Lives of the Novelists Simon and Schuster
Pictorial History Sutherland Shireby Pauline Curby is a new book in the famous series of pictorial histories which cover the suburbs of Sydney. The Shire is a beautiful and distinctive part of Sydney, surrounded by waterways and beaches. People have lived here in splendid isolation fishing, swimming, sailing, boating and surfing. From the Dharawal people to the wealthy white landowners the beauty and plentitude the land has offered has been Sydney  s secret. Wildflowers abounded and tall timber was cut to make way for small market gardens and dairies. Until the 1960s you could still buy fresh goats milk and honey over your fence and people were walking down to their local weir, creek or river to swim. Cronulla was the jewel in the crown of the Shire. Its scenic setting and access by train, tram or car to the beaches and Port Hacking

was a drawcard for holidaymakers from the city and the St George district particularly after the building of the Tom Uglys Bridge. Como opened to crowds of tourists with the opening of the train line and pleasure grounds abounded on the Georges and Port Hacking Rivers and people came to see the new National Park. Taren Point Bridge opened the way for further suburban growth and today Sutherland Shire is one of the biggest local government areas in Sydney. Illustrated with 200 historic black and white photographs this lovely book describes the development and maturing of the Shire from its earliest white settlement through to the extensive settlement we know today.

BESTSELLER • A bold work from the author of *The Black Swan* that challenges many of our long-held beliefs about risk and reward, politics and religion, finance and personal responsibility. In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one's own risks is an essential attribute of heroes, saints, and flourishing

people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights:

- For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations.
- Ethical rules aren't universal. You're part of a group larger than you, but it's still smaller than humanity in general.
- Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others.
- You can be an intellectual yet still be an idiot. "Educated philistines" have been wrong on everything from Stalinism to Iraq to low-carb diets.
- Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines.
- True religion is commitment, not just faith. How much you believe in something is manifested only by what you're willing to risk for it. The phrase "skin in the game" is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but

it's also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, "The symmetry of skin in the game is a simple rule that's necessary for fairness and justice, and the ultimate BS-buster," and "Never trust anyone who doesn't have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them."

The apocalypse can take many forms. Possibly our end will come by way of an addictive cell phone game that manipulates its users into a crowd-sourced mass murder. Or perhaps our downfall involves aliens drugging us into bliss and then taking it away. Maybe it'll be technological redundancy that leaves loved ones without a purpose, or corporations replacing the natural world with creatures more amenable to market pressure. All these apocalypses and many more can be found in Erica L. Satifka's debut collection, which gathers together twenty-three short stories from the past decade.

The Pitmen Painters Simon and Schuster
How to Do Things with Books in Victorian Britain asks how our culture came to frown on using books for any purpose other than reading. When did the coffee-table book become an object of scorn? Why did law courts forbid witnesses to kiss the Bible? What made Victorian cartoonists mock commuters who hid behind the newspaper, ladies who matched their books' binding to their dress, and servants who reduced newspapers to fish 'n' chips wrap? Shedding new light on novels by Thackeray, Dickens, the Brontës, Trollope, and Collins, as well as the urban sociology of Henry Mayhew, Leah Price also uncovers the lives and afterlives of anonymous religious tracts and household manuals. From knickknacks to wastepaper, books mattered to the Victorians in ways that cannot be explained by their printed content alone. And whether displayed, defaced, exchanged, or discarded, printed matter

participated, and still participates, in a range of transactions that stretches far beyond reading. Supplementing close readings with a sensitive reconstruction of how Victorians thought and felt about books, Price offers a new model for integrating literary theory with cultural history. *How to Do Things with Books in Victorian Britain* reshapes our understanding of the interplay between words and objects in the nineteenth century and beyond.

A Gentleman of Pleasure Simon and Schuster

Originally published in 1889, this work's protagonist Andrea Sperelli introduced the Italian culture to aestheticism and a taste for decadence. The young count seeks beauty, despises the bourgeois world, and rejects the basic rules of morality and social interaction. His corruption is evident in his sadistic superimposing of two women.

From Joan Juliet Buck, former editor-in-chief of *Vogue Paris* and “one of the most compelling personalities in the world of style” (*New York Times*) comes her dazzling, compulsively readable memoir: a fabulous account of four decades spent in the creative heart of London, New York, Los Angeles, and Paris—“If you loved *The Devil Wears Prada*, you’ll adore *The Price of Illusion*” (*Elle*). After a career writing for *Vogue* and *Vanity Fair*, she was named the first American woman to edit *Vogue Paris*. The vivid adventures of this thoughtful, incisive writer at the hub of dreams across two continents over fifty years are hilarious and heartbreaking. Including a spectacular cast of carefully observed legends, monsters, and stars (just look at the index!), this is the moving account of a remarkable woman’s rocky passage through glamour and passion, filial duty and family madness, in search of her true self.
