There are plenty of reasons to criticize, judge, and even walk away from the church. Many of us have been hurt and rejected. We may see church as insular and irrelevant. Despite this, Kevin Makins believes that the church still matters--perhaps more than ever. When Kevin was 23 and didn't know any better, he started a congregation with some friends who were on the edge of faith. Together they hoped to discover if the church was worth fighting for. In this brutally honest account, he shares their story of becoming a community of misfits, outcasts, and oddballs who would learn that, even with all its faults, the church is worth being a part of . . . and must be reclaimed for good. If you've been burned or burned out by the church, if you've been silenced or misunderstood, if you've left or never even joined in the first place, this candid, hopeful book is your invitation to consider what you miss out on when you give up on church--and what the church misses out on when it gives up on you.

This collection of essays engages two of the most fundamental social and political issues of our time: community and identity. Wrestling with the perplexities of these two issues within the Africana world, the contributors delve into the influences of a postmodern world of globalization with outdated, crumbling forms of identity and sociality. In the wake of such an order, new forms of identity and community must be established. Birt has collected an informed group of contributors here, who lay the foundation for a new approach to finding community and identity in the Africana world.

Community and Power, Etc. (New Edition [of "The Quest for Community"]). Simon and Schuster

We live in a leadership crisis. "In an age when incompatible worlds collide and when scandals rock formerly stable institutions," says Walter Fluker, "what counts most is ethical leadership and the qualities of personal integrity, spiritual discipline, intellectual openness, and moral anchoring." Fluker finds these characteristics exemplified in the work and thought of black-church giants Martin Luther King Jr. and Howard Thurman. This volume, for leaders and emergent leaders in religious and other settings, sets forth the context and principles for ethical leadership, particularly for ministries and other professions whose mission directly advances the common good. Fluker's volume grounds leadership in story, the appropriation of one's roots, as a basis for personal and social transformation. He then explores the key values of character, civility, and community for ethical action on the personal, public, and spiritual realms. From these considerations he develops a model of the specific virtues that embody each realm of ethical leadership before applying them to the practical aspects of leadership and decisionmaking.

"Justice stands as the crown jewel of the Islamic moral universe. Qur'anic referenes to justice are more frequent than those to the prophets of Islam. It is justice, rather than jihad or "holy war"' of the Western imagination, that defines the centrist Islam of the Qur'an. Justice in midstream Islam is at once "one and many," to borrow a formulation of Islamic mystics. Justice is one as the core Islamic value and many in the particular struggles for social justice it inspires. Abu Dharr al Ghifari, the beloved 7th century companion of the Prophet Muhammd, authored several hundred prophetic traditions and fought for the rights of the poor. Abu Dharr modeled the combination of scholarship and activism that characterizes Islamic intellectuals. Struggles for social justice waged in Egypt, Turkey, Iran, and beyond evoke the Prophet's companion as exemplar. The excesses of extremist thinking and the blinding glare of the violence it fosters may threaten to overwhelm the faith. Invariably, however, Islamic intellectuals step forward to restore moderation. Centrist Islam today is winning adherents at a pace that outstrips all other faiths. Individual chapters focus on the contributors to this Awakening, including the

Egyptian Shaikh Muhammad al Ghazalli, the Turkish scholar Sa'id Nursi, the Lebanese Grand Ayatollah Muhammad Fadlallah, the martyred Iraqi Grand Ayatollah Baqir al Sadra, the Iranian intellectual Ali Sheriati, and the American athlete and Muslim convert Muhammad Ali. Their stories explain how an awakened Islam has today become a global phenomenon"--

