Their search takes them to the part of Central Florida known as Bone Valley, famous primarily for two things: a ruthless subculture of black-marketers who trade in illegal artifacts

and fossils, and a multibillion-dollar phosphate industry whose strip mines compromise the very ground they walk on. Neither enterprise tolerates nosy outsiders. For each, public exposure equals big financial losses—and in a region built on a million-year accumulation of bones, there is no shortage of spots in which to hide a corpse. Or two.

Warning Signs HarperCollins UK

In a riveting new novel of psychological suspense, Stephen White shines a brilliant light on the darkness that hides just beneath the surface of ordinary lives, on the fears that cripple us and the prisons we create --prisons of the body, mind, and spirit. A thriller of runaway tension, taps into our most closely guarded fears, taking us on a harrowing journey into a realm of terror and pain, of love gone wrong and vengeance gone mad. *The Best Revenge* Psychologist Alan Gregory is living through a season of discontent. With a new daughter, a wonderful wife, and a prospering career, he has little to complain about and lots of regrets: past cases that won't let him go, patients who don't get better, and a growing unease with keeping secrets. But Gregory has two new patients who will drag him out of his introspection--and dare him to enter a storm of injustice and revenge. FBI special agent Kelda James is a hero, a woman who as a rookie agent made a choice, drew her gun, and saved a life, taking another. Now Kelda is hiding from the world a secret pain that is gradually crippling her body--and she has turned to Alan Gregory to help free her from the prison of her pain. Then Kelda refers a patient to Gregory, who is terrifyingly dangerous to them both. Tom Clone served thirteen years on Colorado's death row for a crime he claimed he didn't commit--until an FBI agent dug up evidence that set him free. The agent's name: Kelda James. With both Kelda and Clone telling him their innermost secrets, Alan Gregory becomes the one person who can piece together an extraordinary puzzle--of two unsolved violent deaths of vulnerable women, of a man who may be innocent or may be very lucky, and of the strange, fatal attraction between two people trapped in a horrific plot to get revenge--at any price. A thriller that delivers a stunning body-blow of a surprise ending, captures lives colliding at unpredictable angles, probing the dangerous lies people tell to each other and themselves. In this astonishing work by a

novelist at the height of his powers, Stephen White brilliantly blends thrilling action and breakneck pacing with unrivaled insight into the human mind, heart, and psyche.

The Program safeguards the truth, but when The Program has a hidden agenda, the protected become the hunted. With his nuanced psychological insight, inscrutable plotting, and a captivating lead character that parallels Jonathan Kellerman's Alex Delaware, Stephen White's Alan Gregory novels have become perennial national bestsellers. But, with *The Program*, White has challenged himself and honed his craft with remarkable assurance to create a rare breed of thriller. A dazzling mix of first-person and omniscient voices rewards readers with an irresistible narrative momentum. But the heart and soul of the novel is an indomitable woman reevaluating the seemingly innocuous choices she's made in the past while confronting the horrifying circumstances that threaten her family's future survival. "Every precious thing I lose, you will lose two." *The Program* begins with a condemned man's last words to New Orleans District Attorney Kirsten Lord. After her husband is gunned down in front of her, Lord has no choice but to flee the wrath of the murderer's vengeance. Lord pulls up stakes, changes her name, and accepts the Witness Protection Program's offer to hide her and her young daughter in Boulder, Colorado. Soon thereafter, they are befriended by Program veteran Carl Luppó, a solitary mob assassin tormented by his former life who has nothing but time for regret. Sensing that someone inside the program has compromised Lord and her daughter's safety, Luppó takes on the role of sentinel, fully realizing that this may be his last shot at redemption. Even though Lord suspects that Luppó's warnings about the Program's dark side are justified and that she should believe the former hit man's instincts, the only people she can really trust are her nine-year-old daughter and perhaps her Program-appointed psychologist Alan Gregory. Fans of White's previous work will applaud the brilliant use of series favorite Alan Gregory in a seemingly secondary role in the novel, and new readers will find themselves compelled to find out what Gregory has encountered before. But all readers will agree that *The Program* is a superior thriller; a novel firmly grounded in the realities of three-dimensional characters in crisis and driven with the narrative pace of a guilty pleasure.

‘ Jürgen Habermas ’, wrote the American philosopher Ronald Dworkin on the occasion of the great European thinker’s eightieth birthday, ‘ is not only the world’s most famous living philosopher. Even his fame is famous. ’ Now, after many years of intensive research and in-depth conversations with contemporaries, colleagues and Habermas himself, Stefan Müller-Doohm presents the first comprehensive biography of one of the most important public intellectuals of our time. From his political and philosophical awakening in West Germany to the formative relationships with Adorno and Horkheimer, Müller-Doohm masterfully traces the major forces that shaped Habermas’s intellectual development. He shows how Habermas’s life and work were conditioned by the possibilities offered to his generation in the unique circumstances of regained freedom that characterized postwar Germany. And yet Habermas’s career is fascinating precisely because it amounts to more than a corpus of scholarly work, however original and influential that may be. For here is someone who continually left the protective space of the university in order to assume the role of a participant in controversial public debates — from the significance of the Holocaust to the future of Europe — and in this way sought to influence the development of social and political life in an arena much broader than the academy. The significance and virtuosity of Habermas’s many writings over the years are also fully and expertly documented, ranging from his early work on the public sphere to his more recent writings on communicative action, cosmopolitanism and the postnational

condition. What emerges from this biography is a vivid portrait of one of the great public intellectuals of our time — a unique thinker who has made an immense and lasting philosophical contribution but who, when he perceives that society is not living up to its potential for creating free and just conditions for all, becomes one of its most rigorous and persistent critics.
