Simon and Schuster

From James Beard Award-winning and NYT best-selling author Dorie Greenspan, a baking book of more than 150 exciting recipes Say "Dorie Greenspan" and think baking. The renowned author of thirteen cookbooks and winner of five James Beard and two IACP awards offers a collection that celebrates the

sweet, the savory, and the simple. Every recipe is signature Dorie:

easy--beginners can ace every technique in this book--and accessible, made with everyday ingredients. Are there surprises? Of course! You'll find ingenious twists like Berry Biscuits. Footlong cheese sticks made with cream puff dough. Apple pie with browned butter spiced like warm mulled cider. A s'mores ice cream cake with velvety chocolate sauce, salty peanuts, and toasted marshmallows. It's a book of simple yet

sophisticated baking. The chapters are classic: Breakfast Stuff - Cakes - Cookies - Pies, Tarts, Cobblers and Crisps - Two Perfect Little Pastries - Salty Side Up. The recipes are unexpected. And there are "Sweethearts" throughout, mini collections of Dorie's all-time favorites. Don't miss the meringue Little Marvels or the Double-Decker Caramel Cake. Like all of Dorie's recipes, they lend themselves to being remade, refashioned, and riffed on.

Eat Well on \$4/Day Rodale
A New York Times bestseller

and one of the most praised Korean cookbooks of all time, you'll explore the foods and flavors of Koreatowns across America through this collection of 100 recipes. This is not your average "journey to Asia" cookbook. Koreatown is a spicy, funky, flavor-packed love affair with the grit and charm of Korean cooking in America. Koreatowns around the country are synonymous with mealtime feasts and late-night chef hangouts, and Deuki Hong and Matt Rodbard show us why through stories, interviews, and over 100 delicious, super-approachable recipes. It's spicy,

it's fermented, it's sweet and savory and loaded with umami: Korean cuisine is poised to break out in the U.S., but until now, the cookbooks have been focused on taking readers on an idealized Korean journey. Koreatown, though, is all about what's real and happening right here: the foods of Korean American communities all over our country, from L.A. to New York City, from Atlanta to Chicago. We follow Rodbard and Hong through those communities with stories and recipes for everything from beloved Korean barbecue favorites like bulgogi and kalbi

to the lesser-known but deeply satisfying stews, soups, noodles, salads, drinks, and the many kimchis of the Korean American table.

The Simple Science of Building the Ultimate Male Body Harper Collins

If you want a no-BS "crash course" in building muscle, losing fat, and getting healthy...eating foods you love...and doing workouts you actually enjoy...then you want to read this book. I have good news for you: Getting into awesome shape isn't nearly as complicated as the fitness industry wants you to believe. You don't need to spend hundreds of dollars per month on the worthless supplements

that steroid freaks shill in advertisements. You don't need to constantly change up your exercise routines to "confuse" your muscles. You don't need to toil away in the gym for a couple of hours per day, doing tons of sets, supersets, drop sets, giant sets, etc. (As a matter of fact, this is a great way to stunt gains and get nowhere.) You don't need to grind out hours and hours of boring cardio to shed ugly belly fat and love handles and get a shredded six-pack. (How many flabby treadmillers have you come across over the years?) You don't need to obsess over "eating clean" to get ripped,

and you don't need to completely abstain from "cheat" foods while getting down to single-digit body fat percentages. Those are just a few of the harmful lies and myths that keep guys from ever achieving the lean, muscular, strong, and healthy bodies they truly desire. And in this book you're going to learn something most guys will never know... The exact methods of diet and training that make putting on 10 to 15 pounds of high-quality lean mass a breeze...and it only takes a few months. In this book you'll learn things like... How "flexible dieting" works and how you can use it to finally

<p>free yourself from the dietary prisons many people confine themselves to. A simple solution to “metabolic damage” that easily and painlessly speeds your metabolism back up to where it should be. The “deadly” training mistakes most people make once their “newbie gains” are spent and how to avoid this pitfall. The most effective exercises for building and strengthening every major muscle group in your body. A “paint by numbers” workout program that will force your body to get bigger and stronger. Why most “six pack” advice is completely wrong and what it really takes to get a</p>	<p>lean, defined core. What type of cardio you should do to maximize fat loss, how much is enough, and how much is too much. A no-BS guide to supplements that will show you what works, what doesn’t, and what’s just outright fraudulent. And a whole lot more! Imagine...just a few weeks from now...finally seeing progress in the mirror and in the gym... Imagine enjoying the added benefits of high energy levels, no aches and pains, better spirits, and knowing that you're getting healthier every day... The bottom line is getting big, lean, and strong isn’t nearly as complicated as the fitness industry wants you to</p>	<p>believe. This book makes it simple. refined over three decades of training and treating athletes, ranging from world champions to weekend warriors. Maffetone's training and racing philosophy emphasizes building a strong aerobic base for increased fat burning, weight loss, sustained energy, and a healthy immune system. Good nutrition and stress reduction are also key to this common-sense, big-picture approach. Dr. Maffetone also dispels many of the commonly held myths that linger in participatory sports—and which adversely impact performance—and explains the “truths” about endurance, such as: The need to train

