“What a hilarious ride—the übersurreal meets The Daily Show.”
—Tim Dorsey, author of Nuclear Jellyfish In the bestselling and rightfully cult-inspiring tradition of Kurt Vonnegut and Douglas Adams comes First Contact—an hysterically funny satire about Presidential politics and intergalactic misunderstanding. This smart and biting novel by Evan Mandery—an author equally well-versed in the lives of the U.S. presidents,

existential philosophy, and the Simpsons—offers much food for intellectual thought along with an all-you-can-eat buffet of laughs, as it chronicles the first close encounters between earthlings and a vastly superior extraterrestrial race from Rigel-Rigel. As the subtitle of First Contact so presciently informs us, “It’s Later than You Think.”

Sixteen-year-old Austin is always messing up and then joking his way out of tough spots. The sudden appearance of his allegedly dead father, who happens to be the very-much-alive rock star Shane

Tyler, stops him cold. Austin—a talented musician himself—is sucked into his newfound father's alluring music-biz orbit, pulling his true love, Josephine, along with him. None of Austin's previous bad decisions, resulting in broken instruments, broken hearts, and broken dreams, can top this one. Witty, audacious, and taking adolescence to the max, Austin is dragged kicking and screaming toward adulthood in this hilarious, heart-wrenching YA novel.

Warlord of Earth. Not bad for a guy without a spine. But what's a villain to do after he's done . . . everything. With no new ambitions, he's happy to pitch in and solve the energy crisis or repel alien invaders should the need arise, but if he had his way, he'd prefer to be left alone to explore the boundaries of dangerous science. Just as a hobby, of course. Retirement isn't easy though. If the boredom doesn't get him, there's always the Venusians. Or the Saturnites. Or the Mercurials. Or . . . well, you get the

idea. If that wasn't bad enough, there's also the assassins of a legendary death cult and an up-and-coming megalomaniac (as brilliant as he is bodiless) who have marked Emperor for their own nefarious purposes. But Mollusk isn't about to let the Earth slip out of his own tentacles and into the less capable clutches of another. So it's time to dust off the old death ray and come out of retirement. Except this time, he's not out to rule the world. He's out to save it from the peril of THE SINISTER BRAIN!

A dazzling debut that

is at once a lightly erudite novel of ideas and a darkly charming love story set on an island off the coast of Maine—the perfect sophisticated summer read. By turns funny, charming, and tragic, Rosecrans Baldwin's debut novel takes us inside the heart and mind of Dr. Victor Aaron, a leading Alzheimer's researcher at the Soborg Institute on Mount Desert Island in Maine. Victor spends his days alternating between long hours in the sterile lab and running through memories of his late wife, Sara. He has preserved their marriage as a sort of perfect, if tumultuous, duet between two opposite but precisely compatible souls. But one day, in the midst of organizing his already

hyperorganized life, Victor discovers a series of index cards covered in Sara's handwriting. They chronicle the major "changes in direction" of their marriage, written as part of a briefing with couples counseling. Sara's version of their great love story is markedly different from his own, which, for the eminent memory specialist, is a startling revelation. Victor is forced to reevaluate and relive each moment of their marriage, never knowing is the revisions will hurt or hearten. Meanwhile, as Victor's faith in memory itself unravels, so too does his precisely balanced support network, a group of strong women—from his lab assistant to Aunt Betsy, doddering doyenne of

the island—that had, so far, allowed him to avoid grieving. Rosecrans Baldwin shows himself here to be a young writer bursting with talent and imagination who deftly handles this aching love story with sensitivity and unexpected maturity.
