Though we can never, in our time-bound state, know the future in detail, God in his mercy has not left us in complete ignorance of what is to come. His revelation in Holy Scripture has cast a flood of light on what would otherwise remain an impenetrable mystery. Even among those who accept the Bible's authority, however, there has never been complete agreement on what Scripture teaches in this area. This major new examination of

biblical teaching on the future of the individual, of the church and of the universe as a whole will be useful both to theological students and to informed non-specialists. Ranging over the whole field, it interacts extensively with recent literature on disputed issues, such as the nature of the intermediate state, the millennium of Revelation 20 and the doctrine of eternal punishment, always seeking to answer the fundamental question: 'What do the Scriptures teach?' The Christ-centered nature of biblical teaching on the future is emphasized, as is the importance of the church's historic confessions for an understanding of eschatology. The chief note sounded is one of hope: 'God's people eagerly await Christ's return because it promises the completion of God's work of redemption. The future is bright because it is full of promise, the promise of God's Word.' - Jacket flap.

A new history of the American South during Reconstruction shows how a complex blending of new ideas and old hatreds developed in the region following the Civil War. By the author of Vengeance and Justice.

The Promise of the New South Simon and Schuster

At a public picnic in the South in the 1890s, a young man paid five cents for his first chance to hear the revolutionary Edison talking machine. He eagerly listened as the soundman placed the needle down, only to find that through the tubes he held to his ears came the chilling sounds of a lynching. In this story, with its blend of new technology and old hatreds, genteel picnics and mob violence, Edward Ayers captures the history of the South in the years between Reconstruction and the turn of the century. Ranging from the Georgia coast to the Tennessee mountains, from the power brokers to tenant farmers, Ayers depicts a land of startling contrasts.

Ayers takes us from remote Southern towns, revolutionized by the spread of the railroads, to the statehouses where Democratic Redeemers swept away the legacy of Reconstruction; from the small farmers, trapped into growing nothing but cotton, to the new industries of Birmingham; from abuse and intimacy in the family to tumultuous public meetings of the prohibitionists. He explores every aspect of society, politics, and the economy, detailing the importance of each in the emerging New South. Central to the entire story is the role of race relations, from alliances and friendships between blacks and whites to the spread of Jim Crow laws and disfranchisement. The teeming nineteenth-century South comes to life in these pages. When this book first appeared in 1992, it won a broad array of prizes and was a finalist for both the National Book Award and the Pulitzer Prize. The citation for the National Book Award declared Promise of the New South a vivid and masterfully detailed picture of the evolution of a new society. The Atlantic called it "one of the broadest and most original interpretations of southern history of the past twenty years.

The greatest joy and fulfillment are within your reach, but they require an enduring Promise to The One...someone you might not expect. It's not your boss, your spouse, your children, or others—no, the ultimate commitment is The Promise you make to yourself to discover your purpose and gifts and share them with the world. Everyone has been hurt or negatively impacted by broken promises. Promise-breaking and a lack of integrity are symptomatic of the most chronic illness faced by society today. Even though many leadership courses and ethics programs tout “integrity” as a buzzword, few of us are really assessing our own values unless someone calls us out on a discrepancy. But even when others don't catch on to the façade, when our values aren't in alignment with our actions and when our actions aren't consonant with our gifts and passions, we're left feeling isolated, drained, and depressed. No recognition or acceptance from others can fill the void in the same way as when you keep a Promise to yourself and actually follow through on it. The Promise is the highest level of engagement we commit to in any experience. The Promise is greater than a goal—it's a sacred commitment. It's complete dedication to identifying your Signature Moves—the unique talents you've been given that, when developed and used to better others' lives, make you a Legendary Leader. What choices do you make when no one is watching? How do you approach a decision that requires you to let either yourself or someone else down? How do you stay committed to your values, even when the less-rewarding path is more convenient? A renowned speaker and performer who has helped audiences worldwide appreciate what accountability really means, Jason Hewlett shares his program for self-discovery and taking ownership of your gifts in *The Promise to The One*. His unique three-step method—IDENTIFY • CLARIFY • MAGNIFY—will enable you to pinpoint your strengths, shape them into an identity to which you commit, and develop them so that they can improve others' lives as well as your own. Filled with Jason's signature wit and vulnerability as well as actionable exercises, this book will help you refine your character and reach your dreams through the power of kept Promises. In his work as a priest and commentator for FOX News, Father Jonathan Morris has traveled to the troubled spots of the world, meeting with Muslim youth during the rioting in Paris, sitting down with populists at odds with the Church in Venezuela, and investigating human trafficking in Germany. Now Father Jonathan peels back the layers of questions that arise when someone asks, "Why me?" in response to human suffering. With an accessible voice and

calming pastoral guidance, Father Jonathan leads readers through each step of suffering—from doubt and anger to healing and acceptance. *The Promise* comprises three parts, each addressing a step in the process of healing. Part 1, "God on Trial," speaks to doubts and anger that arise when we suffer and poses tough questions such as "Does God even care?" and "Why should we trust a God who allows innocent suffering?" Part 2 takes the reader on a journey of finding emotional and spiritual healing from suffering. In part 3 Father Jonathan introduces the five "Principles for Freedom-Living." From living your personal vocation to a step-by-step guide for sketching a plan for your spiritual life, the freedom principles are practical and easily applied to everyday life. Together these five principles have the power to transform what would otherwise be useless suffering into a means of great sanctification and personal fulfillment. While pulling back the layers of philosophy and theology that surround human suffering, Father Jonathan offers not only a deeply spiritual answer but also a practical one to this most fundamental of human questions: Why do we suffer? *The Promise* not only addresses how to understand and live with suffering, but also poses the toughest question regarding our relationship to God: Why do we suffer under a benevolent God? Father Jonathan delves into how we can heal from the spiritual, emotional, and even physical scars left behind by suffering. *The Promise* offers five principles for living a free life, or a life free of the fear that God is not there for us, and offers comfort and hope to those experiencing hard times.