slower to race faster will enable your aerobic system to improve endurance Why expensive running shoes can actually cause foot and leg injuries The fact that refined carbohydrates actually reduce endurance energy and disrupt hormone balance How overtraining can be avoided in its earliest stages And much more! If you are looking to increase your endurance and maximize your athletic potential, The Endurance Handbook is your one-stop guide to training and racing effectively. Skyhorse Publishing, as well as our Sports Publishing imprint, is proud to publish a broad range of books for readers interested

Scaled Recipes, No-Waste Solutions, and Time-Saving Tips

Simon and Schuster The debut cookbook from the creator of EyeSwoon features 100 seasonal recipes for meals as gorgeous as they are delicious. In *Cook Beautiful*, Athena Calderone reveals the secrets to preparing and presenting unforgettable meals. As “The modern girl’s Martha Stewart”, Athena cooks with top chefs, hosts incredible

dinners, and designs stunning tablescape—all while balancing the visual elements of each dish with incredible flavors. In her debut cookbook, she shows us how to achieve her impeccable yet approachable cooking style (New York Times Magazine). Included are 100 recipes with step-by-step advice on everything from prep to presentation—from artfully layering a peach and burrata salad to searing a perfect steak. Recipes include Grilled Zucchini Flatbread with Ramp-

Pistachio Pesto, Stewed Pork with Squash and Walnut Gremolata, Blood Orange Bundt Cake with Orange Bitters Glaze, and more. Organized by season, each section closes with a tablescape inspired by nature, along with specific table décor and entertaining tips.

How to Achieve Athletic Potential, Stay Healthy, and Get the Most Out of Your Body Oculus Publishers

Discover the joy of cooking for yourself with more than 160 perfectly

portioned, easy-to-execute recipes, flexible ingredient lists to accommodate your pantry, and ideas for improvising to your taste. Taking care to prepare a meal for yourself is a different experience than cooking for others. It can be a fun, casual, and (of course) delicious affair, but there are challenges, from avoiding a fridge full of half-used ingredients to ending up with leftovers that become boring after the third reheat. Cooking for One helps you make cooking for yourself special without becoming a chore with unfussy yet utterly appealing meals that rely on ingredients you already have on hand, like Garam Masala Pork Chop with Couscous and Spinach and Weeknight Chicken Cacciatore. Don't have exactly the right ingredients? Never fear--with a "Kitchen Improv" box on every page, we offer ideas for altering the dish so it works for you. And for those weeks you didn't make it to the supermarket, we use a "Pantry Recipe" icon to clearly mark recipes that rely entirely on our checklist for a well-stocked pantry. We show you when it's worth making two servings (but never more) with our "Makes Leftovers" icon, and suggest how to transform those leftovers into a whole new meal. (We love our Spice-Rubbed Flank Steak with Celery Root and Lime Yogurt Sauce served over arugula as a hearty salad

the next day.) Ingredients themselves often lead you to another exciting meal--when you're left with half an eggplant from Simple Ratatouille, we direct you to Broiled Eggplant with Honey-Lemon Vinaigrette as the perfect way to use it up. And if the thought of a sink full of dishes keeps you out of the kitchen, there are plenty of appealing one-pan dinners like Sheet Pan Sausages with Sweet Potatoes, Broccoli Rabe, and Mustard-Chive Butter

or Couscous with Shrimp, Cilantro, and Garlic Chips that are here to save the day.

