critique of the imperative to good, and that by being be happy. It asks what happy ourselves, we will follows when we make our make others happy. desires and even our own Ahmed maintains that happiness conditional on happiness is a promise the happiness of others: “I that directs us toward just want you to be certain life choices and happy”; “I’m happy if away from others. you’re happy.” Combining Happiness is promised to philosophy and feminist those willing to live their cultural studies, Sara lives in the right way. Ahmed reveals the Ahmed draws on the affective and moral work intellectual history of performed by the happiness, from classical “happiness duty,” the accounts of ethics as the expectation that we will be good life, through made happy by taking part seventeenth-century in that which is deemed writings on affect and the

passions, eighteenth-century debates on virtue and education, and nineteenth-century utilitarianism. She engages with feminist, antiracist, and queer critics who have shown how happiness is used to justify social oppression, and how challenging oppression causes unhappiness. Reading novels and films including *Mrs. Dalloway*, *The Well of Loneliness*, *Bend It Like Beckham*, and *Children of Men*, Ahmed considers the

plight of the figures who challenge and are challenged by the attribution of happiness to particular objects or social ideals: the feminist killjoy, the unhappy queer, the angry black woman, and the melancholic migrant. Through her readings she raises critical questions about the moral order imposed by the injunction to be happy.

Dangerous Brown Men

Why is the public presentation of the war on terror suffused with sexualised racism? What does this tell us about ideas of gender, sexuality, religious and political identity and the role of the state in the Western powers? Can we diffuse inter-ethnic conflicts and change the way the West pursues its security agenda by understanding the role of sexualised racism in

the war on terror? In asking such questions, Gargi Bhattacharyya considers how the concepts of imperialism, feminism, terror and security can be applied, in order to build on the influential debates about the sexualised character of colonialism. She examines the way in which western imperial violence has been associated with the rhetoric of rights and democracy - a project of bombing for freedom that has called into question the validity of western conceptions of democracy,

rights and feminism. Such rhetoric has given rise to actions that go beyond simply protecting western interests or securing access to scarce resources and appear to be beyond instrumental reason. The articulations of racism that appear with the war on terror are animated by fears and sexual fantasies inexplicable by rational interest alone. There can be no resolution to this seemingly endless conflict without understanding the highly sexualised racism that animates it. Such an

understanding threatens to pierce the heart of imperial relations, revealing their intense contradictions and uncovering attempts to normalise violent expropriation.

Differences That Matter challenges existing ways of theorising the relationship between feminism and postmodernism which ask 'is or

should feminism be modern or postmodern?' Sara Ahmed suggests that postmodernism has been allowed to dictate feminist debates and calls instead for feminist theorists to speak (back) to postmodernism, rather than simply speak on (their relationship to) it. Such a 'speaking back' involves a refusal

to position postmodernism as a generalisable condition of the world and requires closer readings of what postmodernism is actually 'doing' in a variety of disciplinary contexts. Sara Ahmed hence examines constructions of postmodernism in relation to rights, ethics, subjectivity,

Emotions work to define who we are as well as shape what we do and

this is no more powerfully at play than in the world of politics. Ahmed considers how emotions keep us invested in relationships of power, and also shows how this use of emotion could be crucial to areas such as feminist and queer politics. Debates on international terrorism, asylum and migration, as well as reconciliation and reparation, are explored through topical case studies. In this book the difficult issues are confronted head on. The

Cultural Politics of Emotion is in dialogue with recent literature on emotions within gender studies, cultural studies, sociology, psychology and philosophy. Throughout the book, Ahmed develops a theory of how emotions work, and the effects they have on our day-to-day lives. Complaint! Duke University Press
The classical utilitarian legacy of Jeremy Bentham, J. S. Mill, James Mill, and Henry Sidgwick has often been charged with both theoretical and practical complicity in the growth of British imperialism and the emerging racist discourse of the nineteenth century. But there has been little

scholarly work devoted to bringing together the conflicting interpretive perspectives on this legacy and its complex evolution with respect to orientalism and imperialism. This volume, with contributions by leading scholars in the field, represents the first attempt to survey the full range of current scholarly controversy on how the classical utilitarians conceived of 'race' and the part it

played in their ethical and political programs, particularly with respect to such issues as slavery and the governance of India. The book both advances our understanding of the history of utilitarianism and imperialism and promotes the scholarly debate, clarifying the major points at issue between those sympathetic to the utilitarian legacy and those critical of it.

Immanuel Kant is rarely connected to rhetoric by those who study philosophy or the rhetorical tradition. If anything, Kant is said to see rhetoric as mere manipulation and as not worthy of attention. In Kant and the Promise of Rhetoric, Scott Stroud presents a first-of-its-kind reappraisal of Kant and the role he gives rhetorical practices in his

philosophy. By examining the range of terms that Kant employs to discuss various forms of communication, Stroud argues that the general thesis that Kant disparaged rhetoric is untenable. Instead, he offers a more nuanced view of Kant on rhetoric and its relation to moral cultivation. For Kant, certain rhetorical practices in education, religious settings, and public argument become

vital tools to move humans toward moral improvement without infringing on their individual autonomy. Through the use of rhetorical means such as examples, religious narratives, symbols, group prayer, and fallibilistic public argument, individuals can persuade other agents to move toward more cultivated states of inner and outer autonomy. For the Kant recovered in this book,

rhetoric becomes another part of human activity that can be animated by the value of humanity, and it can serve as a powerful tool to convince agents to embark on the arduous task of moral self-cultivation.

