This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared The New Republic hailed it as "remarkable, learned and lively," while The New Yorker noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

The Great War, 1914-1918 SteinerBooks
Central to the idea of a perfect society is the idea that communities must be strong and bound together with shared ideologies. However, while this may be true, rarely are the individuals that comprise a community given primacy of place as central to a strong communal theory. This volume moves away from the dominant, current macro-level theorising on the subject of identity and its relationship to and with globalising trends, focusing instead on the individual’s relationship with utopia so as to offer new interpretive approaches for engaging with and examining utopian individuality. Interdisciplinary in scope and bringing together work from around the world, The Individual and Utopia enquires after the nature of the utopian as citizen, demonstrating the inherent value of making the individual central to utopian theorizing and highlighting the methodologies necessary for examining the utopian individual. The various approaches employed reveal what it is to be an individual yoked by the idea of citizenship and challenge the ways that we have traditionally been taught to think of the individual as citizen. As such, it will appeal to scholars with interests in social theory, philosophy, literature, cultural studies, architecture, and feminist thought,

whose work intersects with political thought, utopian theorizing, or the study of humanity or human nature.

"Hailed by Andre Gide as the patron saint of all outsiders, Simone Well's short life was ample testimony to her beliefs. In 1943, the final year of her life, unable to join the resistance movement in France, she worked in London for the Free French government in exile. Here she was commissioned to outline a plan for the renewal of Europe after the scourge of Nazism. The Need for Roots was the direct result. In it she seized the opportunity to denounce the false values of contemporary civilization. In the cult of materialism she witnessed a devastating loss of spirit and consequently of human values. To counteract this she sets out a radical vision for spiritual and political renewal with a passion for truth which sweeps through these pages. The book has become a lasting spiritual testament for our age, where we are confronted, as T.S. Eliot comments, by a genius akin to that of the saints."--Jacket.
The Century of Revolution, 1603-1714 Psychology Press
P.D. Newman's bold and daring theory provides a radical interpretation of Masonic symbolism. In the tradition of Wasson, Hofmann and Ruck, in ""The Road to Eleusis: Unveiling the Secret of the Mysteries"" (1978), and Heinrich's ""Strange Fruit: Alchemy, Religion, and Magical Foods"" (1995), Newman suggests that practical psychoactive pharmacology, rather than philosophy, lies concealed in the root of some of our allegories and mysteries. Admitting to being more than a mere theoretician, Newman draws from his own personal experiences, and a wide range of sources, in presenting his theory in a logical manner, which merits consideration. - Arturo De Hoyos, 33* Grand Archivist and Grand Historian Ancient and Accepted Scottish Rite, Southern Jurisdiction
[The Rosicrucian Enlightenment Revisited](#) Nicolas-Hays, Inc.
The Gnostic revival of the Enlightenment witnessed the erection of what could be called the “ Kantian Rift, ” an epistemological barrier between external reality and the mind of the percipient. Arbitrarily proclaimed by German philosopher Immanuel Kant, this barrier rendered the world as a terra incognita. Suddenly, the world “ out there ” was deemed imperceptible and unknowable. In addition to the outer world, the cherished metaphysical certainties of antiquity—the soul, a transcendent order, and God—swiftly evaporated. The way was paved for a new set of modern mythmakers who would populate the world “ out there ” with their own surrogates for the Divine. Collectively, these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity. In recent years, the Beyond has been invoked by theoreticians, literary figures, intelligence circles, and deep state operatives who share some variant of a technocratic vision for the world. In turn, these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man. Their hegemony has been legitimized through the invocation of a wrathful earth goddess, a technological Singularity, a superweapon, and extraterrestrial “ gods. ” All of these are merely masks for the same counterfeit divinity... the Beyond.

Presenting an advanced and authoritative perspective, this definitive study chronicles the rise and fall of the Order of the Illuminati, a mysterious Enlightenment-era guild surrounded by myth. Describing this enigmatic community in meticulous detail, more than 1,000 endnotes are included, citing scholars, professors, and academics. Contemporary accounts and the original documents of the Illuminati themselves are covered as well. Copiously illustrated and featuring biographies of more than 400 confirmed members, this survey brings to light a 200-year-old mystery.
Rosicrucian Enlightenment BRILL
The Chemical Wedding of Christian Rosenkreutz, often looked upon as the third Rosicrucian manifesto, has an entirely different tone from the other Rosicrucian