This classic volume deals with a crucial contemporary social issue: the conflict between traditionalism and modernism. Nisbet considers such subjects as power, community, culture, and the university. He deals directly with the values of authority, tradition, hierarchy, and community on the one hand, and individualism, secularism, and revolt on the other. Nisbet's underlying argument is that there is a close historical relationship between the distribution of power in democratic society and the displacement of social class, kinship, neighborhood, and the church. The book challenges concerned Americans to understand and address the basic conflicts confronting contemporary society. In his introduction, Robert G. Perrin shows how the chapters in this volume reflect Nisbet's sociological vision exemplified throughout his career. Perrin notes that when these writings first appeared, they stimulated and informed debate on a broad range of topics such as value conflict, leadership, community, sociology, social class, technology, and the university. They also foreshadowed works yet to come in Nisbet's long and distinguished intellectual journey. Originally published in 1968, Tradition and Revolt was greeted with thoughtful reviews in leading sociology journals. Writing in the American Journal of Sociology, Joseph R. Gusfield called it "so welcome a publication," one containing "remarkable contributions to the analysis of modern society." Nisbet's vision of Western social life as shaped by the struggle between the dialectically opposed values of tradition and modernity illuminates contemporary issues. Tradition and Revolt will be of particular value to sociologists, cultural historians, and political theorists. Robert A. Nisbet (1913-1996) was Albert Schweitzer Professor Emeritus of the Humanities at Columbia University, and before that, dean of the School of Humanities at the University of California at Riverside. Among his many books are History of the Idea of Progress, The Sociological Tradition, The Degradation of the Academic Dogma, and Teachers and Scholars, all available from Transaction. Robert G. Perrin is professor of sociology and director of graduate studies at the University of Tennessee.

KaBOOM! is the powerful, uplifting journey of a man who grew up in a group home with his seven brothers and sisters and went on to build a world-class nonprofit that harnesses the power of community to improve the lives of children. In 1995, Darell Hammond read an article in the Washington Post about an unthinkable tragedy: Two young children suffocated in a car on a hot summer day in southeast Washington, DC. The story indicated that the children had nowhere to play; in the absence of a playground, they had climbed into an abandoned car. Reading the article fueled Hammond's sense of injustice, and his life's mission came into focus. Hammond founded KaBOOM!, a national nonprofit that provides communities with tools, resources, and guidance to build and renovate playgrounds and playspaces. In some of the toughest and poorest neighborhoods in North America, 2,000 barren spaces have been transformed by KaBOOM! and more than a million volunteers and community members into kid-designed, fun, and imaginative places to play. This is the story of a man with a vision, a man who believes that play is the best natural resource in a creative economy and that kids need more of it. Play is not a luxury but a necessity for their lives. Through hard work, commitment, and the conviction that access to a safe play environment is the fundamental right of all children, Hammond built an organization that has touched the lives of countless children and families. Hammond's story demonstrates how one idealist can change the world and how small, civic-minded steps create a ripple effect that can transform communities and eventually the world at large.

Imagine belonging to a group of people who accept you for who you are, who share your values and sense of purpose. The Fellowship of the King explores the attractive and compelling vision of fellowship and community presented in Scripture, in an age when most of us, paradoxically, feel alone in the crowd, our shoulders rubbing with strangers. With references to film, the novel and contemporary music, Liam Goligher analyses the contemporary scene, and shows how koinonia - meeting, encouraging and growing together presents community, purpose, and ultimately fellowship with the King.

#1 NEW YORK TIMES BESTSELLER • Everybody tells you to live for a cause larger than yourself, but how exactly do you do it? The author of The Road to Character explores what it takes to lead a meaningful life in a self-centered world. “Deeply moving, frequently eloquent and extraordinarily incisive.”—The Washington Post Every so often, you meet people who radiate joy—who seem to know why they were put on this earth, who glow with a kind of inner light. Life, for these people, has often followed what we might think of as a two-mountain shape. They get out of school, they start a career, and they begin climbing the mountain they thought they were meant to climb. Their goals on this first mountain are the ones our culture endorses: to be a success, to make your mark, to experience personal happiness. But when they get to the top of that mountain, something happens. They look around and find the view . . . unsatisfying. They realize: This wasn't my mountain after all. There's another, bigger mountain out there that is actually my mountain. And so they embark on a new journey. On the second mountain, life moves from self-centered to other-centered. They want the things that are truly worth wanting, not the things other people tell them to want. They embrace a life of interdependence, not independence. They surrender to a life of commitment. In The Second Mountain, David Brooks explores the four commitments that define a life of meaning and purpose: to a spouse and family, to a vocation, to a philosophy or faith, and to a community. Our personal fulfillment depends on how well we choose and execute these commitments. Brooks looks at a range of people who have lived joyous, committed lives, and who have embraced the necessity and beauty of dependence. He gathers their wisdom on how to choose a partner, how to pick a

