During one month in the autumn of election year 2000, scores of movie-business strivers are focused on one goal: getting a piece of an elusive, but surely huge, television saga, the one that opens with Huns sweeping through Mongolia and closes

with a Mormon diviner in the Las Vegas desert; the sure-to-please-everyone multigenerational TV miniseries about diviners, those miracle workers who bring water to perpetually thirsty (and hungry and love-starved) humankind. Among the wannabes: Vanessa Meandro, hot-tempered head of Means of Production, an indie film company; her harried and varied staff; a Sikh cab driver, promoted to the office of -theory and practice of TV; a bipolar bicycle messenger, who makes a fateful mis-delivery; two celebrity publicists, the Vanderbilt girls; a thriller writer who gives Botox parties; the daughter of an L.A. big-shot, who is hired to fetch Vanessa's Krispy Kremes and more; a word man who coined the phrase -- inspired by a true story; and a supreme court justice who wants to write the script. A few true artists surface in the course

of Moody's rollicking but intricately woven novel, and real emotion eventually blossoms for most of Vanessa's staff at Means of Production, even herself. *The Diviners* is a cautionary tale about pointless ambition; a richly detailed look at the interlocking worlds of money, politics, addiction, sex, work, and family in modern America; and a masterpiece of comedy that will bring Rick Moody to a still higher level of appreciation.

It was a beautiful fall day in Connecticut when

Colleen Kelly Alexander, a lifelong athlete, rode her bike home from work. She had survived both a diagnosis of lupus and brain surgery, had a fulfilling career, and was married at last to the love of her life. Everything was good as she coasted along, meeting the eyes of a truck driver as he approached the stop sign beside her. He didn't stop. The truck hit Colleen, running over her lower body with front and back tires and dragging her across the pavement. As she bled out in the street, nearby strangers surrounded her and the driver attempted to get away. An EMT herself, Colleen knew she had to stay awake. "I've just been reconnected with my soulmate," she told the medic. "We want to have a baby. I can't die now. Please don't let me die." Five weeks in a coma and twenty-nine surgeries later, Colleen survived. Rather than let the trauma and PTSD control her life, she became determined to find a way to make something positive from her pain. She decided she'd run again and dedicate her race medals to the everyday heroes around us, including the medical staff and blood donors who saved her life. Since then Colleen has run fifty races and completed forty triathlons, including four half-Ironman events. Now a spokesperson for the Red Cross, Colleen shares her incredible inspirational story to encourage others to take that first step forward.

Annie's Baby Harper Collins

All the furniture in the house got wrecked except this one old wooden china cabinet in my grandmother's kitchen, which somehow remained standing despite all odds. One night, in the midst of a prayer, I glanced over at it and thought, If this cabinet could talk... What madness it had seen. The Lord spoke to me then.

"You're both here, and you both survived, and just like this cabinet, you remain unbroken." Tracy Elliott led a rough life. This honest memoir takes you into the heart of the gritty realities of the street and a life of addiction. But it is the story of a broken person's history and how God taught her that, in his loving eyes, she is whole. As a young, orphaned girl growing up in her grandmother's house with five alcoholic uncles, Tracy witnessed constant violence and

experienced abuse. Later in life, as a stripper in her mid-twenties, she lived hard and suffered the consequences. Now, she tells how her life was put back together by the grace of God. Tracy says, "No matter where you came from and what you've done, God wants you. No one is unforgivable, and no one is beneath His grace. God loved me when I was seven years old in old brown clogs, He loved me when I was working in strip clubs, and He loves me still." *Unbroken* is a moving story of a young woman who has discovered the power of God's loving forgiveness and grace and who wants to share it with a hurting world.

Today it seems that almost everyone has a view on what it means to be an "incel" and why these sexless men behave the way they do. The irony is that very little of this debate is informed sincerely with scientific data or by what these men have to say. This engaging book takes an in-depth look at three contemporary issues – lookism, romantic satisfaction, and modern dating – by exploring how incel men experience them in a variety of circumstances. As the very first published approach to inceldom of its kind, Dr. Lukas Castle draws on qualitative and quantitative data as well as addressing a theory of social interaction, which is branded The Blackpill. The author demonstrates the importance of developing an empirically informed approach to men's societal experiences based on an understanding of the significance of physical attractiveness. This is an important and timely book into the social problem of male inceldom which be invaluable to researchers in sociology and gender studies, as well as professionals concerned with men's health.
