We have all experienced a disconnect between God's promises to us and our everyday reality. We wait, without understanding why. We want to know God's plan so that we can trust it--but God so often hides his plan so that we will trust him. What can we do in the meantime as we are waiting for an answer, a change, or a miracle? With deep compassion, Wayne Stiles helps readers understand why God makes them wait. Unpacking the Old Testament story of Joseph, Stiles shows readers how to find comfort and opportunity in the time between God's promises and his answers, revealing the perspective-altering truth that sometimes when we think we are waiting on God, he is actually waiting on us. Anyone who has felt a disconnect between God's promises and their reality, who doesn't know what God wants them to do next, or who struggles with the brokenness of their world will find in Wayne Stiles a wise and trustworthy guide to finding peace in the pauses.

J. Richard “Dick” Steffy stood inside the limestone hall of the Crusader castle in Cyprus and looked at the wood fragments arrayed before him. They were old beyond belief. For more than two millennia they had remained on the sea floor, eaten by worms and soaking up seawater until they had the consistency of wet cardboard. There were some 6,000 pieces in all, and Steffy’s job was to put them all back together in their original shape like some massive, ancient jigsaw puzzle. He had volunteered for the job even though he had no qualifications for it. For twenty-five years he’d been an electrician in a small, land-locked town in Pennsylvania. He held no advanced degrees—his understanding of ships was entirely self-taught. Yet he would find himself half a world away from his home town, planning to reassemble a ship that last sailed during the reign of Alexander the Great, and he planned to do it using mathematical formulas and modeling techniques that he’d developed in his basement as a hobby. The first person ever to reconstruct an ancient ship from its sunken fragments, Steffy said ships spoke to him. Steffy joined a team, including friend and fellow scholar George Bass, that laid a foundation for the field of nautical archaeology. Eventually moving to Texas A&M University, his lack of the usual academic credentials caused him to be initially viewed with skepticism by the university’s administration. However, his impressive record of publications and his skilled teaching eventually led to his being named a full professor. During the next thirty years of study, reconstruction, and modeling of submerged wrecks, Steffy would win a prestigious MacArthur Foundation “genius” grant and would train most of the preeminent scholars in the emerging field of nautical archaeology. Richard Steffy’s son Loren, an accomplished journalist, has mined family memories, archives at Texas A&M and elsewhere, his

father’s papers, and interviews with former colleagues to craft not only a professional biography and adventure story of the highest caliber, but also the first history of a field that continues to harvest important new discoveries from the depths of the world’s oceans.
When Jesus Is in the Boat Texas A&M University Press
"This is a book about the amazing discovery of a wooden boat that did survive, despite the contrary logic and evidence. For almost 2,000 years in the freshwater of the Sea of Galilee, this boat lasted against all odds. The one thing that is most important in this whole story is the fact that this boat connects modern Christians with their Lord and Savior in a completely new way. This discovery repaints the sections of the gospels that take place around the Sea of Galilee in a light previously unseen. Despite paintings of Jesus walking on water and calming the storm, no one knew what the disciples' boat would have looked like. Now, for the first time, we do." [Prologue].

None of them knew the colour of the sky. Their eyes glanced level, and were fastened upon the waves that swept toward them. These waves were of the hue of slate, save for the tops, which were of foaming white, and all of the men knew the colours of the sea. The horizon narrowed and widened, and dipped and rose, and at all times its edge was jagged with waves that seemed thrust up in points like rocks. Many a man ought to have a bath-tub larger than the boat which here rode upon the sea. These waves were most wrongfully and barbarously abrupt and tall, and each froth-top was a problem in small boat navigation. The cook squatted in the bottom and looked with both eyes at the six inches of gunwale which separated him from the ocean. His sleeves were rolled over his fat forearms, and the two flaps of his unbuttoned vest dangled as he bent to bail out the boat. Often he said: "Gawd! That was a narrow clip." As he remarked it he invariably gazed eastward over the broken sea. The oiler, steering with one of the two oars in the boat, sometimes raised himself suddenly to keep clear of water that swirled in over the stern. It was a thin little oar and it seemed often ready to snap. The correspondent, pulling at the other oar, watched the waves and wondered why he was there. - Taken from "The Open Boat" written by Stephen Crane

