TPS2e - StatsMonkey.

A defining text in statistics education, The Basic Practice of Statistics puts data analysis at the forefront and begins to develop students' reasoning and judgment about statistical studies. Written by an author team of accomplished leaders in statistics education, The Basic Practice of Statistics

(BPS) reflects the actual practice of statistics, where data analysis and design of data production join with probability-based inference to form a coherent science of data.

At the time, the 3rd edition was sold for \$150 and I bought this 2nd edition used for about \$25. Anyways, for those wondering if there

is a huge difference in the materials covered between the books, there are not. The 2nd edition is basically identical to the 3rd edition. Practice problems, examples, and chapter contents are the same.
