A Little History of Literature Henry Holt and Company

#1 NEW YORK TIMES BESTSELLER • A bold work from the author of *The Black Swan* that challenges many of our long-held beliefs about risk

and reward, politics and religion, finance and personal responsibility In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one ' s own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights:

- For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations.
- Ethical rules aren ' t universal. You ' re part of a group larger than you, but it ' s still smaller than humanity in general.
- Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others.
- You can be an intellectual yet still be an idiot. " Educated philistines " have been wrong on everything from Stalinism to Iraq to low-carb diets.
- Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines.
- True religion is commitment, not just faith. How much you believe in something is manifested only by what you ' re willing to risk for it. The phrase " skin in the game " is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but it ' s also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, " The symmetry of skin in the game is a simple rule that ' s necessary for

---

fairness and justice, and the ultimate BS-buster, ” and “ Never trust anyone who doesn ’ t have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them. ”

The father of modern-day electricity and considered by some to be the ultimate “ mad scientist, ” Nikola Tesla filed nearly 300 patents in his lifetime. Many of these patents resulted in functioning inventions; others were little more than wide-eyed dreams—or still await possible development. Tesla For Beginners examines the man behind the alternating current and wireless technologies who traveled from Serbia by steamship to arrive in the United States with only four cents in his pocket. It was in the early 1880s, at the tail end of the Industrial Revolution and the beginning of the Second Industrial Revolution, that America beckoned him. Nikola Tesla—a poet of invention—left behind a vast and intriguing legacy. He was a scientist, physicist, mathematician, electrical engineer, and extensively published author who spent his last decades scraping for funding for celestial projects and living out his final days in penurious solitude with a pigeon.

Pictorial History Sutherland Shire Simon and Schuster

No previous author has attempted a book such as this: a complete history of novels written in the English language, from the genre's seventeenth-century origins to the present day. In the spirit of Dr. Johnson ' s Lives of the Poets, acclaimed critic and scholar John Sutherland selects 294 writers whose works illustrate the best of every kind of fiction—from gothic, penny dreadful, and pornography to

fantasy, romance, and high literature. Each author was chosen, Professor Sutherland explains, because his or her books are well worth reading and are likely to remain so for at least another century. Sutherland presents these authors in chronological order, in each case deftly combining a lively and informative biographical sketch with an opinionated assessment of the writer's work. Taken together, these novelists provide both a history of the novel and a guide to its rich variety. Always entertaining, and sometimes shocking, Sutherland considers writers as diverse as Daniel Defoe, Henry James, James Joyce, Edgar Allan Poe, Virginia Woolf, Michael Crichton, Jeffrey Archer, and Jacqueline Susann. Written for all lovers of fiction, Lives of the Novelists succeeds both as introduction and re-introduction, as Sutherland presents favorite and familiar novelists in new ways and transforms the less favored and less familiar through his relentlessly fascinating readings.

How to Do Things with Books in Victorian Britain asks how our culture came to frown on using books for any purpose other than reading. When did the coffee-table book become an object of scorn? Why did law courts forbid witnesses to kiss the Bible? What made Victorian cartoonists mock commuters who hid behind the newspaper, ladies who matched their books' binding to their dress, and servants who reduced newspapers to fish 'n' chips wrap? Shedding new light on novels by Thackeray, Dickens, the Bront ë s, Trollope, and Collins, as well as the urban sociology of Henry Mayhew, Leah Price also uncovers the lives and afterlives of anonymous religious tracts and household manuals. From

knickknacks to wastepaper, books mattered to the Victorians in ways that cannot be explained by their printed content alone. And whether displayed, defaced, exchanged, or discarded, printed matter participated, and still participates, in a range of transactions that stretches far beyond reading. Supplementing close readings with a sensitive reconstruction of how Victorians thought and felt about books, Price offers a new model for integrating literary theory with cultural history. *How to Do Things with Books in Victorian Britain* reshapes our understanding of the interplay between words and objects in the nineteenth century and beyond.

*How to Do Things with Books in Victorian Britain*: Red Wheel/Weiser  
From Joan Juliet Buck, former editor-in-chief of *Vogue Paris* and “one of the most compelling personalities in the world of style” (*New York Times*) comes her dazzling, compulsively readable memoir: a fabulous account of four decades spent in the creative heart of London, New York, Los Angeles, and Paris—“If you loved *The Devil Wears Prada*, you’ll adore *The Price of Illusion*” (*Elle*). After a career writing for *Vogue* and *Vanity Fair*, she was named the first American woman to edit *Vogue Paris*. The vivid adventures of this thoughtful, incisive writer at the hub of dreams across two continents over fifty years are hilarious and heartbreaking. Including a spectacular cast of carefully observed legends, monsters, and stars (just look at the index!), this is the moving account of a remarkable woman’s rocky passage through glamour and passion, filial duty and family madness, in search of her true self.
