First published in 1978, this study considers the impact of dissenting voices upon literature, religion and politics in order to reassess the nonconformist contribution to English culture from the eighteenth century through to the twentieth. This historical survey takes into the account the contribution of a wealth of seminal literary figures such as the poets Isaac Watts, Charles Wesley and William Blake; and the novelists Elizabeth Gaskell, George Elliot, Mark Rutherford and D. H. Lawrence. However, far from consigning his study merely to literature, Davie also includes important orators like Robert Hall; scientists like Michael Faraday and Philip Gosse; political activists like Joseph Priestly, and soldiers like Orde Wingate. Unitarians, Sandemanians, Wesleyan Methodists and the Plymouth Brethren are considered, as well as the older denominations.

Sponge Blue The Rule of Metaphor

This book is the first comprehensive analysis of Jewish attitudes towards slavery in Hellenistic and Roman times. Against the traditional opinion that after the Babylonian Exile Jews refrained from employing slaves, Catherine Hezser shows that slavery remained a significant phenomenon of ancient Jewish everyday life and generated a discourse which resembled Graeco-Roman and early Christian views while at the same time preserving specifically Jewish nuances. Hezser examines the impact of domestic slavery on the ancient Jewish household and on family relationships. She discusses the perceived advantages of slaves over other types of labor and evaluates their role within the ancient Jewish economy. The ancient Jewish experience of slavery seems to have been so pervasive that slave images also entered theological discourse. Like their Graeco-Roman and Christian counterparts, ancient Jewish intellectuals did not

advocate the abolition of slavery, but they used the biblical tradition and their own judgements to ameliorate the status quo.

The Theology of Paul the Apostle Routledge

It has long been recognized that court trials, both criminal and civil, in the common law system, operate around pairs of competing narratives told by opposing advocates. In recent years, however, it has increasingly been argued that narrative flows in many directions and through every form of legal theory and practice. Interest in the part played by metaphor in the law, including metaphors for the law, and for many standard concepts in legal practice, has also been strong, though research under the metaphor banner has been much more fragmentary. In this book, for the first time, a distinguished group of legal scholars, collaborating with specialists from cognitive theory, journalism, rhetoric, social psychology, criminology, and legal activism, explore how narrative and metaphor are both vital to the legal process. Together, they examine topics including concepts of law, legal persuasion, human rights law, gender in the law, innovations in legal thinking, legal activism, creative work around the law, and public debate around crime and punishment.

Friend or Foe? The Figure of Babylon in the Book of Jeremiah MT Cambridge University Press

Paul Ricoeur was one of the most important philosophers of the twentieth century. In this short and accessible book, he turns to a topic at the heart of much of his work: What is translation and why is

it so important? Reminding us that The Bible, the Koran, the Torah and the works of the great philosophers are often only ever read in translation, Ricoeur reminds us that translation not only spreads knowledge but can change its very meaning. In spite of these risk, he argues that in a climate of ethnic and religious conflict, the art and ethics of translation are invaluable. Drawing on interesting examples such as the translation of early Greek philosophy during the Renaissance, the poetry of Paul Celan and the work of Hannah Arendt, he reflects not only on the challenges of translating one language into another but how one community speaks to another.

Throughout, Ricoeur shows how to move through life is to navigate a world that requires translation itself. Paul Ricoeur died in 2005. He was one of the great contemporary French philosophers and a leading figure in hermeneutics, psychoanalytic thought, literary theory and religion. His many books include Freud and Philosophy and Time and Narrative. Translation as Metaphor Cambridge University Press

Paul's letter to the Galatians begins with a proclamation of deliverance from the present evil age and comes to a climax with the ringing cry "new creation!" The letter moves from the Galatian believers' new identity in Christ to the implications of that identity for their life together. Susan Eastman here argues that Galatians 4:12 û 5:1 plays a key role in this movement: it displays the power of God's act in Christ, apart from the law, not only to generate the Galatians' new life in Christ but also to perfect it. Paul communicates to his converts the

motivation and power necessary to move them from their ambivalence about his gospel to a faith that "stands fast" in its allegiance to Christ alone.