documents. Unlike the Rosicrucian manifestoes, which address the transformation of society, The Chemical Wedding is concerned with the inner transformation of the soul. It is a deeply interior work, one which asks the reader to step into its world of symbols and walk with Christian Rosenkreutz along his path of transformation. Despite its importance as a key text of the Western esoteric traditions, this is the first ever contemporary English translation of The Chemical Wedding, made especially for this edition by Joscelyn Godwin. Also included in this edition is an introduction and commentary by Adam McLean, which illuminates the transformative symbolism.
The Rose Cross and the Age of Reason Transaction Publishers
A landmark history of the war that firmly places the First World War in the context of imperialism and gives due weight to the role of non-Europeans in the conflict.
[Marshall McLuhan and Northrop Frye](#) Cambridge University Press
The metaphysical scheme known as the Kabbalistic Tree of Life describes the structure and dynamic of Existence. Detailed examples in this book reveal how cosmic laws operate throughout the four interconnected Worlds of Jacob's Ladder. The development and purpose of humanity are seen as part of a vast process that originates in the Divine Realm.
[Thinking with Demons](#) Weiser Books
This unique and brilliant book is a history of human knowledge. Before the invention of printing, a trained memory was of vital importance. Based on a technique of impressing 'places' and 'images' on the mind, the ancient Greeks created an elaborate memory system which in turn was inherited by the Romans and passed into the European tradition, to be revived, in occult form, during the Renaissance. Frances Yates sheds light on Dante ' s Divine Comedy, the form of the Shakespearian theatre and the history of ancient architecture; The Art of Memory is an invaluable contribution to aesthetics and psychology, and to the history of philosophy, of science and of literature.
[The Rosicrucian Manifestos](#) Routledge
The Rosicrucian Trilogy features modern translations of Fama Fraternitatis(1614), Confessio Fraternitatis (1615), and The Chemical Wedding of Christian Rosenkreuz (1616) with 30 original illustrations by Hans Wildermann. Four hundred years ago, the publication of these 3 anonymous documents launched the Rosicrucian movement. The story of Christian Rosenkreuz and his secretive order, as told in the Fama Fraternitatis, had political repercussions that continue to this day, while The Chemical Wedding is a landmark in European fantasy fiction. This present book offers the 3 founding documents in reliable, readable, modern English. Fully annotated and with modern introductions, these new translations explain the historical context, shed light on the beginnings of the Rosicrucian Order, and bring this fascinating material to a wider readership.
The Art of Memory Lulu.com
This major work offers a new interpretation of the witchcraft beliefs of European intellectuals between the fifteenth and eighteenth centuries, showing how these beliefs fitted rationally with other beliefs of the period and how far the nature of rationality is dependent on its historical context.

This fully revised third edition of this Concise Encyclopedia brings it completely up-to-date. Featuring lively and engaging entries by some of the leading philosophers of our age, it is a readable reference work and engaging introduction.
The Rosicrucian Enlightenment Weiser Books
This is the first full-length biography of British historian Frances Yates, author of such acclaimed works as Giordano Bruno and The Hermetic Tradition and The Art of Memory, one of the most influential non-fiction books of the twentieth century. Jones ’ s book explores Yates ’ remarkable life and career and her interest in the mysterious figure of Giordano Bruno and the influence of the Hermetic tradition on the culture of the Renaissance. Her revolutionary way of viewing history, literature, art, and the theater as integral parts of the cultural picture of the time period did much to shape modern interdisciplinary approaches to history and literary criticism. Jones focuses not only on the particulars of Yates ’ life, but also sheds light on the tradition of female historians of her time and their contributions to Renaissance scholarship. In addition to her insightful commentary on Yates ’

academic work, Jones quotes from Frances ’ diaries and the writings of those who were close to her, to shed light on Yates ’ private life. This biography is significant for those with an interest in literary criticism, women ’ s history, scientific history, or the intellectual atmosphere of post-war Britain, as well as those interested in the Hermetic tradition.

The Rosicrucian Enlightenment Revisited Routledge

In 1995, to honor the role of Central Europe in the spiritual history of the West, the New York Open Center invited students of Rosicrucianism and the Western Mystery traditions to the Czech Republic to discuss the historical backgrounds of Rosicrucianism. Two years later a second meeting was held in Prague to celebrate the Hermetic world of Rudolf II. The result is this book: in which John Matthews addresses the relationship between the Grail and the Rose; Christopher Bamford speaks of the prehistory of the Rosicrucian reformation in the late Middle Ages--among women mystics, alchemists, Cathars, Franciscan spirituals, as well as in Luther and the great Paracelsus; Nicholas Goodrick-Clarke tells the wild tale of John Dee's mission to central Europe; Joscelyn Godwin unfolds the paradigmatic Rosicrucian life of Michael Maier; Claire Goodrick-Clarke recounts influence of Comenius; Paul Bembridge speaks of Rosicrucian Resurgence at the Court of Cromwell; Robert Powell describes the roles of Tycho Brahe, Johannes Kepler, and Rudolf II; and Christopher McIntosh speaks of the Rosicrucian Legacy. Also included are the texts of the two Rosicrucian Manifestos--the Fama and the Confessio. Illustrated.

The Rosicrucians Cambridge University Press

Marshall McLuhan and Northrop Frye are two of Canada's central cultural figures, colleagues and rivals whose careers unfolded in curious harmony even as their intellectual engagement was antagonistic. Poet, novelist, essayist and philosopher B.W. Powe, who studied with both of these formidable and influential intellectuals, presents an exploration of their lives and work in Marshall McLuhan and Northrop Frye: Apocalypse and Alchemy. Powe considers the existence of a unique visionary tradition of Canadian humanism and argues that McLuhan and Frye represent fraught but complementary approaches to the study of literature and to the broader engagement with culture. Examining their eloquent but often acid responses to each other, Powe exposes the scholarly controversies and personal conflicts that erupted between them, and notably the great commonalities in their writing and biographies. Using interviews, letters, notebooks, and their published texts, Powe offers a new alchemy of their thought, in which he combines the philosophical hallmarks of McLuhan's The medium is the message and Frye's the great code.

The Rosicrucian Enlightenment Cardoza Publishing

This the first comprehensive study of the eighteenth-century German Rosicrucian revival and, in particular, of the Gold und Rosenkreuz (Golden and Rosy Cross) order. It examines the order's relationship to the Enlightenment and its influence on the cultural, political and religious life of its age.
