Narrative and Metaphor in the Law BRILL
Time and Narrative builds on Paul Ricoeur's earlier analysis, in *The Rule of Metaphor*, of semantic innovation at the level of the sentence. Ricoeur here examines the creation of meaning at the textual level, with narrative rather than metaphor as the ruling concern. Ricoeur finds a "healthy circle" between time and narrative: time is humanized to the extent that it portrays temporal experience. Ricoeur proposes a theoretical model of this circle using Augustine's theory of time and

Aristotle's theory of plot and, further, develops an original thesis of the mimetic.

In this *New Studies in Biblical Theology* volume, Trevor Burke argues that the scripture phrase "adopted as sons," while a key theological metaphor, has been misunderstood, misrepresented or neglected. He redresses the balance in this comprehensive study of the phrase. "This volume not only probes a neglected theme; it also edifies," says D. A. Carson.

Metaphor II University of Chicago Press

In today's ever-changing climate of disintegration and recombination, translation has become one of the essential metaphors, if not the metaphor, of our globalized world. Translation and Metaphor is an attempt to draw a comprehensive map of these new overlapping theoretical territories and the many cross-disciplinary movements they imply. In five chapters, this book examines:

- The main metaphor theories developed in the West.
- The way

the notion of metaphor relates to the concept of translation. · Different theoretical perspectives on metaphors of translation in translation studies. · The main metaphors developed to describe translation in the West and in the East. · Spatial metaphors within translation studies, cultural studies and postcolonial theory. · The use of the metaphor of translation across psychoanalysis, anthropology and ethnography, postcolonial theory, history and literature, sociology, media and communication theory, and medicine and genetics. Comprehensive analysis of key metaphor theories, revealing examples from a wide range of sources and a look towards future directions make this is a must-have book for students, researchers and translators working in the areas of translation and translation theory.

On Stories Multnomah

First published in 1978, this study considers the impact of dissenting voices upon literature, religion and politics in order to reassess the nonconformist contribution to English culture from the eighteenth

century through to the twentieth.

This historical survey takes into the account the contribution of a wealth of seminal literary figures such as the poets Isaac Watts, Charles Wesley and William Blake; and the novelists Elizabeth Gaskell, George Elliot, Mark Rutherford and D. H. Lawrence. However, far from consigning his study merely to literature, Davie also includes important orators like Robert Hall; scientists like Michael Faraday and Philip Gosse; political activists like Joseph Priestly, and soldiers like Orde Wingate. Unitarians, Sandemanians, Wesleyan Methodists and the Plymouth Brethren are considered, as well as the older denominations.

The thought of Paul Ricoeur continues its profound effect on theology, religious studies and biblical interpretation. The 28 papers contained in this volume constitute the most comprehensive overview of Ricoeur's writings in religion since 1970. Ricoeur's hermeneutical orientation and his sensitivity to the mystery of religious language offer fresh insight to the transformative potential of sacred literature, including the Bible.

A Presentation of The Rule of Metaphor by Paul Ricoeur The Rule of Metaphor

Paul Ricoeur has been hailed as one of the most important thinkers of the century. *Oneself as Another*, the clearest account of his "philosophical ethics," substantiates this position and lays the groundwork for a metaphysics of morals. Focusing on the concept of personal identity, Ricoeur develops a hermeneutics of the self that charts its epistemological path and ontological status.

Foucault, Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas, Michel Foucault. The author argues that it is the injustice done to the 'Other' by Roman Catholic, Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de-centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play, in the constitution of the self and the making of society. This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non-unitary theology of religious pluralism and an open-textured process of self-transformation. The author's original and imaginative application and

expansion of Foucault's concept of the 'More' from *The Archaeology of Knowledge* (1969) makes important and original contributions to academic work on Foucault and contemporary theology.

First published in 1977, this book was the first to map extensively the ideological typography of the Anglo-American tradition of literary theory. It interrogates, comprehensively and in detail, the assumptions and categorical development within critical ideas from I. A. Richards and T. S. Eliot, through John Crowe Ransom and the New Criticism, to Northrop Frye and Marshall McLuhan. This analysis reveals the Anglo-American tradition of literary-cultural theory is most properly intelligible within the overall field of social consciousness as an

ideology of progressive cultural rationalization. Against a background of ideological development since nineteenth-century Romanticism, John Fekete illuminates the boundaries of literary ideology in relation to the shapes and changes of modern culture and society.

Theater as Metaphor Routledge
Stories offer us some of the richest and most enduring insights into the human condition and have preoccupied philosophy since Aristotle. *On Stories* presents in clear and compelling style just why narrative has this power over us and argues that the unnarrated life is not worth living. Drawing on the work of James Joyce, Sigmund Freud's patient 'Dora' and the case of Oscar Schindler, Richard Kearney skilfully illuminates how stories not only entertain us but can determine our lives and personal identities. He also considers nations as stories, including the story of Romulus and Remus in the founding of Rome. Throughout, *On Stories* stresses that, far from heralding the demise of narrative, the digital era merely opens up new stories.

Freedom and Nature BRILL

Metaphor, though not now the scholarly mania it once was, remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis. Warren Shibles' *Metaphor: An Annotated Bibliography and History*

(Bloomington, Ind. 1971) recorded the initial interest. Then *Metaphor: A*

Bibliography of Post-1970 Publications, published by John Benjamins, continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language. Five years later, there is a need for a report on the newest thinking and tendencies in the field. This need is fulfilled by *Metaphor II* which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources, including many sometimes-hard-to-find publications from Eastern Europe. *Metaphor II* systematically collects references of books, articles and papers published between 1985 and May 1990, and includes for completeness corrections and additions to the earlier bibliographies. Abstracts are given for many of the titles, while four indices (disciplines, semantic fields, metaphor theory and names) multiply the number of access points to the information.

Time and Narrative, Volume 2 Books on Demand

This book is the first comprehensive analysis of Jewish attitudes towards slavery in Hellenistic and Roman times. Against the traditional opinion that after the Babylonian Exile Jews refrained from employing slaves, Catherine Hezser shows that slavery remained a significant phenomenon of ancient Jewish everyday life and generated a discourse which resembled Graeco-Roman and early Christian views while at the same time preserving specifically Jewish nuances. Hezser examines the impact of domestic slavery on the ancient Jewish household and on family relationships. She discusses the perceived advantages of slaves over other types of labor and evaluates their role within the ancient Jewish economy. The ancient Jewish experience of slavery seems to have been so pervasive that slave images also entered theological discourse. Like their Graeco-Roman and Christian counterparts, ancient Jewish intellectuals did not advocate the abolition of slavery, but they used the biblical tradition and their own judgements to ameliorate the status quo. the heart of much of his work: What is translation and why is it so important? Reminding us that The Bible, the Koran, the Torah and the works of the great philosophers are often only ever read in translation, Ricoeur reminds us that translation not only spreads knowledge but can change its very meaning. In spite of these risk, he argues that in a climate of ethnic and religious conflict, the art and ethics of translation are invaluable. Drawing on interesting examples such as the translation of early Greek philosophy during the Renaissance, the poetry of Paul Celan and the work of Hannah Arendt, he reflects not only on the challenges of translating one language into another but how one community speaks to another. Throughout, Ricoeur shows how to move through life is to navigate a world that requires translation itself. Paul Ricoeur died in 2005. He was one of the great contemporary French philosophers and a leading figure in hermeneutics, psychoanalytic thought, literary theory and religion. His many books include Freud and Philosophy and Time and
