"There are some mistakes that are too big to fix. I'll never recover from this one. Damn it, I called Bryan an addict and treated him worse. Maybe it was wrong for him to approach me the way he did. Maybe it wasn't right for Bryan to just take what he wanted, consequences be damned. I can't blame him, though-- not now that I know the truth"--Page 4 of cover.

With *Building in France, Building in Iron, Building in Ferroconcrete* (1928)—published now for the first time in English—Siegfried Giedion positioned himself as an eloquent advocate of modern architecture. This was the first book to exalt Le Corbusier as the artistic champion of the new movement. It also spelled out many of the tenets of Modernism that are now regarded as myths, among them the impoverishment of nineteenth-century architectural thinking and practice, the contrasting vigor of engineering innovations, and the notion of Modernism as technologically preordained.

"An engagement is the farthest thing from my mind, but as Neil holds up the ring I glance around and notice someone is missing. Maggie. The man had the audacity to invite everyone except my best friend. Where is she? When I go to find out, I don't like what I discover. Once, I'd thought I was different from the

Ferros and the Campones, but when it comes down to it--I'm exactly the same"--Page 4 of cover.

Trystan tries to figure out how to make it clear how much he loves her. But every insincere kiss, every broken promise haunts him because she knows them all. Now Trystan has to prove to the one girl who thinks true love is real that she's not just another conquest. Mari keeps his secret, but quickly learns about an even bigger secret about Trystan Scott—one that is impossible to keep.

"Sean Ferro is my addiction. I can't tell him no, no matter what he asks for, and I know there are so many dark questions behind those blue eyes, so many things he wants me to do with him. When I watch him go down on one knee, with his sexy body covered in sand, and hold up a glittering ring, I can barely stand. It looks like he's going to propose, and I know exactly what I'm going to say."--Page 4 of cover.

"There's no doubt in my mind that Bryan Ferro is serious-- if I don't sleep with him, he'll destroy me. Everything I've earned will be blown away like dust, and my life will no longer be my own. His demand for just one night rolls into days. He doesn't want me for a one-time fling, it's more than that. But as I stand there, ready to tell him off, I hear it. The familiar sound, the hesitation, the slight hitch in his voice, and that's what

forces me to my knees. It's not Neil, Maggie, or even the money-- it's Bryan"--Page 4 of cover.

For historians of mathematics and those interested in the history of science, 'A Discourse Concerning Algebra' provides an new and readable account of the rise of algebra

in England from the Medieval period to the later years of the 17th century. Including new research, this is the most detailed study to date of early modern English algebra, which builds on work published in 1685 by John Wallis (Savilian Professor of Geometry at Oxford) on the history of algebra. Stedall's book follows the reception and dissemination of important algebraic ideas and methods from continental Europe (especially those of Viete) and the consequent revolution in the state of English mathematics in the 17th century. The text emphasises the contribution of Wallis, but substantial reference is also provided to other important mathematicians such as Harriot, Oughtred, Pell and Brouncker. Manwhore Akashic Books

Virgil, Aeneid, 4.1-299 JHU Press

Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

Building in France, Building in Iron, Building in Ferroconcrete 3m Company Like other languages, Latin contained certain words its speakers considered obscene as well as a rich stock of sexual euphemism and metaphor. Our sources for this information range from surviving graffiti to literary works with a marked sexual content. Yet despite its manifest literary and linguistic interest, the sexual vocabulary of Latin has remained uninvestigated by scholars. J. A. Adams's pioneering and unique reference work collects for the first time evidence of Latin obscenities and sexual euphemisms drawn from both literary and nonliterary sources from the early Republic to about the fourth century A.D. Separate chapters treat each of the sexual parts of the body and the terminology used to describe sexual acts. General topics include

the influence of Greek language on Latin, changes in the Latin vocabulary over time (including the evolution of sexual words into general terms of abuse), and lexical differences among various literary genres.
