Weighing Lives in War

**St. Martin's Paperbacks**  
The second book in a back-to-back publication in the "superbly entertaining" (Booklist) new Regency historical series from New York Times bestselling author Julia London. Tobin Scott, otherwise known as Count Eberlin of Denmark, has returned to Hadley Green, the site of his father's hanging for thievery fifteen years ago. He has but one goal in mind, and that is to avenge his father, who he believes was innocent of stealing the Countess of Ashwood jewels. Now a wealthy man, Tobin intends to exact his revenge by destroying the Ashwood estate and the Countess of Ashwood, who as a young girl testified against his father. Lily Boudine has become the Countess of Ashwood through a very surprising twist of fate. She is even more surprised when a vaguely familiar looking man calls and tells her he is Tobin Scott, whom she knew as a boy, and that he intends to destroy her or Ashwood. He leaves the choice to her. Because so many people depend on Ashwood, Lily chooses herself, thinking that she can hold him at

bay long enough to remove Ashwood from his clutches. But as they play the game of seduction, and she slowly discovers that he is not the cold, heartless man he would like to present to her, she also believes that Tobin is right—his father did not steal the jewels. And if she can find them, she can help restore his family's honor—but not before she discovers another shocking secret.

The chief means to limit and calculate the costs of war are the philosophical and legal concepts of proportionality and necessity. Both categories are meant to restrain the most horrific potential of war. The volume explores the moral and legal issues in the modern law of war in three major categories. In so doing, the contributions will look for new and innovative approaches to understanding the process of weighing lives implicit in all theories of *jus in bello*:

who counts in war, understanding proportionality, and weighing lives in asymmetric conflicts. These questions arise on multiple levels and require interdisciplinary consideration of both philosophical and legal themes.

Recovering the history of the revolutionary Jewish tradition Jewish radicals manned the barricades on the avenues of Petrograd and the alleys of the Warsaw ghetto; they were in the vanguard of those resisting Franco and the Nazis. They originated in Yiddishland, a vast expanse of Eastern Europe that, before the Holocaust, ran from the Baltic Sea to the western edge of Russia and incorporated hundreds of Jewish communities with a combined population of some 11 million people. Within this territory, revolutionaries arose from the Jewish misery of Eastern and Central Europe; they were raised in the fear of God and taught to respect religious tradition, but were caught up in the great current of revolutionary utopian thinking. Socialists, Communists, Bundists, Zionists, Trotskyists, manual workers and intellectuals, they embodied the multifarious activity and radicalism of a Jewish

working class that glimpsed the Messiah in the folds of the red flag. Today, the world from which they came has disappeared, dismantled and destroyed by the Nazi genocide. After this irremediable break, there remain only survivors, and the work of memory for red Yiddishland. This book traces the struggles of these militants, their singular trajectories, their oscillation between great hope and doubt, their lost illusions—a red and Jewish gaze on the history of the twentieth century.