If you want to be muscular, lean, and strong as quickly as possible without steroids, good genetics, or wasting ridiculous amounts of time in the gym and money on supplements...then you

want to read this book. Here's the deal: Getting into awesome shape isn't nearly as complicated as the fitness industry wants you to believe. You don't need to spend hundreds of dollars per month on the worthless supplements that steroid freaks shill in advertisements. You don't need to constantly change up your exercise routines to "confuse" your muscles. I'm pretty sure muscles lack cognitive abilities, but this approach is a good way to just confuse you instead. You don't need to burn

through buckets of protein powder every month, stuffing down enough protein each day to feed a third world village. You don't need to toil away in the gym for a couple of hours per day, doing tons of sets, supersets, drop sets, giant sets, etc. (As a matter of fact, this is a great way to stunt gains and get nowhere.) You don't need to grind out hours and hours of boring cardio to shed ugly belly fat and love handles and get a shredded six-pack. (How many flabby treadmillers have you come across over the years?) You	don't need to completely abstain from "cheat" foods while getting down to single-digit body fat percentages. If you plan cheat meals correctly, you can actually speed your metabolism up and accelerate fat loss. In this book you're going to learn something most guys will never know: The exact formula of exercise and eating that makes putting on 10 to 15 pounds of quality lean mass a breeze...and it only takes 8-12 weeks. This book reveals secrets like... The 6 biggest myths and mistakes of building muscle	that stunt 99% of guys' muscle gains. (These BS lies are pushed by all the big magazines and even by many trainers.) How to get a lean, cut physique that you love (and that girls drool over) by spending no more than 5 percent of your time each day. The 4 laws of muscle growth that, when applied, turn your body into an anabolic, muscle-building machine. You'll be shocked at how easy it really is to get big once you know what you're doing... How to develop a lightning-fast metabolism that burns up fat

quickly and leaves you feeling full of energy all day long. The carefully-selected exercises that deliver MAXIMUM results for your efforts, helping you build a big, full chest, a wide, tapered back, and bulging biceps. A no-BS guide to supplements that will save you hundreds if not THOUSANDS of dollars each year that you would've wasted on products that are nothing more than bunk science and marketing hype. How to get shredded while still indulging in the "cheat" foods that you love every week like pasta, pizza, and ice cream. And a whole lot more! The bottom line is you CAN achieve that "Hollywood hunk" body without having your life revolve around it--no long hours in the gym, no starving yourself, no grueling cardio that turns your stomach. Imagine, just 12 weeks from now, being constantly complimented on how you look and asked what the heck you're doing to make such startling gains. Imagine enjoying the added benefits of high energy levels, no aches and pains, better spirits, and knowing that you're getting healthier every day. SPECIAL BONUS FOR READERS! With this book you'll also get a free 75-page bonus report from the author called "The Year One Challenge." In this bonus report, you'll learn exactly how to train, eat, and supplement to make maximum gains in your first year of training. The Advanced Guide to Shattering Plateaus, Hitting PRs, and Getting Shredded

America's Test Kitchen
It has become common knowledge that childhood

obesity rates are increasing every year. But the rates continue to rise. And between busy work schedules and the inconvenient truth that kids simply refuse to eat vegetables and other healthy foods, how can average parents ensure their kids are getting the proper nutrition and avoiding bad eating habits? As a mother of three, Jessica Seinfeld can speak for all parents who struggle to feed their kids right and deal nightly with dinnertime fiascos. As she wages a personal war against sugars,

packaged foods, and other nutritional saboteurs, she offers appetizing alternatives for parents who find themselves succumbing to the fastest and easiest (and least healthy) choices available to them. Her modus operandi? Her book is filled with traditional recipes that kids love, except they're stealthily packed with veggies hidden in them so kids don't even know! With the help of a nutritionist and a professional chef, Seinfeld has developed a month's worth of meals for kids of all ages that includes, for

example, pureed cauliflower in mac and cheese, and kale in spaghetti and meatballs. She also provides revealing and humorous personal anecdotes, tear-out shopping guides to help parents zoom through the supermarket, and tips on how to deal with the kid that "must have" the latest sugar bomb cereal. But this book also contains much more than recipes and tips. By solving problems on a practical level for parents, Seinfeld addresses the big picture issues that surround childhood obesity and its

long-term (and ruinous) effects on the body. With the help of a prominent nutritionist, her book provides parents with an arsenal of information related to kids' nutrition so parents understand why it's important to throw in a little avocado puree into their quesadillas. She discusses the critical importance of portion size, and the specific elements kids simply must have (as opposed to adults) in order to flourish now and in the future: protein, calcium, vitamins, and Omega 3 and 6 fats. Jessica

Seinfeld's book is practical, easy-to-read, and a godsend for any parent that wants their kids to be healthy for a long time to come.
