First published in 1978, this study considers the impact of dissenting voices upon literature, religion and politics in order to reassess the nonconformist contribution to English culture from the eighteenth century through to the twentieth. This historical survey takes into the account the contribution of a wealth of seminal literary figures such as the poets Isaac Watts, Charles Wesley and William Blake; and the novelists Elizabeth Gaskell, George Eliot, Mark Rutherford and D. H. Lawrence. However, far from consigning his study merely to literature, Davie also includes important orators like Robert Hall; scientists like Michael Faraday and Philip Gosse; political activists like Joseph Priestly, and soldiers like Orde Wingate. Unitarians, Sandemanians, Wesleyan Methodists and the Plymouth Brethren are considered, as well as the older denominations.

It is commonplace that postmodern thought has problematized the concept of the self. This poses a particularly sharp problem for Christian theologians, for whom the idea of the person as a Christian self must be central. In this book John Meech addresses this problem by means of a theological hermeneutics that brings together cutting edge scholarship in biblical interpretation and constructive theology. The book comprises three major parts. In the first, Meech reflects on St. Paul's construal of Christian identity in light of what has become known as the "new paradigm" in Pauline studies. This movement, identified with N.T. Wright, James Dunn, and Terence Donaldson, stresses the communal aspects of Paul's thought and his narrative understanding of the self. In the second part, Meech offers a pivotal analysis of Rudolf Bultmann's phenomenology of the self and its impact on his demythologizing interpretation of Paul's writings. In the third part, Meech engages Paul Ricoeur's late work, *Oneself as Another*, as a guide to the postmodern problem of selfhood and as a heuristic resource for interpreting Paul's writings. He does not restrict himself to a textual treatment of Ricoeur's work on selfhood and narrative, nor does he stop at an abstract reflection on its significance for theology. Instead he explores in considerable detail the contributions and implications of Ricoeur's later writings for biblical hermeneutics and theology. Investigating the unthematized hints about community presupposed in Ricoeur's work, Meech reconfigures his ontology of the self as an ontology of the self in community. Finally, he correlates Paul's communal understanding of the "I" with this ontology, articulating a self that is constituted in community but not reduced to a mere locus of community. He argues that the community posited in his study can be understood as the community of the living and dead in Christ.

The Theology of Paul the Apostle University of Chicago Press
Josef Stern addresses the question: Given the received conception of the form and goals of semantic theory, does metaphorical interpretation, in whole or part, fall within its scope? The many philosophers, linguists, and cognitive scientists writing on metaphor over the past two decades have generally taken for granted that metaphor lies outside, if not in opposition to, received conceptions of semantics and grammar. Assuming that metaphor cannot be explained by or within semantics, they claim that metaphor has little, if anything, to teach us about semantic theory. In this book Josef Stern challenges these assumptions. He is concerned primarily with the question: Given the received conception of the form and goals of semantic theory, does metaphorical interpretation, in whole or part, fall within its scope? Specifically, he asks, what (if anything) does a speaker-hearer know as part of her semantic competence when she knows the interpretation of a metaphor? According to Stern, the answer to these questions lies in the systematic context-dependence of metaphorical interpretation. Drawing on a deep analogy between demonstratives, indexicals, and metaphors, Stern develops a formal theory of metaphorical meaning that underlies a speaker's ability to interpret a metaphor. With his semantics, he also addresses a variety of philosophical and linguistic issues raised by metaphor. These include the interpretive structure of complex extended metaphors, the cognitive significance of metaphors and their literal paraphrasability, the pictorial character of metaphors, the role of similarity and exemplification in metaphorical interpretation, metaphor-networks, dead metaphors, the relation of metaphors to other figures, and the dependence of metaphors on literal meanings. Unlike most metaphor theorists, however, who take these problems to be sui generis to metaphor, Stern subsumes them under the same rubric as other semantic facts that hold for nonmetaphorical language.