Because of their faith in the crucified Messiah, the Christian nations are indebted to Israel. Yet they have largely marginalized and even rejected God's chosen people. In this volume Cardinal Jean-Marie Lustiger reflects on a number of subjects and concerns common to both Christians and Jews -- the Ten Commandments, fulfillment of biblical prophecy, Christian anti-Semitism, and more. As a Jewish-born Roman Catholic priest, Cardinal Lustiger has a unique viewpoint. He became Archbishop of Paris and a cardinal while remaining keenly aware of his indelible Jewish identity and of the vital Jewish roots of Christianity. Aware that his reflections may be controversial -- possibly offending Jewish and Christian readers alike -- he nonetheless boldly shares his perspectives in *The Promise*, hoping that readers will see him as speaking and writing in good faith, in the service of the Word of God given for the happiness and salvation of all.

Research shows that enriching learning experiences such as learning communities, service-learning, undergraduate research, internships, and senior culminating experiences — collectively known as High-Impact Practices (HIPs) — are positively associated with student engagement; deep, and integrated learning; and personal and educational gains for all students — particularly for historically underserved students, including first-generation students and racially minoritized populations. While HIPs' potential benefits for student learning, retention, and graduation are recognized and are being increasingly integrated across higher education programs, much of that potential remains unrealized; and their implementation frequently uneven. Colleges are eager to use the HIP nomenclature for recruitment, promoting equity for traditionally underserved student populations, and preparing lifelong learners and successful professionals. However, HIPs defy easy categorization or standardized implementation. They rely on fidelity, quality, and consistency — being “done well” — to achieve their learning outcomes; and, above all, require attention to access and equity if they are to fulfill their promise of benefitting all student populations equally. The goal of *Delivering on the Promise of High-Impact Practices* is to provide examples from around the country of the ways educators are advancing equity, promoting fidelity, achieving scale, and strengthening assessment of their own local high-impact practices. Its chapters bring together the best current scholarship, methodologies, and evidence-based practices within the HIPs field, illustrating new approaches to faculty professional development, culture and coalition building, research and assessment, and continuous improvement that help institutions understand and extend practices with a demonstrated high impact. For proponents and practitioners this book offers perspectives, data and critiques to interrogate and improve practice. For administrators it provides an understanding of what's needed to deliver the necessary support.

No single work is more responsible for the heightened interest in argumentation and informal reasoning—and their relation to ethics and jurisprudence in the late twentieth century—than Cha ï m Perelman and Lucie Olbrechts-Tyteca ' s monumental study of argumentation, *La Nouvelle Rh é torique: Trait é de l'Argumentation*. Published in 1958 and translated into English as *The New Rhetoric* in 1969, this influential volume returned the study of reason to classical concepts of rhetoric. In *The Promise of Reason: Studies in The New Rhetoric*, leading scholars of rhetoric Barbara Warnick, Jeanne Fahnestock, Alan G. Gross, Ray D. Dearin, and James Crosswhite are joined by prominent and emerging European and American scholars from different disciplines to demonstrate the broad scope and continued relevance of *The New Rhetoric* more than fifty years after its initial publication. Divided into four sections—Conceptual Understandings of *The New Rhetoric*, Extensions of *The New Rhetoric*, The Ethical Turn in Perelman and *The New Rhetoric*, and Uses of *The New Rhetoric*—this insightful volume covers a wide variety of topics. It includes general assessments of *The New Rhetoric* and its central concepts, as well as applications of those concepts to innovative areas in which argumentation is being studied, such as scientific reasoning, visual media, and literary texts. Additional essays compare Perelman ' s ideas with those of other significant thinkers like Kenneth Burke and Richard McKeon, explore his career as a philosopher and activist, and shed new

light on Perelman and Olbrechts- Tyteca ' s collaboration. Two contributions present new scholarship based on recent access to letters, interviews, and archival materials housed in the Universit é Libre de Bruxelles. Among the volume ' s unique gifts is a personal memoir from Perelman ' s daughter, No é mi Perelman Mattis, published here for the first time. *The Promise of Reason*, expertly compiled and edited by John T. Gage, is the first to investigate the pedagogical implications of Perelman and Olbrechts- Tyteca ' s groundbreaking work and will lead the way to the next generation of argumentation studies.

Why simple technological solutions to complex social issues continue to appeal to politicians and professionals who should (and often do) know better. Why do we keep trying to solve poverty with technology? What makes us feel that we need to learn to code--or else? In *The Promise of Access*, Daniel Greene argues that the problem of poverty became a problem of technology in order to manage the contradictions of a changing economy. Greene shows how the digital divide emerged as a policy problem and why simple technological solutions to complex social issues continue to appeal to politicians and professionals who should (and often do) know better.
