This three-volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today, enabling a deeper understanding of the role of religious wars across cultures. Containing some 500 entries covering the interaction between war and religion from ancient times, the three-volume *War and Religion: An Encyclopedia of Faith and Conflict* provides students with an invaluable reference source for examining two of the most important phenomena impacting society today. This all-inclusive reference work will serve readers researching specific religious traditions, historical eras, wars, battles, or influential individuals across all time periods. The A – Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century as well as modern-day developments like ISIS

and Al Qaeda. Subtopics throughout the encyclopedia include religious and military leaders or other key people, ideas, and weapons, and comprehensive examinations of each of the major religious traditions' views on war and violence are presented. The work also includes dozens of primary source documents—each introduced by a headnote—that enable readers to go directly to the source of information and better grasp its historical significance. The in-depth content of this set benefits high school and college students as well as scholars and general readers.

**The Great Divide** The Experiment, LLC  
An authentic, heartfelt and compelling narrative – straight from the horse 's mouth – that reveals for the first time numerous unknown aspects of the life and times of one of the greatest legends of all time who stands out as a symbol of secular India. Dilip Kumar (born as Yousuf Khan), who began as a diffident novice in Hindi cinema in the early 1940s, went on to attain the pinnacle of stardom within a short time. He came up with spellbinding performances in one hit film after another – in his almost six-decade-long career – on the basis of his innovative capability, determination, hard work and never-say-die attitude. In this unique volume, Dilip Kumar traces his journey right from his birth to the present. In the process, he candidly recounts his interactions and relationships with a wide

variety of people not only from his family and the film fraternity but also from other walks of life, including politicians. While seeking to set the record straight, as he feels that a lot of what has been written about him so far is 'full of distortions and misinformation', he narrates, in graphic detail, how he got married to Saira Banu, which reads like a fairy tale! Dilip Kumar relates, matter-of-factly, the event that changed his life: his meeting with Devika Rani, the boss of Bombay Talkies, when she offered him an acting job. His first film was *Jwar Bhata* (1944). He details how he had to learn everything from scratch and how he had to develop his own distinct histrionics and style, which would set him apart from his contemporaries. After that, he soon soared to great heights with movies such as *Jugnu*, *Shaheed*, *Mela*, *Andaz*, *Deedar*, *Daag* and *Devdas*. In these movies he played the tragedian with such intensity that his psyche was adversely affected. He consulted a British psychiatrist, who advised him to switch over to comedy. The result was spectacular performances in laugh riots such as *Azaad* and *Kohinoor*, apart from a scintillating portrayal as a gritty tonga driver in *Naya Daur*. After a five-year break he started his 'second innings' with *Kranti* (1981), after which he appeared in a series of hits such as *Vidhaata*, *Shakti*, *Mashaal*, *Karma*, *Saudagar* and *Qila*.

Tackling some of the world's most profound questions through the intimate lens of fatherhood, Bayo Akomolafe embarks on a journey of discovery as he maps the contours of the spaces between himself and his three-year-old daughter, Alethea. In a narrative that manages to be both intricate and unguarded, he discovers that something as commonplace as becoming a father is a cosmic event of unprecedented proportions. Using this realization as a touchstone, he is led to consider the strangeness of his own soul, contemplate the myths and rituals of modernity, ask questions about food and justice, ponder what it means to be human, evaluate what we can do about climate change, and wonder what our collective yearnings for a better world tell us about ourselves. *These Wilds Beyond Our Fences* is a passionate attempt to make sense of our disconnection in a world where it is easy to feel untethered and lost. It is a father's search for meaning, for a place of belonging, and for reassurance that the

world will embrace and support our children once we are gone.

Asoca-often spelled Ashoka-was hailed as Ashoka the Great, the emperor who ruled most of the Indian Subcontinent and was pivotal in the spread of Buddhism from India to other parts of Asia in the third century BC. But his life as emperor was not always led by non-violence. History has it that he masterminded one of the biggest and deadliest wars ever fought, and it was the insurmountable grief he experienced at the sight of the people dying and dead on the battleground that made him turn to Buddhism and take a vow of ahimsa. Who was the man, and who was the king? What were his demons, and what gave him strength? This historical novel, drawn from research and portrayed with energy and complexity, transports the reader to the era of the Mauryan dynasty with atmospheric vividness and insight. Epic in scope and Shakespearean in drama, Asoca: A Sutra leaves the reader breathless with the full-bodied richness of Sealy's prose, his trademark whimsy and his imaginative modern reconstruction of that enigmatic and brilliant ruler of the Indian subcontinent.

