at our disposal.

Healing the Whole Man Handbook CCB Publishing

In our deliverance ministry over the years, we have seen many physical healings result from the casting out of evil spirits. We have recorded a number of these miraculous testimonies here. In this teaching, we identify the most common spiritual roots of sickness, and offer a prayer of freedom from the enemy's harassment in our physical bodies. When faced with persistent or chronic sickness, the question arises, do we have a need for physical healing, or is there a need for a deliverance from a spirit of infirmity along with a physical healing? For wisdom in the matter, we turn to the recorded ministry of Jesus Christ. In all the physical healings performed by Jesus in Scripture, one third of these healings involved the casting out of evil spirits. Some people He ministered to were in need of purely a physical healing, while others required deliverance from harassing spirits, those hidden forces operating behind the scenes seeking to block wholeness. In one powerful example, Jesus encountered a woman who had been hunched over for eighteen years, attributed by Luke to a spirit of infirmity. When Jesus set her free from this harassing spirit, she was instantly healed, and stood up straight for the first time in almost two decades. In another instance, Jesus cast out a deaf and mute spirit so that a boy could hear and speak. These are not dogmatic rules; in each instance we must seek the discernment of the Holy Spirit for the need at hand. Because my wife and I operate in the ministry of deliverance, the majority of physical healings we have seen resulted from the casting out of evil spirits. Jesus came to destroy the work of the devil, and to heal all those oppressed by the devil. The Holy Spirit desires to reveal whether there is a spirit of infirmity operating in a situation, or not. The

gifts of the Holy Spirit are designed to expose the enemy's hand, to learn whether hidden forces are in some way hindering a person's progress to wholeness. Our Hands, His Healing Morehouse Publishing

parish healing ministry, along with history, practical advice, and guidance. For Christians, the ministry of healing prayer goes back to our deepest roots, to Jesus of Nazareth, who cared for those suffering in body and in spirit. As his followers, we are challenged—and empowered—to do the same. Members of mainline Christian denominations, however, may be skeptical about this ministry, as author Avery Brooke was at first. She tells the surprising story of healing prayer in her own life and that of her church in Connecticut. With clarity and thoroughness, she traces the history of healing prayer, examining it as part of the larger "landscape of prayer." This book provides a foundation—and a wealth of practical information—for clergy and lay people to explore healing prayer in their own lives and parishes.

Healing in the Landscape of Prayer Baker Books

Our society is brimming with people suffering the effects of past abuse, rejection, physical illness, bad choices, and unhealthy relationships. Author and radio personality Norma Dearing has spent thousands of hours listening to and praying with those in need of emotional, physical, or spiritual healing. In The Healing Touch, she shares stories from countless people who have been set free from unhealthy relationships, unholy unions, addictions, generational influences, and physical illnesses associated with these. The Healing Touch is divided into three sections: Healing our Relationship with God, How to Have a Right Relationship with God, and Living within a Right Relationship with God. Packed with wise counsel, the book includes specific prayers for healing in the reader's own life and prayer for others in need. Dearing also covers rarely addressed problems such as healing from occult experience and pre-birth traumas, and explores the issue of why some people are not healed. This handbook is for counselors, lay leaders, pastors, and individuals who want to see people delivered from the unnatural ravages of hurt and sin. It is a powerful reminder that God longs for his people to be healthy and whole.

The Art of Healing Prayer Charisma Media

It's almost undeniable that God is working miracles of healing in evangelization today. For theologians, pastors, and evangelists some questions arise: What is the relationship between physical healing and the message of salvation? Should the church really expect God to do healings in evangelization today? Father Thelen answers these questions by examining the relationship between the preaching of the gospel and physical healing in the New Testament. The gospel of Jesus Christ is not simply a message of fact; it is a message of power that is often expressed through the working of deeds that serve as signs of the reality preached: salvation. As signs of the kingdom, healings that accompany the preaching of the gospel play an indispensable role in bringing people to faith throughout the New Testament. The result of this biblical study is a clarion call for the church to renew its faith in God's desire and power to confirm his word through healing. As healing becomes more accepted and frequent in evangelization, a Catholic biblical and theological approach to healing as it relates to evangelization—an approach that can be different from its Protestant counterpart—is necessary. This modest book fits this need.

Jesus as Healer Wm. B. Eerdmans Publishing

Healings and miracles play a prominent role in the New Testament accounts of Jesus' life and ministry. In the Western Christian tradition, however, Jesus' works of healing tend to be downplayed and understood as little more than a demonstration of his divine power. In this book Jan-Olav Henriksen and Karl Olav Sandnes draw on both contemporary systematic theology and New Testament scholarship to challenge and investigate the reasons for that oversight. They constructively consider what it can mean for Christian theology today to understand Jesus as a healer, to embrace fully the embodied character of the Christian faith, and to recognize the many ways in which God can still be seen to have a healing presence in the world.
