The Dying Day Columbia University Press

The aim of this volume is to provide an overview of research from different psychological domains with regards to intergroup helping, arguing for intergroup helping as a research area in and of itself. Historically, research on intergroup relations has largely overlooked helping between groups—which, combined with the fact that most of the research on altruism and helping has focused on individuals, meant that intergroup helping was primarily looked at as deriving from negative intergroup interactions, such as ingroup bias or discrimination. However, over the last decade, a small but growing group of researchers started to investigate intergroup helping as a positive social act occurring between and amongst groups. With contributions from these expert researchers, this volume makes the case that intergroup helping should be studied as a phenomenon in and of itself, not as a mere expression of negative intergroup behaviour. To advance this argument, the first section covers

traditional research approaches in which the willingness to help other groups is construed as a form of discrimination. Then, the second section looks at the reasons why people may be motivated to help other groups. Finally, the last section explores intergroup helping in real world settings, looking at natural disaster responses and the role of morality, among other topics, demonstrating that intergroup relations can be truly positive. Thus, Intergroup Helping: The Positive Side of Intergroup Behavior informs researchers in positive and group relations psychology about the current state of affairs of research on intergroup cooperation and helping, and sets out an agenda for further exploration. Tapping into a current trend towards positive psychology, it moves away from the traditional view within intergroup relations research of the group as a 'source of trouble', and instead focuses on truly positive intergroup relations, with the ultimate goal of promoting real positive behaviour that breaches the intergroup divide.

The Life You Left Behind Contemporary Arts Museum

Interpreting the meaning of hospitality in an unwelcoming political moment Amid xenophobic challenges to America's core value of welcoming the tired

and the poor, Irina Aristarkhova calls for new forms of hospitality in her engagement with the works of eight international artists. In this first monograph on hospitality in contemporary art, Aristarkhova employs a feminist perspective to critically explore the artworks of Ana Prvacki, Faith Wilding, Lee Mingwei, Kathy High, Mithu Sen, Pippa Bacca, Silvia Moro, and Ken Aptekar and ask who, how, and what determines who is worthy of our welcome. Spanning a diverse range of contemporary art practices, *Arrested Welcome* shows how artists challenge our existing notions of hospitality--culturally, philosophically, and politically. From the role of "microcourtesies" in social change to the portrayal of waiting as a feminist endeavor, Aristarkhova looks deeply into topics such as gender stereotypes of welcome, ways to reclaim civility, and the means by which guests (sometimes human, sometimes animal) push the limits of our hosting traditions. Blending a feminist analysis of hospitality with in-depth case studies on how contemporary artists stimulate personal reflection and political engagement, Aristarkhova initiates these important conversations at a critical time of national and international hospitality crises.
