In fact, the title of baronet was invented simply to be sold. Royal governors sold off the most valuable lands in their colonies and pocketed the proceeds. In 1617 Samuel Argall, the governor of Jamestown, appropriated most of the colony's supplies and crops and sold them for his own profit. Another of these notorious offenders was Governor Benjamin Fletcher of New York, who was in league with the pirates prowling American waters and shared in their loot. Miller goes on to unveil George Washington's finesse as a land speculator, how corruption helped bring about the American Revolution, the variety of "opportunities" that came along with America's Westward expansion, the Credit Mobilier scandal involving two vice-presidents and several congressmen, the Whiskey Ring in which President Ulysses S. Grant's own secretary was implicated, and the gold panic conspiracy that entangled Grant himself. But wholesale corruption went beyond the federal government.

1215 A.D.: The reign of King John means dark days for all of England. Not one man, woman or child lived without fear.

Magnifying this fear is the man they call The Lord of the Shadows - a terrifying figure who sits at the right hand of the King, manipulating the royal moves like a puppet master. The Lord of the Shadows has been known to tear men apart with his bare hands and can, with a snap of his fingers, alter the future of anyone he chooses. The nobility is terrified of him, and for good reason. That is - the nobility that know of his existence. Lady Sheridan St. James has been drawn into the political arena by her father - having no sons, he bequeaths his power and knowledge to his eldest daughter, a stunningly beautiful and bright creature. Upon his death, Sheridan finds herself at the head of the mighty House of St. James, a major leader in the rebellion against the crown. During her first visit to London she becomes acquainted with a massive knight who has, in kindness, saved her sister's life. She has no idea Sir Sean de Lara is the man known as The Lord of the Shadows, but even when she is told of his horrible deeds she still cannot not believe it. Sheridan and Sean draw close despite the influence of the horrendous affairs of state sweeping London. All she knows is that he is handsome and kind, and although Sean is well aware of the lady's status, it makes no difference that she is, in perception, his enemy. To Sean, Sheridan is quickly becoming his reason for living - but out of necessity his responsibilities to the king become stronger than his love for Sheridan and he is forced to perform his duties or risk death to them both. Still, Sean swears to her that his days as the Shadow Lord are numbered even as rival factions cruelly separated them. It soon becomes a test of Sean and Sheridan's love to find each other again in a world which is determined to keep them apart.

I wrote this fiction/romance novel depicting the struggles and accomplishments of slaves and free blacks in the late 1800's and early 1900's in Louisiana. The French Napoleonic laws in Louisiana in the 1800's did not allow slaves nor free blacks to inherit property. My novel has romance between mixed couples and a suspenseful twist at the end. The novel depicts the discovering of oil underneath a sugar-cane plantation and how wealthy individuals and land barons try to steal property from a young mulatto woman who grew up on a sugar-cane plantation. After finding out about an affair her mother had with a white plantation owner she inherited the largest amount of land and plantations in Louisiana after her father passed away. As she was challenged in court by high powered, politically connected, wealthy land barons she discovered that her lawyer and the preceding judge on her case were on the side of the greedy land barons. After discovering missing legal documents and challenging the current French Napoleonic laws she prevailed in court and became one of the wealthiest female heroines of her time. I grew up in Los Angeles,

Calif. in South Central with a family background in Louisiana. I have Bachelor of Science degree's in Sociology and History from Calif. State University at Northridge in 1974. 'I did a double take when I saw fourteen-year-old Drew Barrymore at the bar, drinking with the Bukowski crowd. She was adorable, spoke with a potty mouth and carried on as if she was in her twenties. I was straining to approach her but backed off. I'd been in enough trouble. The next time I looked she was gone. A couple nights later she reappeared and in the same spot at the middle of the bar, entertaining the bartender. I pulled the trigger this time, and whatever I had to say she bought.' 'I'm eating your book! It's delicious!' Lia Mack - Portland, Oregon "Fervent shades of Jack Kerouac." Terry Wells - Brigg, England "Lords of the Sunset Strip" is the brutally honest and hilarious memoir of actor and writer Blackie Dammett—AKA John Kiedis—who happens to be the father of Red Hot Chili Peppers frontman Anthony Kiedis. Set mostly in Hollywood but with multiple national and worldwide excursions for film shoots, love affairs and drug deals, this tell-all provides an unexpectedly candid look at an actor's transition from a wild man with a dream to a sensitive if unconventional parent with a dream. And of course, there were the women. New girls were always replenishing the scene. Dammett towed his young Red Hot Chili Pepper with him through a torrent of sex-fueled parties, auditions and business deals in Hollywood, New York and London. It's an exhilarating, exhausting and romantic journey. It had a profound and ineffable influence on Rock & Roll Hall of Famer Anthony. "Lords of the Sunset Strip" will no doubt have a similar influence on its readers as well. It's simply the biggest, baddest, boldest tale of Hollywood and Rock & Roll ever written.

Imagine the greatest love affairs in recorded history: Adam and Eve - the original untamed horticulturists in the virgin

---

Garden. Antony and Cleopatra - conquering Rome, Egypt and each other. Cathy and Heathcliff - breaking their hearts on the jagged Yorkshire Moors. Tish and Fonny, whose poignant love inhabited James Baldwin's Beale Street. We know their names, where they lived and the broader stories of their lives that led them to be locked in love's embrace. And then there are the woman and man in *The ABCs of Paradise Found*. This "her" and "him" who we meet by chance by the sea. We meet a woman and a man as they meet each other. On a beach. In passing, so no introductions are made. A question is asked. And the answer - the Caribbean Sea - reveals one named fact. Other facts will follow. Facts about ingredients in a national dish and where runaway slaves hid. Apparently, he has a scar and a wicked smile. Accompanied by beautifully rendered original watercolor paintings, *The ABCs of Paradise Found* includes stunning visual details. Deep sea dives. Primordial rain forests. Night witches. Dawn carnivals. But what you won't get are their names. Or ages. Countries of origin. Physical descriptions. Professions. Past lives. There will be no interruptions by work deadlines, smart phones, insistent technologies and other inconsolable distractions. The twist is that the unnamed island is far from deserted. Instead it is itself a third character in this affair. Likely unfamiliar to many, the island is real-Dominica, also known as the Nature Island of the Caribbean. As the woman and man discover each other, they explore the island and its rich culture of food, faith, festival and family. In alphabetical order, each chapter recounts a different experience in their journey told through her lyrical voice and accompanied by illustrative watercolor paintings. The woman wonders at one point, "Where is this going?" and we are grateful that we are along for the ride.

Pandemics, global climate chaos, worldwide migration crises? These phenomena are provoking traumatic experiences in unprecedented ways and numbers. This book is targeted for clinicians, scientists, cultural theorists, and other scholars and students of trauma studies interested in cultivating interdisciplinary understandings of trauma and posttraumatic conditions, especially resistance, resilience, and posttraumatic growth. Following clinicians' invitation for trauma survivors to wear a philosopher's hat, to engage in creative activities, and to employ cognitive exercises to combat psychic constriction, I introduce the concept of a Literary Arts Praxis. The Praxis is built on clinical research and literature seeped in existential, phenomenological, and aesthetic themes. I argue that an educational training in a Praxis might help trauma survivors to get at trauma, as they engage in imaginative escapades, while forging alliances with characters; interpretative exercises, such as triggering emotions through phenomenological experiences; and creative writing endeavors, that include turning testimonies into imaginative stories.
