The Quantum Self Danah
Zohar

In The Quantum Self, Danah
Zohar argues that the insights
of modern physics can
illuminate our understanding
of everyday life -- our
relationships to ourselves, to
others, and to the world at
large. Guiding us through the
strange and fascinating
workings of the subatomic

realm to create a new model of
human consciousness, the
author addresses enduring
philosophical questions.

The Quantum Self demonstrates how developments in modern subatomic physics demand a radical reappraisal of our conventional model of personality - indeed of our very idea of ourselves. Guiding us through the strange and contradictory world of quantum mechanics, Danah Zohar argues that a more participative view of our relationship with the universe is essential if we are to discover our true ...
Books | Danah Zohar
Zohar's speculation on quantum immortality alone is worth the price of the book. How quantum reality generates free will and creativity in the individual is a true gift to all who survive to the "Creative Self"

chapter. Near the end of the book Zohar brings us to understand that "... mind is relationship and matter is that which it relates.