Eastman argues that the medium and the message are inseparable. Paul's discourse or "mother tongue" -- packed with maternal images, vulnerable yet authoritative, and marked by personal suffering -- demonstrates the content of the good news.

In this New Studies in Biblical Theology volume, Trevor Burke argues that the scripture phrase "adopted as sons," while a key theological metaphor, has been misunderstood, misrepresented or neglected. He redresses the balance in this comprehensive study of the phrase. "This volume not only probes a neglected theme; it also edifies," says D. A. Carson.

Recovering Paul's Mother Tongue Routledge

In his letters to the early Christian communities, the apostle Paul left for Christians of all time an array of

powerful images: from the pain of a thorn in the flesh to the tenderness of a nursing mother for her children, from the competition on an athletic field to the growth of an agricultural field. In *The Power of Images in Paul*, Raymond Collins explores how Paul uses the ordinary to describe what is extraordinary, how Paul skillfully uses a wide range of metaphors as a means of both persuasion and clarification. But this book is more than an analysis of Paul's images themselves. Collins also examines how Paul deliberately draws from secular as well as religious and biblical themes in order to draw a culturally diverse audience into relationship with Christ. Entering Paul's world with Collins, readers will better appreciate Paul's use of metaphor and, more important, be persuaded as was Paul's original audience of God's unfailing love in Christ.

Narrative and Metaphor in the Law University of Chicago Press

Time and Narrative builds on Paul Ricoeur's earlier analysis, in *The Rule of Metaphor*, of semantic innovation at the level of the sentence. Ricoeur here examines the creation of meaning at the textual level, with narrative rather than metaphor as the ruling concern. Ricoeur finds a "healthy circle" between time and narrative: time is humanized to the extent that it portrays temporal experience. Ricoeur proposes a theoretical model of this circle using Augustine's theory of time and Aristotle's theory of plot and, further, develops an original thesis of the mimetic function of narrative. He concludes with a comprehensive survey and critique of modern discussions of historical knowledge, understanding, and writing from Aron and Mandelbaum in the late 1930s to the work of the Annales school and that of Anglophone philosophers of history of the 1960s and 1970s. "This work, in my view, puts the whole problem of narrative, not to mention philosophy of history, on a new and higher plane of discussion."—Hayden White, *History and Theory* "Superb. . . . A fine point of entrance into the work of one of the eminent thinkers of the present intellectual age."—Joseph R. Gusfield, *Contemporary Sociology*

Paul Ricoeur has been hailed as one of the most important thinkers of the century. *Oneself as Another*, the clearest account of his "philosophical ethics," substantiates this position and lays the groundwork for a metaphysics of morals. Focusing on the concept of personal identity, Ricoeur develops a hermeneutics of the self that charts its epistemological path and ontological status.

Jewish Slavery in Antiquity John Benjamins Publishing

This volume, the first part of Paul Ricoeur's *Philosophy of the Will*, is an eidetics, carried out within carefully imposed phenomenological brackets. It seeks to deal with the essential structure of man's being in the world, and so it suspends the distorting dimensions of existence, the bondage of passion, and the vision of innocence, to which Ricoeur returns in his later writings. The result is a conception of man as an incarnate Cogito, which can make the polar unity of subject and object intelligible and provide a basic continuity for the various aspects of inquiry into man's being-in-the-world.

Stories offer us some of the richest and most enduring insights into the human condition and have preoccupied philosophy since Aristotle. *On Stories* presents in clear and compelling style just why narrative has this power over us and argues that the unnarrated life is not worth living. Drawing on the work of James Joyce, Sigmund Freud's patient 'Dora' and the case of Oscar Schindler, Richard Kearney skilfully illuminates how stories not only entertain us but can determine our lives and personal identities. He also considers nations as stories, including the story of Romulus and Remus in the founding of Rome. Throughout, *On Stories* stresses that, far from heralding the demise of narrative, the digital era merely opens up new stories.