vocation, how to live out a philosophy, and how we can begin to integrate our commitments into one overriding purpose. In short, this book is meant to help us all lead more meaningful lives. But it's also a provocative social commentary. We live in a society, Brooks argues, that celebrates freedom, that tells us to be true to ourselves, at the expense of surrendering to a cause, rooting ourselves in a neighborhood, binding ourselves to others by social solidarity and love. We have taken individualism to the extreme—and in the process we have torn the social fabric in a thousand different ways. The path to repair is through making deeper commitments. In *The Second Mountain*, Brooks shows what can happen when we put commitment-making at the center of our lives.

The definitive, bestselling book on the origins of nationalism, and the processes that have shaped it. Imagined Communities, Benedict Anderson's brilliant book on nationalism, forged a new field of study when it first appeared in 1983. Since then it has sold over a quarter of a million copies and is widely considered the most important book on the subject. In this greatly anticipated revised edition, Anderson updates and elaborates on the core question: what makes people live and die for nations, as well as hate and kill in their name? Anderson examines the creation and global spread of the 'imagined communities' of nationality, and explores the processes that created these communities: the territorialization of religious faiths, the decline of antique kinship, the interaction between capitalism and print, the development of secular languages-of-state, and changing conceptions of time and space. He shows how an originary nationalism born in the Americas was adopted by popular movements in Europe, by imperialist powers, and by the movements of anti-imperialist resistance in Asia and Africa. In a new afterword, Anderson examines the extraordinary influence of Imagined Communities, and the book's international publication and reception, from the end of the Cold War era to the present day.

Much of what you've heard about plastic pollution may be wrong. Instead of a great island of trash, the infamous Great Pacific Garbage Patch is made up of manmade debris spread over hundreds of miles of sea—more like a soup than a floating garbage dump. Recycling is more complicated than we were taught: less than nine percent of the plastic we create is reused, and the majority ends up in the ocean. And plastic pollution isn't confined to the open ocean: it's in much of the air we breathe and the food we eat. In *Thicker Than Water: The Quest for Solutions to the Plastic Crisis*, journalist Erica Cirino brings readers on a globe-hopping journey to meet the scientists and activists telling the real story of the plastic crisis. From the deck of a plastic-hunting sailboat with a disabled engine, to the labs doing cutting-edge research on microplastics and the chemicals we ingest, Cirino paints a full picture of how plastic pollution is threatening wildlife and human health. *Thicker Than Water* reveals that the plastic crisis is also a tale of environmental injustice, as poorer nations take in a larger share of the world's trash, and manufacturing chemicals threaten predominantly Black and low-income communities. There is some hope on the horizon, with new laws banning single-use items and technological innovations to replace plastic in our lives. But Cirino shows that we can only fix the problem if we face its full scope and begin to repair our throwaway culture. *Thicker Than Water* is an eloquent call to reexamine the systems churning out waves of plastic waste.

This book is about the great moral issues underlying many of the headline-making political controversies of our times. It is not a comforting book but a book about disturbing and dangerous trends. The Quest for Cosmic Justice shows how confused conceptions of justice end up promoting injustice, how confused conceptions of equality end up promoting inequality, and how the tyranny of social visions prevents many people from confronting the actual consequences of their own beliefs and policies. Those consequences include the steady and dangerous erosion of fundamental principles of freedom -- amounting to a quiet repeal of the American revolution. The Quest for Cosmic Justice is the summation of a lifetime of study and thought about where we as a society are headed -- and why we need to change course before we do irretrievable damage.