Existing textbooks on international relations treat history in a cursory fashion and perpetuate a Euro-centric perspective. This textbook pioneers a new approach by historicizing the material traditionally taught in International Relations courses, and by explicitly focusing on non-European cases, debates and issues. The volume is divided into three parts. The first part focuses on the international systems that traditionally existed in Europe, East Asia, pre-Columbian Central and South America, Africa and

Polynesia. The second part discusses the ways in which these international systems were brought into contact with each other through the agency of Mongols in Central Asia, Arabs in the Mediterranean and the Indian Ocean, Indic and Sinic societies in South East Asia, and the Europeans through their travels and colonial expansion. The concluding section concerns contemporary issues: the processes of decolonization, neo-colonialism and globalization – and their consequences on contemporary society. History of International Relations provides a unique textbook for undergraduate and graduate students of international relations, and anybody interested in international relations theory, history, and contemporary politics.

A Nobel Laureate offers a dazzling new book about his native country India is a

country with many distinct traditions, widely divergent customs, vastly different convictions, and a veritable feast of viewpoints. In *The Argumentative Indian*, Amartya Sen draws on a lifetime study of his country's history and culture to suggest the ways we must understand India today in the light of its rich, long argumentative tradition. The millenia-old texts and interpretations of Hindu, Buddhist, Jain, Muslim, agnostic, and atheistic Indian thought demonstrate, Sen reminds us, ancient and well-respected rules for conducting debates and disputations, and for appreciating not only the richness of India's diversity but its need for toleration. Though Westerners have often perceived India as a place of endless spirituality and unreasoning mysticism, he underlines its long tradition of skepticism and reasoning, not to mention its secular contributions to mathematics, astronomy, linguistics, medicine, and political economy. Sen discusses many aspects of India's rich intellectual and political heritage, including philosophies of governance from Kautilya's and Ashoka's in the fourth and third centuries BCE to Akbar's in the 1590s; the history and continuing relevance of India's relations with China more than a millennium ago; its old and well-organized calendars; the films of Satyajit Ray and the debates between Gandhi and the visionary poet Tagore about India's past, present, and future. The success of India's democracy and defense of its secular politics depend, Sen argues, on understanding and using this rich argumentative tradition. It is also essential to removing the inequalities (whether of caste, gender, class, or community) that mar Indian life, to stabilizing the now precarious conditions of a nuclear-armed subcontinent,

and to correcting what Sen calls the politics of deprivation. His invaluable book concludes with his meditations on pluralism, on dialogue and dialectics in the pursuit of social justice, and on the nature of the Indian identity.

The author of more than thirty books of fiction and nonfiction and winner of the Nobel Prize in Literature, V. S. Naipaul (1932–2018) is one of the most acclaimed authors of the twentieth century. He is also one of the most controversial. Before settling in England, Naipaul grew up in Trinidad in an Indian immigrant community, and his depiction of colonized peoples has often been harshly judged by critics as unsympathetic, misguided, racist, and sexist. Yet other readers praise his work as containing uncommonly perceptive historical and psychological insight. In V. S. Naipaul's *Journeys*, Sanjay Krishnan offers new perspectives on the distinctiveness and power of Naipaul's writing, as well as his shortcomings, trajectory, and complicated legacy. While recognizing the flaws and prejudices that shaped and limited Naipaul's life and art, this book challenges the binaries that have dominated discussions of his writing. Krishnan reads Naipaul as self-subverting and self-critical, engaged in describing his own implication in what he saw as the malaise of the postcolonial world. Krishnan brings together close readings of major novels with considerations of Naipaul's work as a united project, as well as nuanced assessments of Naipaul's political commentary on ethnic nationalism and religious fundamentalism. Krishnan provides a Naipaul for contemporary times, illustrating how his life and work shed light on debates regarding migration, diversity, sectarianism, displacement, and other global challenges.

Building on *A People's History of the United States*, this radical world history captures the broad sweep of human history from the perspective of struggling classes. An “indispensable volume” on class and capitalism throughout the ages—for readers reckoning with the history they were taught and history as it truly was (Howard Zinn) From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. A vital corrective to traditional history, *A People's History of the World* is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress.