Stories offer us some of the richest and most enduring insights into the human condition and have preoccupied philosophy since Aristotle. On Stories presents in clear and compelling style just why narrative has this power over us and argues that the unnarrated life is not worth living. Drawing on the work of James Joyce, Sigmund Freud's patient 'Dora' and the case of Oscar Schindler, Richard Kearney skillfully illuminates how stories not only entertain us but can determine our lives and personal identities. He also considers nations as stories, including the story of Romulus and Remus in the founding of Rome. Throughout, On Stories stresses that, far from heralding the demise of narrative, the digital era merely opens up new stories.

Models and Metaphors Cambridge University Press

Paul Ricoeur (1913-) is Professor Emeritus of Philosophy at the University of Chicago and Dean of the Faculty of Letters and Human Sciences at the University of Paris X, Nanterre. One of the foremost contemporary French philosophers, his work is influenced by Husserl, Marcel and Jaspers and is particularly concerned with symbolism, the creation of meaning and the interpretation of texts. The Conflict of Interpretations ranges across an astonishing diversity of fields: structuralism, linguistics, psychoanalysis, religion and faith. The essays it comprises are bound together by Ricoeur's customary concern for interpretation and language and all bear the stamp of the systematic and critical thinking which has become his hallmark in contemporary philosophy. A Presentation of The Rule of Metaphor by Paul Ricoeur

Graceful Reading offers a new way of understanding Bunyan's theology and his narrative art, examining and reassessing the complex and interdependent relationship between them. Michael Davies begins by proposing that Bunyan's theology is far from obsessed with the forbidding Calvinist doctrine of predestination and its corollary tendency towards painful introspection. Bunyan's is, rather, a comfortable doctrine, in which the believer is encouraged to accept salvation through the far more assuring terms of Bunyan's covenant theology - those of faith and grace. The book then reassesses how Bunyan's narrative style is informed by this theology. Works such as *Grace Abounding* and *The Pilgrim's Progress* reveal a profound sensitivity to narrative forms and reading practices, as they aim to inculcate in their readers a self-consciousness about reading itself which is instrumental in the very process of spiritual instruction, in seeing 'things unseen'. This is a study, therefore, which asserts a radically different way of reading of Bunyan's writings, both through the terms of seventeenth-century covenant theology, and through some distinctly 'postmodernist' ideas about narrative practice.

In the first two volumes of this work, Paul Ricoeur examined the relations between time and narrative in historical writing, fiction and theories of literature. This final volume, a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2, stands as Ricoeur's most complete and satisfying presentation of his own philosophy.

Lectures on Ideology and Utopia Continuum

Paul Ricoeur, widely regarded as the foremost living phenomenologist, has helped to make the term hermeneutics a household word. His writings cover a wide range of topics, from the history of philosophy, literary criticism, and aesthetics, to metaphysics, ethics, religion, semiotics, linguistic structuralism, and psychoanalysis. Ricoeur's most important works, including *Freedom and Nature*, *Freud and Philosophy*, *The Conflict of Interpretations*, *Time and Narrative*, *The Symbolism of Evil*, and *Oneself as Another*, have attracted enthusiastic readers from many disciplines and from every major cultural milieu across the surface of the globe.

Paul Ricoeur's Idea of Reference Oxford University Press on Demand

It is a common—and fundamental—misconception that Paul told people how to live. Apart from forbidding certain abusive practices, he never gives any precise instructions for living. It would have violated his two main social principles: human freedom and dignity, and the need for people to love one

