A Man Named Dave, which has sold over 1 million copies, is the gripping conclusion to Dave Pelzer's inspirational and New York Times bestselling trilogy of memoirs that began with A Child Called "It" and The Lost Boy. "All those years you tried your best to break me, and I'm still here. One day you'll see, I'm going to make something of myself." These words were Dave Pelzer's declaration of independence to his mother, and they represented the ultimate act of self-reliance. Dave's father never intervened as his mother abused him with shocking brutality, denying him food and clothing, torturing him in any way she could imagine. This was the woman who told her son she could kill him any time she wanted to—and nearly did. The more than two million readers of Pelzer's New York Times and international bestselling memoirs A Child Called "It" and The Lost Boy know that he lived to tell his courageous story. With stunning generosity of spirit, Dave Pelzer invites readers on his journey to discover how he turned shame into pride and rejection into acceptance.

Why and how do those from black and minority ethnic communities continue to be marginalised? Despite claims that we now live in a post-racial society, race continues to disadvantage those from black and minority ethnic backgrounds. Kalwant Bhopal explores how neoliberal policy making has increased rather than decreased discrimination faced by those from non-white backgrounds. She also shows how certain types of whiteness are not privileged; Gypsies and Travellers, for example, remain marginalised and disadvantaged in society. Drawing on topical debates and supported by empirical data, this important book examines the impact of race on wider issues of inequality and difference in society.

First published in 1999, Mary Pattillo's Black Picket Fences explores an American demographic group too often ignored by both scholars and the media: the black middle class. Nearly fifteen

years later, this book remains a groundbreaking study of a group still underrepresented in the academic and public spheres. The result of living for three years in "Groveland," a black middle-class neighborhood on Chicago's South Side, Black Picket Fences explored both the advantages the black middle class has and the boundaries they still face. Despite arguments that race no longer matters, Pattillo showed a different reality, one where black and white middle classes remain separate and unequal. Stark, moving, and still timely, the book is updated for this edition with a new epilogue by the author that details how the neighborhood and its residents fared in the recession of 2008, as well as new interviews with many of the same neighborhood residents featured in the original. Also included is a new foreword by acclaimed University of Pennsylvania sociologist Annette Lareau.

Bullied physically at school and suffering emotional trauma as his foster family imploded around him, Dave found that adolescence was just as tough as childhood. But this time there were others to whom he could reach out - father figures who would listen patiently to his problems and offer sound advice, and friends who helped him learn that life could also be about joy as well as pain. Dave's extraordinary memoir of how the troubled youth became a man is compassionate and brave, a tale of hope and inspiration to a new generation.

Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder.

Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life.

Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final "class": lessons in how to live. For some kids, ways they can help eliminate racial injustice might be hard to see. After all, they are taught that people in society are all equal under the law. So why then does racial conflict still exist? And what can they as individuals do about it right now? One way is for white children to understand the unearned advantages they were born with based solely on the colour of their skin. This concept is called white privilege and this book will help children of all races understand it, see how it affects them and find ways to speak out and take real action against it. *White Privilege: Deal with it in all fairness* provides scenarios, quizzes and Q&As that develop readers' understanding of the subject using situations that are realistic and that easily relate to their everyday lives. The topic is approached from three points of view: those who are "privileged," those who identify as "racialized" and those who want to be allies.

College presidents and deans of admission have opened their doors—and their coffers—to support a more diverse student body. But is it enough just to admit these students? In this bracing exposé, Anthony Jack shows that many students’ struggles continue long after they’ve settled in their dorms. Admission, they quickly learn, is not the same as acceptance. This powerfully argued book documents how university policies and campus culture can exacerbate preexisting inequalities and reveals why some students are harder hit than others.

"By the author of the award-winning To Be a Machine, a deeply considered look at the people and places in confrontation with the end of our days. We're alive in a time of worst-case scenarios: The weather has gone uncanny, volatile. Our old post-war alliances are crumbling. Everywhere you look there's an omen, a joke whose punchline is the end of the world. How are we to live in the shadow of such a grim future? What does the world hold for our children? What might it be like to live through the worst? And what is anybody doing about it? Dublin-based writer Mark O'Connell ("wryly humorous, cogently insightful"--NPR) is possessed by these questions. In Notes from an Apocalypse, he crosses the globe in pursuit of answers. He tours survival bunkers in South Dakota. He ventures to New Zealand, a favored retreat of billionaires banking on civilization's collapse. And he bears witness to those places where the future has already arrived--real-life portraits of the end of the world as we know it. In doing so, he offers us a unique window into our apocalyptic imagination. Part tour, part pilgrimage, Notes from an Apocalypse is an affecting and hopeful meditation on our alarming present tense. With insight, humanity, and wit, O'Connell leaves you to wonder: What if the end of the world isn't the end of the world?"--

The Price of Privilege Random House

There are two narratives of the American class structure: one of a country with boundless opportunities for upward mobility and one of a rigid class system in which the rich stay rich while the poor stay poor. Each of these narratives holds some truth, but each overlooks another. In Privilege Lost, Jessi Streib traces the lives of over 100 youth born into the upper-middle-class. Following them for over ten years as they transition from teens to young adults, Streib examines who falls from the upper-middle-class, how, and why don't they see it coming. In doing so, she reveals the patterned ways that individuals' resources and identities push them onto mobility paths--and the complicated choices youth make between staying true to themselves and staying in their class position. Engaging and eye-opening, Privilege Lost brings to life the stories of the downwardly mobile and highlights what they reveal about class, privilege, and American family life.
