As promised in the first few pages, his description of the zone system is truly more practical and less theoretical and dense than many of the other descriptions I've come across. In short, after reading Johnson's book, I am able to put the zone system to work...or

at least I'm beginning to. As with all things analog, it takes practice.

The Zone System requires a spot meter and full manual exposure mode. While a handheld spot meter is preferable, you can make do with your camera's built-in spot meter mode. If you're using the camera's spot mode, try metering with a telephoto lens to narrow the metering coverage appropriately.
