Psychic Self-Defense
Dion Fortune - "Psychic Self-Defense" is one of the best guides to detection and defence against psychic attack from one of the leading occult writers of the 20th century. After finding herself the subject of a powerful psychic attack in the 1930's, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defence guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of

defence. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in mental illness and how to recognise them.

Alara Unbroken Random House Explore the

planes of magic on a spellbinding journey of discovery Magic: The Gathering is a fantastical Multiverse of mystical beings, fabled realms, and mythical creatures. Dominating all are the mighty sorcerers known as planeswalkers. To be a planeswalker is to be powerful beyond measure—a wizard who can bend magic to their will and step through the veil of reality itself. These fearsome mages cross between the planes of

existence, battling to save others or to destroy them, to fight darkness or to create it. Magic: The Gathering Visual Dictionary illuminates the wondrous worlds they traverse, reveals their arcane lore, weapons, artifacts, and spells, and recounts their legendary exploits. Produced in close collaboration with Wizards of the Coast and featuring never before published profiles of new planes, such as Strixhaven and

The Brothers'
War Llewellyn
Worldwide
With the rise of
science, we
moderns believe,
the world
changed
irrevocably,
separating us

forever from our
primitive,
premodern
ancestors. But if
we were to let go
of this fond
conviction, Bruno
Latour asks, what
would the world
look like? His
book, an
anthropology of
science, shows us
how much of
modernity is
actually a matter
of faith. What
does it mean to be
modern? What
difference does
the scientific
method make?
The difference,
Latour explains, is
in our careful
distinctions
between nature
and society,
between human
and thing,
distinctions that
our benighted
ancestors, in their

world of alchemy,
astrology, and
phrenology, never
made. But
alongside this
purifying practice
that defines
modernity, there
exists another
seemingly
contrary one: the
construction of
systems that mix
politics, science,
technology, and
nature. The ozone
debate is such a
hybrid, in
Latour ' s analysis,
as are global
warming,
deforestation,
even the idea of
black holes. As
these hybrids
proliferate, the
prospect of
keeping nature
and culture in
their separate
mental chambers
becomes
overwhelming—and

rather than try, Latour suggests, we should rethink our distinctions, rethink the definition and constitution of modernity itself. His book offers a new explanation of science that finally recognizes the connections between nature and culture—and so, between our culture and others, past and present. Nothing short of a reworking of our mental landscape, *We Have Never Been Modern* blurs the boundaries among science, the humanities, and the social sciences to enhance understanding on all sides. A

summation of the work of one of the most influential and provocative interpreters of science, it aims at saving what is good and valuable in modernity and replacing the rest with a broader, fairer, and finer sense of possibility. *Shattered Chains Del Rey Before the Brothers ' War. Before the five colors of magic. Before history itself, the plane of Dominaria was ruled by the Thran. They built machines and artifacts, the likes of which have never since been seen. But amid this civilization, a shadow took root,*

one that would stretch its arms across space and time. The hideous evil of Phyrexia was born. *Complete Arcane Hachette Books Mirrodin—a world of living metal, an artificial ecosystem created by the Planeswalker Karn to support organic life—is on the cusp of cataclysm. When the Planeswalker Venser goes in search of his former mentor, he learns Karn ' s life hangs in the balance—and with him the entire plane of existence. For fans of the mega-selling trading card game, Magic: the Gathering®, the*

Fire in the Minds of Men Magic: The Gathering "The war between Urza and Misra is over, but in victory Urza has become a planeswalker and with this transformation his legacy is charted across the multiverse. Fraught with regret over his brother's death, Urza seeks out the corrupting power of Phyrexia so that he may exact revenge"--Page

4 of cover. Test of Metal Cambridge University Press Award-winning author Laura Resnick brings readers into the adventures of Chandra Nalaar, a young and impulsive mage on a collision course with destiny. The novel that begins the story of Chandra Nalaar, the impulsive young fire mage whose exploration of the multiverse and the extent

of her own volatile power draws the attention of an ancient faith that sees her as a herald of the apocalypse. Will she control her own destiny, or suffer the will of others? From the Trade Paperback edition. The Shattered Alliance Wizards of the Coast Return to the multiverse of Magic: The Gathering as the hunt for Liliana Vess is on in the aftermath of the War of the Spark. The

Planeswalkers have defeated Nicol Bolas and saved the Multiverse—though at grave cost. The living have been left to pick up the pieces and mourn the dead. But one loss is almost too great to bear: Gideon Jura, champion of justice and shield of the Gatewatch, is gone. As his former comrades Jace and Chandra struggle to rebuild from this tragedy, their future, like the future of the Gatewatch, remains uncertain. As the Gatewatch's

newest member, Kaya aims to help write that future. In joining, she pledged an oath to protect the living and the dead, but now that oath will be tested. The grieving guild masters of Ravnicans have tasked her with a grave mission suited to her talents as a hunter and assassin—a mission she is ordered to keep secret from the Gatewatch. She must track down and exact retribution on the traitor Liliana Vess. But Liliana Vess has

no interest in being found. Forsaken by her friends, she fled Ravnicans after the defeat of Bolas. She was hostage to his wicked will, forced to assist in his terrible atrocities on pain of death—until Gideon, the last one who believed in her goodness, died in her place. Haunted by Gideon's final gift, and hunted by former allies, Liliana now returns to a place she'd thought she'd never see again, the only place she has left:

home. Mordvinian Mythology Wizards of the Coast Re-riting Woman presents the first in-depth ethnographic study of Dianic Wicca. Its subject, Circle of Aradia, is a branch of the religion based in the Los Angeles area. This religion-of, by, and for women-conceives the Divine as exclusively female, and has infused feminism into Wicca

worldwide. Kristy S. Coleman combines ethnography with theory to present a full account of what Dianic Witches' lived practice looks like and what it means. The theorist of focus, Luce Irigaray, asserts that women must reclaim their own space and imagine the Divine as female to achieve full emancipation. Moreover, Irigaray's critical analysis of Western

culture creates a subtext that clarifies what is at stake in this practice. Thick description of seasonal rituals dispels fears and stereotypes about Wicca, and offers readers a comforting familiarity and shared healing. Coleman employs ritual theory to suggest why and how these rites wield such meaning-altering possibilities. Practitioners' statements that describe a shift

in worldview and self-conception elicit Coleman's proposal that Dianic rituals re(w)rite the valuation and meaning of woman. Dianic women's stories reveal both the transformative power of the tradition's practice and the organization's challenges related to power politics. Zendikar Abrams
A survey of the religious beliefs of ancient Greece covers sacrifices, libations, purification, gods, heroes, the priesthood, oracles, festivals, and the afterlife.
