The book provides rule-by-rule commentaries on European contract law (general contract law, consumer contract law, the law of sale and related services), dealing with its modern manifestations as well as its historical and comparative foundations. After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades, and for an assessment of the current situation. In particular, the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law. The present book adopts a broad perspective and an integrative approach. All relevant reference texts (from the CISG to the Draft Common European Sales Law) are critically examined and compared with each other. As far as the *acquis commun* (ie the traditional private law as laid down in the national codifications) is concerned, the Principles of European Contract Law have been chosen as a point of departure. The rules contained in that document have, however, been complemented with some chapters, sections, and individual provisions drawn from other sources, primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law. In addition, the book ties

the discussion concerning the reference texts back to the pertinent historical and comparative background; and it thus investigates whether, and to what extent, these texts can be taken to be genuinely European in nature, ie to constitute a manifestation of a common core of European contract law. Where this is not the case, the question is asked whether, and for what reasons, they should be seen as points of departure for the further development of European contract law.

Women don't feel comfortable telling a man what they wish he knew about dating. He's expected to know it. Unfortunately, the only time men receive specific guidelines is when they're being told what they're not supposed to do. As a result, very few know what they are supposed to do! What men want is a clear blueprint. Imagine how much simpler dating would be if women could just speak their minds! Therefore, Jason Evert surveyed more than a thousand women and asked them questions such as: · How would you want a man to ask you out? · How do you not want to be asked on a date? This book reveals their surprising answers, plus: · How to know if she's the right one · Where women don't want to go on a first date · What word they want a man to say when he asks · When, where, and how he should ask · What she hopes the date will

*Make Your Creative Dreams Real* Cambridge University Press  
The bestselling, beloved classic on how to go into the dark side of yourself to bring out the light -- now with new material. Debbie Ford believes that we each hold within us a trace of every human characteristic that exists, the capacity for every human emotion. We are born with the ability to express this entire spectrum of characteristics. But, Ford points out, our families and our society send us strong messages about which ones are good and bad. So when certain impulses arise, we deny them instead of confronting them, giving them a healthy voice, then letting them go. It is to these feelings that Ford turns our attention, these parts of our selves that don't fit the personae we have created for the rest of the world. She shows us the effects of living in the dark, of keeping all our supposedly unsavory impulses under wraps. We find ourselves disproportionately frustrated and angry at the selfishness of friends, the laziness of colleagues, the arrogance of siblings. When we are unable to reconcile similar impulses in ourselves, Ford explains, we waste our own energy judging others instead of empathizing. But most important, we deny ourselves the power and freedom of living authentically. Through the stories and exercises in *The Dark Side of the Light Chasers*, Debbie Ford shows us not only how to recognize our hidden emotions, but also how to find the gifts they offer us. This is for fans of Marianne Williamson, Neale Donald Walsch, and Deepak Chopra. The very impulses we most fear may be the key to what is lacking in our lives.

She teaches how to be more present, use our intuition, and get out from under the daily restrictions of autopilot. She reveals strategies to stay the course, maintain low attachment to outcome, receive feedback, stay disciplined and responsible to ourselves, and learn what it means to practice acceptance and surrender. Ms. Pickard is testimony to her proven methods. She reinvented herself as a master life coach in her second half and at the age of 61, climbed Mount Kilimanjaro, experiences and achievements that recalibrated her way of being and became her vision for a bigger life. Not everyone must climb a mountain to live larger. As the book well shows, each of our versions of a bigger life can be anything that brings elation, accomplishment, fulfillment, and connection with the spirit of who we are. *Bigger Better Braver* provides the pathway to uncover our personal vision of what living bigger means and opens the door for a major life change.
