A pipe fitter can work with threaded pipe, flanged pipe and other types of piping to actually install it in place. Other fitters are responsible for having pipe cut to length and fitted with the other components (tees, ells, flanges,etc) to make a piece (usually called a spool) that a welder can then weld together.

There are a few books called the Pipefitter's Bible—this is one of them. It has been around for a long time. Mr Thomas W. Frankland wrote several pipe books. He belonged to Local 497 UA in Chicago and taught in the Washburne Trade School on West 31st Street. There are three books left in print: the Pipe Fitter's and Pipe Welder's Handbook, Pipe Trades Pocket Manual, and Pipe Template Layout.

Welder vs. Pipefitter. Boilermaker. I'm considering joining a union and starting a career as either a general welder, pipe fitter or boiler maker. The unions here in Edmonton are Local 488 for pipe fitters and welders, and Local 146 for boilermakers. I was wondering what peoples personal experiences were with these trades and with these unions.
