These 2 works were adapted to become part of the 1993 book, *The Soundscape: Our Sonic Environment and the Tuning of the World* - R. Murray Schafer (ISBN 0-89281-455-1) 1977 *Five village soundscapes* (Music of the environment series) - A.R.C. Publications (ISBN 0-88985-005-4) 1978 *Handbook for Acoustic Ecology* - Barry Truax (ISBN 0-88985-011-9) *Sound + Environment: Sonic Explorations*

Dr Schafer's concept of 'soundscape' as proved to be one of the most interesting and fruitful areas of research. Dr Schafer and his Vancouver team have written and analysed sound at a time of increasing intrusion of unwanted sound. Following ancient methods and others, he analyses sounds and noises along with Music.

Sound map - Wikipedia

The soundscape—a term coined by the author—is our sonic environment, the ever-present array of noises with which we all live. Beginning with the primordial sounds of nature, we have experienced an ever-increasing complexity of our sonic surroundings. As civilization develops, new noises rise up around us: from the creaking wheel, the clang of the blacksmith's hammer, and the distant

chugging of steam trains to the "sound imperialism" of airports, city streets, and factories.

Designing the Urban Soundscape – The Nature of Cities

The study of soundscape is the subject of acoustic ecology and refers to both the natural acoustic environment — consisting of natural sounds, including animal and sounds from trees, the sounds of water, weather — and environmental sounds created by humans — through musical composition, sound design, and other human activities, including sounds of mechanical origin resulting from use of industrial technology.

The soundscape--a term coined by the author--is our sonic environment, the ever-present array of noises with which we all live. Beginning with the primordial sounds of nature, we have experienced an ever-increasing complexity of our sonic surroundings. As civilization develops, new noises rise up around us: from the creaking wheel, the clang of the blacksmith ' s hammer, and the distant chugging of steam trains to the " sound imperialism " of airports, city streets, and factories.

Tune In: Soundscapes of New York | Urban Omnibus

In the late 1960s, Schafer founded the World Soundscape Project (WSP), an education and research group with the mission of studying the acoustic interaction of humans with their environments to achieve ideal, ecologically balanced soundscapes optimized for human health and happiness. A healthy community will possess a healthy, balanced soundscape.

Sonic Reflections: Observations of the Changing ...

With Soundscape, designers can create a sonic environment that reduces sound and encourages positive emotional and physical responses in a space.

The soundscape concept was first introduced as an approach to rethink the evaluation of “ noise ” and its effects on the quality of life. Now it has evolved into something much more. Soundscape suggests exploring all of the sound in an environment in its complexity, ambivalence, meaning, and context.
