The Book "the Scatter is Here Too Great" by Bilal Tanweer. Urban Chaos and Post-Traumatic Growth HarperCollins Named a book of the year by BUSTLE and ELECTRIC LITERATURE " Alby is

Holden Caulfield in the Internet age..." --Los Angeles Times Hailed as "indelible" by Entertainment Weekly, a "cringe-inducingly funny" (The Wall Street Journal) gut-punch of a debut about love, grief, and family "unleashes one of the most comically arresting voices this side of Sam Lipsyte's Homeland" (Publishers Weekly, starred review) In Matt Sumell's blazing first book, our hero Alby flails wildly against the world around him—he punches his sister (she deserved it), "unprotectos" broads (they deserved it and liked it), gets

drunk and picks fights (all deserved), defends defenseless creatures both large and small, and spews insults at children, slow drivers, old ladies, and every single surviving member of his family. In each of these stories Alby distills the anguish, the terror, the humor, and the strange grace—or lack of—he experiences in the aftermath of his mother's death. Swirling at the center of Alby's rage is a grief so big, so profound, it might swallow him whole. As he drinks, screws, and jokes his way through his pain and heartache, Alby's anger, his kindness, and his capacity for good bubble up when he (and we) least expect it. Sumell delivers "a naked rendering of a heart sorting through its broken pieces to survive.*" Making Nice is a powerful, full-steam-ahead ride that will keep you laughing even as you try to catch your breath; a new classic about love, loss, and the fine line between grappling through grief and fighting for (and with) the only family you've got. *Mark Richard *Scattered All Over*

A vivid and intricate novel-in-stories, *The Scatter Here Is Too Great* explores the complicated lives of ordinary people whose fates unexpectedly converge after a deadly bomb blast at a train station in Karachi, Pakistan's largest city. Comrade Sukhansaz, an old communist poet, is harassed on a bus full

of college students minutes before the blast. His son, a wealthy, middle-aged businessman, yearns for his own estranged child. A young man, Sadeq, has a dead-end job snatching cars from people who have defaulted on their bank loans, while his girlfriend spins tales for her young brother to conceal her own heartbreak. An ambulance driver picking up the bodies after the blast has a shocking encounter with two strange-looking men whom nobody else seems to notice. And in the midst of it all, a solitary writer, tormented with grief for his dead father and his decimated city, struggles to find words. Bilal Tanweer reveals the pain, loneliness, and longing of these characters and celebrates the power of the written word to heal lives and communities plagued by violence. Elegantly weaving together these voices into a striking portrait of a city and its people, *The Scatter Here Is Too Great* is a tale as vibrant and varied in its

characters, passions, and idiosyncrasies as the city itself. A Scatter of Light Henry Holt and Company From Man Booker Prize Finalist Ali Smith, Winter is the second novel in her Seasonal Quartet. [It Sounds Like This](#) Penguin
From the acclaimed author of *The Great Believers*, an original, mordantly witty novel about the secrets of an old-money family and their turn-of-the-century estate, Laurelfeld. Meet the Devohrs: Zee, a Marxist literary scholar who detests her parents’ wealth but nevertheless finds herself living in their carriage house; Gracie, her mother, who claims she can tell your lot in life by looking at your teeth; and Bruce, her stepfather, stockpiling supplies for the Y2K apocalypse and perpetually late for his tee time. Then there’s Violet Devohr,

Zee's great-grandmother, who they say took her own life somewhere in the vast house, and whose massive oil portrait still hangs in the dining room. Violet's portrait was known to terrify the artists who resided at the house from the 1920s to the 1950s, when it served as the Laurelfeld Arts Colony—and this is exactly the period Zee's husband, Doug, is interested in. An out-of-work academic whose only hope of a future position is securing a book deal, Doug is stalled on his biography of the poet Edwin Parfitt, once in residence at the colony. All he needs to get the book back on track—besides some motivation and self-esteem—is access to the colony records, rotting away in the attic for decades. But when Doug begins to poke around where he shouldn't, he finds Gracie guards the files with a strange ferocity, raising questions about what she might be hiding. The secrets of the hundred-year house would turn everything Doug and Zee think they know about her family on its head—that is, if they were to ever uncover them. In this brilliantly conceived, ambitious, and deeply rewarding novel, Rebecca Makkai unfolds a generational saga in reverse, leading the reader back in time on a literary scavenger hunt as we seek to uncover the truth about these strange people and this mysterious house. With intelligence and humor, a daring narrative approach, and a lovingly satirical voice, Rebecca Makkai has crafted an unforgettable novel about family, fate and the incredible surprises life can offer. For readers of Dodie Smith's *I Capture the Castle* *The Rocks Little, Brown Books for Young Readers* “There's something strange about that kid.” At least that's what everyone says, but they don't know the truth. Perfect for fans of

Stranger Things, this classic novel continues to enthrall. Katie Welker is used to being alone. She would rather read a book than deal with other people. Other people don't have silver eyes. Other people can't make things happen just by thinking about them! But these special powers make Katie unusual, and it's hard to make friends when you're unusual. Katie knows that she's different but she's never done anything to hurt anyone so why is everyone afraid of her? Maybe there are other kids out there who have the same silver eyes...and the same talents...and maybe they'll be willing to help her.

A Case of Exploding Mangoes
Holiday House

This urgent and eye-opening book makes the case that protecting humanity's future is the central challenge of our time. If all goes well, human history is just beginning. Our species could survive for billions of years - enough time to end disease, poverty, and injustice, and to flourish in ways unimaginable today. But this vast future is at risk. With the advent of nuclear

weapons, humanity entered a new age, where we face existential catastrophes - those from which we could never come back. Since then, these dangers have only multiplied, from climate change to engineered pathogens and artificial intelligence. If we do not act fast to reach a place of safety, it will soon be too late. Drawing on over a decade of research, *The Precipice* explores the cutting-edge science behind the risks we face. It puts them in the context of the greater story of humanity: showing how ending these risks is among the most pressing moral issues of our time. And it points the way forward, to the actions and strategies that can safeguard humanity. An Oxford philosopher committed to putting ideas into action, Toby Ord has advised the US National Intelligence Council, the UK Prime Minister's Office, and the World Bank on the biggest questions facing humanity. In *The Precipice*, he offers a startling reassessment of human history, the future we are failing to protect, and the steps we must take to ensure that our generation is not the last. present moment." —New Yorker

Andre Dubus III's first

“Irresistibly sunny... Set in the brightly lit Mediterranean amid old olive trees and sexual intrigue, music and wine and beautiful women... Propulsive.” – The New York Times Book Review

“The perfect book for pretending it's already beach season.” – O, The Oprah Magazine A romantic page-turner propelled by the sixty-year secret that has shaped two families, four lovers, and one seaside resort community. Set against dramatic Mediterranean Sea views and lush olive groves,

The Rocks opens with a confrontation and a secret: What was the mysterious, catastrophic event that drove two honeymooners apart so suddenly and absolutely in 1948 that they never spoke again despite living on the same island for sixty more years? And how did their history shape the Romeo and Juliet – like romance of their (unrelated) children decades later? Centered around a popular seaside resort club and its community, The Rocks is a double love story that begins with a mystery, then moves backward in time, era by era, to unravel what really happened decades earlier. Peter Nichols writes with a pervading, soulful wisdom and self-knowing humor, and captures perfectly this world of glamorous, complicated, misbehaving types with all their

sophisticated flaws and genuine longing. The result is a bittersweet, intelligent, and romantic novel about how powerful the perceived truth can be—as a bond, and as a barrier—even if it ’ s not really the whole story; and how one misunderstanding can echo irreparably through decades.