John Dominic Crossan, the eminent historical Jesus scholar, and Jonathan L. Reed, an expert in biblical archaeology, reveal through archaeology and textual scholarship that Paul, like Jesus, focused on championing the Kingdom of God—a realm of justice and equality—against the dominant, worldly powers of the Roman empire. Many theories exist about who Paul was, what he believed, and what role he played in the origins of Christianity. Using archaeological and textual evidence, and taking advantage of recent major discoveries in Italy, Greece, Turkey, and Syria, Crossan and Reed show that Paul was a fallible but dedicated successor to Jesus, carrying on Jesus's mission of inaugurating the Kingdom of God on earth in opposition to the reign of Rome. Against the concrete backdrop of first–century Grego–Roman and Jewish life, In Search of Paul reveals the work of Paul as never before, showing how and why the liberating messages and practices of equality, caring for the poor, and a just society under God's rules, not Rome's, were so appealing. Readers interested in Paul as a historical figure and his place in the development of Christianity •Readers interested in archaeology and anthropology

The Boat and the Sea of Galilee Basic Books
This remarkable true story recounts one of the great discoveries of the century: finding a 2000-year-old boat from the Sea of Galilee. Shelley Wachsmann, a respected nautical archaeologist, shares the joy and drama he felt in discovering and excavating the first ancient boat from this biblical location. Through his perceptive eyes, we experience the adventure of a lifetime as he offers his personal account of first setting eyes on and then preserving this unique treasure. Wachsmann is a master storyteller, interweaving his own unforgettable story of this challenging excavation with the writings of the past. Jews and Christians alike will be captivated by his search for the boat's identity. Wachsmann - like a detective - hunts down clues that will reveal the boat's actual history. Since the boat turns out to be a 2000 year old craft, he carefully examines the Gospels for passages that will shed light on this wondrous vessel. This ever-curious author also traces Jewish historical texts to discover that the Sea of Galilee, during the boat's vibrant past, was the setting for one of the most tragic massacres of Jews - the Battle of Migdal. During this sea battle, we learn, Roman soldiers mercilessly slaughtered Jews as they attempted to escape in boats like this one, turning the Sea of Galilee into a sea of crimson. The saga of tenderly extracting this extraordinary boat from the earth, protecting its timbers, and restoring it to health is a compelling tale on its own. Wachsmann impresses us with the dedication and creativity of his makeshift team in improvising answers to the seemingly impossible logistic problems that dog them every step of the way. Still, generosity abounds and actual rainbows appear as scores of volunteers pull together to save this singular monument of the past. Wachsmann punctuates the absorbing details of preserving this artifact with the rich history that surrounds the Sea of Galilee, making this a uniquely enduring and personal work.

The ancient boat from the Sea of Galilee exhibited at the Yigal Allon Museum at Kibbutz Ginosar speaks of pivotal times on the lake two millennia ago, when an itinerant rabbi walked its shores and sailed its waters with his followers, and changed the world forever. This volume aims to give the non-expert reader an in-depth understanding of the boat, the story of her discovery and excavation and, most importantly, her significance for illuminating Jesus ministry by helping us better understand its contemporaneous milieu of seafaring and fishing on the Sea of Galilee. Jesus: His Story in Stone BalboaPress
What is a Galilean? What were the criteria of defining a person as a Galilean - archaeologically or with respect to literary sources such as Josephus or the rabbis? What role did religion play in the process of identity formation? Twenty-two articles based on papers read at conferences at Cambridge, Wuppertal and Yale by experts from 7 countries shed light on a complex region, the pivotal geographic and cultural context of both earliest Christianity and rabbinic Judaism. In these papers, ancient Galilee emerges as a dynamic region of continuous change, in

which religion, 'ethnicity', and 'identity' were not static monoliths but had to be negotiated in the context of a multiform environment subject to different influences.

A book for all seekers.” —Mark Manolopoulos, adjunct research associate, Monash University Centre for Studies in Religion and Theology, and author of If Creation Is a Gift. “In Jerusalem Diary, Joanna affectionately traces the life of the human side of Jesus. She beautifully weaves her own spiritual quest for truth in this well-researched, deeply passionate journey, accounting for typical historical gaps in the life and teachings of the Great Soul. One of the most enjoyable dreams of childhood is that of finding a treasure. Here is a true story of a dream comes true. One day on the year 1986, when the sea level was low, two Israeli brothers, living in a kibbutz on the shores of the Sea of Galilee, found an ancient boat. Little did they know that archaeologists will enthusiastically crown their discovery as one of the most important reminders from Jesus' lifetime!Excavating the boat from the mud without damaging it was a difficult process which lasted 12 days and nights. The ancient wood was extremely fragile when exposed to the atmosphere and the boat had to be rescued by wrapping it in a mantle of fiberglass and insulating foam, which helped with both keeping it together, and floating it to its new location in the museum adjacent to the place where it was found. Since then, it is one of the highlights in every Christian pilgrimage tour to the Holy land. The "Jesus Boat" story for kids ties beautifully together this stunning discovery and the biblical text from Mark 4:35-41, about Jesus calming with his miraculous power a sea storm. "it was a boat much like this ancient one", it reveals, "that Jesus and his friends sailed out one night..."