another. Paul was a Hellenistic Jew, originally named Saul, from the tribe of Benjamin, who made a living from tent making or leatherworking. He called himself the "Apostle to the Gentiles" and was the most important of the early Christian evangelists. Paul is not easy to understand. The Greeks and Romans themselves probably misunderstood him or skimmed the surface of his arguments when he used terms such as "law" (referring to the complex system of Jewish religious law in which he himself was trained). But they did share a language—Greek—and a cosmopolitan urban culture, that of the Roman Empire. Paul considered evangelizing the Greeks and Romans to be his special mission. "For you were called to freedom, brothers and sisters; only do not use your freedom as an opportunity for self-indulgence, but through love become slaves to one another. For the whole law is summed up in a single commandment, 'You shall love your neighbor as yourself.'" The idea of love as the only rule was current among Jewish thinkers of his time, but the idea of freedom being available to anyone was revolutionary. Paul, regarded by Christians as the greatest interpreter of Jesus' mission, was the first person to explain how Christ's life and death fit into the larger scheme of salvation, from the creation of Adam to the end of time. Preaching spiritual equality and God's infinite love, he crusaded for the Jewish Messiah to be accepted as the friend and deliverer of all humankind. In *Paul Among the People*, Sarah Ruden explores the meanings of his words and shows how they might have affected readers in his own time and culture. She describes as well how his writings represented the new church as an alternative to old ways of thinking, feeling, and living. Ruden translates passages from ancient Greek and Roman literature, from Aristophanes to Seneca, setting them beside famous and controversial passages of Paul and their key modern interpretations. She writes about Augustine; about George Bernard Shaw's misguided notion of Paul as "the eternal enemy of Women"; and about the misuse of Paul in the English Puritan Richard Baxter's strictures against "flesh-pleasing." Ruden makes clear that Paul's ethics, in contrast to later distortions, were humane, open, and responsible. *Paul Among the People* is a remarkable work of scholarship, synthesis, and understanding; a revelation of the founder of Christianity.

Metaphor in Context InterVarsity Press

First published in 1977, this book was the first to map extensively the ideological typography of the Anglo-American tradition of literary theory. It interrogates, comprehensively and in detail, the assumptions and categorical development within critical ideas from I. A. Richards and T. S. Eliot, through John Crowe Ransom and the New Criticism, to Northrop Frye and Marshall McLuhan. This analysis reveals the Anglo-American tradition of literary-cultural theory is most properly intelligible within the overall field of social consciousness as an ideology of progressive cultural rationalization. Against a background of ideological development since nineteenth-century Romanticism, John Fekete illuminates the boundaries of literary ideology in relation to the shapes and changes of modern culture and society.

The metaphor of contagion pervades critical discourse across the humanities, the medical sciences, and the social sciences. It appears in such terms as 'social contagion' in psychology, 'financial contagion' in economics, 'viral marketing' in business, and even 'cultural contagion' in anthropology. In the twenty-first century, contagion, or 'thought contagion' has become a byword for creativity and a fundamental process by which knowledge and ideas are communicated and taken up, and resonates with André Siegfried's observation that 'there is a striking parallel between the spreading of germs and the spreading of ideas'. In *Contagious Metaphor*, Peta Mitchell offers an innovative, interdisciplinary study of the metaphor of contagion and its relationship to the workings of language. Examining both metaphors of contagion and metaphor as contagion, *Contagious Metaphor* suggests a framework through which the emergence and often epidemic-like reproduction of metaphor can be better understood.

In his letters to the early Christian communities, the apostle Paul left for Christians of all time an array of powerful images: from the pain of a thorn in the flesh to the tenderness of a nursing mother for her children, from the competition on an athletic field to the growth of an agricultural field. In *The Power of Images in Paul*, Raymond Collins explores how Paul uses the ordinary to describe what is extraordinary, how Paul skillfully uses a wide range of metaphors as a means of both persuasion and clarification. But this book is more than an analysis of Paul's images themselves. Collins also examines how Paul deliberately draws from secular as well as religious and biblical themes in order to draw a culturally diverse audience into relationship with Christ. Entering Paul's world with Collins, readers will better appreciate Paul's use of metaphor and, more important, be persuaded as was Paul's original audience of God's unfailing love in Christ.
