The Pioneers James Fenimore Cooper Scholar's Choice

When Cooper's most memorable hero, Leatherstocking, started an American tradition by setting off into the sunset in *The Pioneers*, one early reader said of his departure, "I longed to go with him." American readers couldn't get enough of the Leatherstocking saga (collected in two Library of America volumes) and, fourteen years after he portrayed the death of Natty Bumppo in *The Prairie*, Cooper brought him back in *The Pathfinder*, or *The Inland Sea* (1841). During the Seven Years War, just after the events narrated in *The Last of the Mohicans*, Natty brings the daughter of a British sergeant to her father's station on the Great Lakes, where the French and their Indian allies are plotting a treacherous ambush. Here, for the first time, he falls in love with a woman, before Cooper manages bring off

Leatherstocking's most poignant, and perhaps his most revealing, escape. *The Deerslayer* (1842) brings the saga full circle and follows the young Natty on his first warpath. Instinctively gifted in the arts of the forest, pious in his respect for the unspoiled wilderness on which he loves to gaze, honorable to friend and foe alike, stoic under torture, and cool under fire, the young Leatherstocking emerges as Cooper's noblest figure of the American frontier. Enacting a rite of passage both for its hero and for the culture he comes to represent, this last book in the series glows with a timelessness that readers everywhere will find enchanting. An examination of the renowned author's complex portrayal of frontier America James Fenimore Cooper's *Leather-Stocking* tales—*The Pioneers*, *The Last of the Mohicans*, *The Prairie*, *The Pathfinder*, and *The Deerslayer* (1823–1841)—romantically portray frontier America during the colonial and early republican eras. Bill Christophersen's *Resurrecting Leather-Stocking: Pathfinding in Jacksonian America* suggests they also highlight problems plaguing nineteenth-century America during the contentious decades following the Missouri Compromise, when Congress admitted Missouri to the Union as a slave state. During the 1820s and 1830s, the nation was riven by sectional

animosity, slavery, prejudice, populist politics, and finally economic collapse. Christophersen argues that Cooper used his fictions to imagine a path forward for the Republic. Cooper, he further suggests, brought back Leather-Stocking to test whether the common man, as empowered by Jackson's presidency, was capable of republican virtue—something the author considered key to renewing the nation.