Then, one terrible night, the secrets they have all been keeping lead to an unspeakable tragedy. As Celaena's world shatters, she will be forced to decide once

and for all where her true loyalties lie ... and what she is willing to fight for. The second book in the #1 New York Times bestselling Throne of Glass series returns readers to a land destroyed by liars, where one woman's truth is the only thing that can save them all. Living a Feminist Life NavPress In Willful Subjects Sara Ahmed explores willfulness as a charge often made by some

against others. One history of will is a history of attempts to eliminate willfulness from the will. Delving into philosophical and literary texts, Ahmed examines the relation between will and willfulness, ill will and good will, and the particular will and general will. Her reflections shed light on how will is embedded in a political and cultural landscape, how it is embodied, and how will and willfulness are socially mediated. Attentive to the wayward,

the wandering, and the deviant, Ahmed considers how willfulness is taken up by those who have received its charge. Grounded in feminist, queer, and antiracist politics, her sui generis analysis of the willful subject, the figure who wills wrongly or wills too much, suggests that willfulness might be required to recover from the attempt at its elimination. Happy Lives, Good Lives Grove Press Why is shame so central

to our identity and to our culture? What is its role in stigmatizing subcultures such as the Irish, the queer or the underclass? Can shame be understood as a productive force? In this lucid and passionately argued book, Sally R. Munt explores the vicissitudes of shame across a range of texts, cultural milieux, historical locations and geographical spaces – from eighteenth-century Irish politics to Philip Pullman's His Dark Materials trilogy, from

contemporary US academia to the aesthetics of Tracey Emin. She finds that the dynamics of shame are consistent across cultures and historical periods, and that patterns of shame are disturbingly long-lived. But she also reveals shame as an affective emotion, engendering attachments between bodies and between subjects – queer attachments. Above all, she celebrates the extraordinary human ability to turn shame into

joy: the party after the fall. *Queer Attachments* is an interdisciplinary synthesis of cultural politics, emotions theory and narrative that challenges us to think about the queerly creative proclivities of shame. *Promise Me Something* Morgan James Faith "Life is Beautiful: How a Lost Girl Became a True, Confident Child of God" takes you on a full journey of trauma, loss, and finally resilience. While on a mission's trip

in Guatemala, a small Cessna Caravan's engine blows while carrying fourteen passengers. Unfortunately, the Cessna crashes in a remote village, leaving eleven of the fourteen passengers dead. One passenger, Sarah, shares her story in "Life is Beautiful", about the deaths of her father and brother; her mother's extreme physical and emotional injuries, and Sarah's self-discovery to accept this new life. "Life is Beautiful", however, is more than a story about

an airplane crash. "Life is Beautiful" shares the personal struggles of Sarah's father's drug use, his recovery, and redemption to be a better person. He gives back by doing missions work in Africa, takes in Sarah's aunt dying of uterine cancer, and eventually leads their family to the mountains of Guatemala. Sarah also discusses her struggles with alcohol use and depression; where she eventually hits rock bottom. It is not until she starts seeking God

through prayer, books, and therapy, where she starts to turn her life around. "Life is Beautiful" is not only a unique story, but it shows the strength of God's Will. When all hope is lost, she never gives up on God. This story is a true testimony of God's love for His people, and when one seeks a spiritual journey and connection with God; He gives back in love, forgiveness, and happiness. An intellectual history of man's most elusive yet coveted goal. Today, we think of happiness as a natural right, but people haven't always felt this way. Historian

McMahon argues that our modern belief in happiness is a recent development, the product of a revolution in human expectations carried out since the eighteenth century. He investigates that fundamental transformation by synthesizing two thousand years of politics, culture, and thought. In ancient Greek tragedy, happiness was considered a gift of the

gods. During the Enlightenment men and women were first introduced to the novel prospect that they could--in fact should--be happy in this life as opposed to the hereafter. This recognition of happiness as a motivating ideal led to its consecration in the Declaration of Independence. McMahon then shows how our modern search continues to generate new forms of pleasure,

but also, paradoxically, new forms of pain.--From publisher description.

Sex, Gender and Society
Psychology Press

What are the differences between the sexes? That is the question that Ann Oakley set out to answer in this pioneering study, now established as a classic in the field. To answer it she draws on the evidence of biology, anthropology, sociology and the study of animal behaviour to cut through popular myths and reach the underlying truth. She demonstrates

conclusively that men and women are not two separate groups: rather each individual takes his or her place on a continuous scale. She shows how different societies define masculinity and femininity in different and even opposite ways, and discusses how far observable differences are based on biology and psychology and how far on cultural conditioning. Many books have discussed these vital issues. None, however, have drawn on such an impressively wide range of evidence or discussed it with such clarity and authority. Now newly

reissued with a substantial introduction which highlights its continuing relevance, this work will continue to inform and shape dialogues around sex and gender for a new generation of scholars and students.

International speaker and award-winning author Monique Gray Smith wrote *My Heart Fills with Happiness* to support the wellness of Indigenous children and families, and to encourage young children to reflect on what makes them happy. *My Heart Fills With Happiness* University of Chicago Press *Happy Lives, Good Lives* offers a thorough introduction to a

variety of perspectives on happiness. Among the questions at issue: Is happiness only a state of mind, or is it something more? Is it the same for everyone? Is it under our control, and if so, to what extent? Can we be mistaken about whether we are happy? What role, if any, does happiness play in living a good life? Is it sometimes morally wrong to pursue happiness? Should

governments promote happiness through public policy? Asking and answering these questions is worthwhile not only as an intellectual exercise, but also as a means of gaining practical insight into how best to pursue a happy life.
