An air of pleasant anticipation hung so thickly over the Halls, Holds, and Weyrs of Pern that it had affected even the businesslike ways of Moreta, the Weyrwoman of Fort Weyr. Her dragon, Queen Orlith, would soon clutch; spring had made a glorious debut; the Gather at Ruatha Hold was extremely merry; and Moreta was enjoying the attentions of Alessan, the new Lord Holder of Ruatha Hold. With only eight Turns remaining before the deadly Thread would cease to Fall, all seemed well on Pern. Then, without warning, a runnerbeast fell ill. Soon myriads of holders, craftsmen, and dragonriders were dying; and the mysterious ailment had spread to all but the most inaccessible holds. Pern was in mortal danger. For, if dragonriders did not rise to char Thread, the parasite would devour any and all organic life it encountered. The future of the planet rested in the hands of Moreta and the other dedicated, selfless Pern leaders. But of all their problems, the most difficult to overcome was time . . .

“[Anne] McCaffrey here adds yet another dimension to her colorful and vivid saga by focusing on the attractive dolphins and their highly believable society.”—Publishers Weekly When the first humans came to settle the planet Pern, they did not come alone: intelligence-enhanced dolphins also crossed the stars to colonize Pern's oceans while their human partners settled the vast continents. But then disaster struck. The deadly silver spores called Thread fell like rain from the sky, and as the human

colonists' dreams of a new, idyllic life shattered into a desperate struggle for survival, the dolphins were forgotten. Now, centuries later, as the dragonriders of Pern prepare to complete the momentous task of ridding their world of Thread forever, T'lon, a young bronze rider, and his friend Readis, son of the Lord Holder of Paradise River Hold, make contact with the legendary "shipfish." And as the dragonriders grapple with the end of an era, T'lon, Readis, and the dolphins face the start of a new one: reviving the bond between land- and ocean-dwellers—and resurrecting the dreams of the first colonists of Pern.

***** They called the planet Botany, after the old penal colony on Earth. For that is what they were - prisoners and dissidents from other worlds whom the hated Catteni had banished to an empty planet - or what they thought was an empty planet. Kris Bjornsen and her fellow slaves had survived very well - thanks to Zainal, a high ranking Catteni also trapped on Botany. Zainal knew the Catteni ways and the Catteni technology, and he had plans for fighting back. For, as he explained, the Catteni too were victims - subject to the mighty and terrifying Eosi race who used the Catteni as a galactic police force - and also used them in more grisly and horrifying ways. But the question remained - to whom did Botany really belong? Who had created the giant grain sheds and the mammoth machinery that tilled the great fields? The new inhabitants of Botany called them the 'Farmers' - and waited for the day they would come to harvest their crops. And when that happened, the refugees were awed into silence - for the Farmers were greater than anything the universe had ever seen.

The Oldtimers, as they are known, are having a difficult time adjusting to their more modern world, and tensions are rising. Worse, Threadfall is becoming more unpredictable, which makes it harder to combat. "[McCaffrey is the] master of the well-told tale."—Chicago Sun-Times As long as the people of Pern could remember, the Holds had protected them from Thread, the deadly silver strands that fell from the sky. In exchange for sanctuary in the huge stone fortresses, the people tithed to their Lord Holders, who in turn supported the dragonriders, Pern's greatest weapon against Thread. But not everyone on Pern was protected. Some, like Jayge's trader clan, simply preferred the freedom of the roads to the security of a hold. Others, like Aramina's family, had lost their homes. Regardless of their differences, however, they all feared the outlaws who preyed on holds and holdless alike. The Lady Thella's renegades are the most dangerous yet—all they need is Aramina, whose telepathic link with dragons can help them evade the dragonrider patrols. But Jayge is out to stop Thella . . .and he will never let her have Aramina.

The Dragonriders of Pern Simon and Schuster

The planet Pern has been colonized for centuries by humans. When humans first settled on this world, they did not take notice of its sister planet, which had an indigenous life form that attempted to land on Pern when it came within reach. These silver "threads" fell in a destructive wave on the temperate lands of Pern once every 200 years, destroying all life they encountered. To combat this menace, the inhabitants of Pern developed a species of dragon that could burn these threads out of the sky before they touched down. Now, centuries have passed between threadfalls, and the danger of thread is considered a myth. However, a dragon rider named F'lar knows that the riders are once again needed.