During the final months of his life, Walt Disney was consumed with the world-wide problems of cities. His development concept at the time of his death on December 15th, 1966 would be his team's conceptual response to the ills of the inner cities and the sprawl of the megalopolis: the Experimental Prototype Community of Tomorrow or, as it became known, EPCOT. This beautifully written, instantly engrossing volume focuses on the original concept of EPCOT, which was conceived by Disney as an experimental community of about 20,000 people on the Disney World property in central Florida. With its radial plan, 50-acre town center enclosed by a dome, themed international shopping area, greenbelt, high-density apartments, satellite communities, monorail and underground roads, the original EPCOT plan is reminiscent of post-war Stockholm and the British New Towns, as well as today's transit-oriented development theory.

Unfortunately, Disney himself did not live long enough to witness the realization of his model city. However, EPCOT's evolution into projects such as the EPCOT Center and the town of Celebration displays a remarkable commitment by the Disney organization to the original EPCOT philosophy, one which continues to have relevance in the fields of planning and development.

"A sprawling story richly textured with original material, quirky details and amusing anecdotes . . ." —Wall Street Journal "It is a cause for celebration that Yergin has returned with his perspective on a very different landscape . . . [I]t is impossible to think of a better introduction to the essentials of energy in the 21st century. The Quest is . . . the definitive guide to how we got here." —The Financial Times This long-awaited successor to Daniel Yergin's Pulitzer Prize-winning *The Prize* provides an essential, overarching narrative of global energy, the principal engine of geopolitical and economic change A master storyteller as well as a leading energy expert, Daniel Yergin continues the riveting story begun in his Pulitzer Prize-winning book, *The Prize*. In *The Quest*, Yergin shows us how energy is an engine of global political and economic change and conflict, in a story that spans the energies on which our civilization has been built and the new energies that are competing to replace them. The Quest tells the inside stories, tackles the tough questions, and reveals surprising insights about coal, electricity, and natural gas. He explains how climate change became a great issue and leads readers through the rebirth of renewable energies, energy independence, and the return of the electric car. Epic in scope and never more timely, *The Quest* vividly reveals the decisions, technologies, and individuals that are shaping our future.

"An exquisitely timed book ... Code Red is a worthwhile exploration of the shared goals (and shared enemies) that unite moderates and progressives. But more than that, it is a sharp reminder that the common ground on which Dionne built his career has been badly eroded, with little prospect that it will soon be restored." —The New York Times Book Review New York Times bestselling author and Washington Post columnist E. J. Dionne, Jr. sounds the alarm in *Code Red*, calling for an alliance between progressives and moderates to seize the moment and restore hope to America's future for the 2020 presidential election. Will progressives and moderates feud while America burns? Or will these natural allies take advantage of the greatest opportunity since the New Deal Era to strengthen American democracy, foster social justice, and turn back the threats of the Trump Era? The United States stands at a crossroads. Broad and principled opposition to Donald Trump's presidency has drawn millions of previously disengaged citizens to the public square and to the ballot boxes. This inspired and growing activism for social and political change hasn't been seen since the days of Franklin Roosevelt's New Deal policies and the Progressive and Civil Rights movements. But if progressives and moderates are unable—and unwilling—to overcome their differences, they could not only enable Trump to prevail again but also squander an occasion for launching a new era of reform. In *Code Red*, award-winning journalist E. J. Dionne, Jr., calls for a shared commitment to decency and a politics focused on freedom, fairness, and the future, encouraging progressives and moderates to explore common ground and expand the unity that brought about Democrat victories in the 2018 elections. He offers a unifying model for furthering progress with a Politics of Remedy, Dignity, and More: one that solves problems, resolve disputes, and moves forward; that sits at the heart of the demands for justice by both long-marginalized and recently-displaced groups; and that posits a positive future for Americans with more covered by health insurance, more with decent wages, more with good schools, more security from gun violence, more action to roll back climate change. Breaking through the partisan noise and cutting against conventional wisdom to provide a realistic look at political possibilities, Dionne offers a strategy for progressives and moderates to think more clearly and accept the responsibilities that history now imposes on them. Because at this point in our national story, change can't wait.
