The Power of Limits : Proportional Harmonies in Nature ...

The essential concept in this book is the 'power of limits.' Doczi shows that this limiting factor is the

---

golden section. And he does it using almost no math!

The golden section has the powerful quality that division or expansion by this proportion always leads to harmonious growth.

manmade. He provides

beautiful graphics on each page--photographs, drawings, and diagrams, all in black and white. The images illustrate the concepts presented in the text.

Amazon.com: Customer reviews: The Power of Limits ...

The Power of Limits: Proportional Harmonies in Nature, Art and Architecture by Doczi, Gyorgy and a great selection of related books, art and collectibles available now at

The joining of unity and diversity in the discipline of proportional limitations creates forms that are beautiful to us because they embody the principles of the cosmic order of which we are a part; conversely, the limitlessness of that order is revealed by the strictness of its forms.
