Respiratory System | Biology Quiz - Quizizz

The human respiratory is sorely charged with taking in oxygen and dispersing carbon dioxide. This is made possible through the collaboration of some organs. Do you know all there is to this specific system? Take this multiple-choice quiz on the human respiratory system and share with your friends too. All the best and keep reading up on it and its functions!

A Quick Multiple Choice Quiz On Respiratory System ...

The primary function of the respiratory system is to supply the blood with oxygen in order for the blood to deliver oxygen to all parts of the body. The respiratory system does this through breathing. When we breathe, we inhale oxygen and exhale carbon dioxide. This exchange of gases is the respiratory system's means of getting oxygen to the blood.
