The inside story of a wicked problem ... What should Australia do about climate change? A succession of leaders has tried to answer this question – and come unstuck. Politicians and public servants call it a “wicked” problem – one highly resistant to solution – and many approaches have been developed and discarded by the major parties. Some believe Australia’s dependence on coal makes effective action impossible. In this book, award-winning journalist Philip Chubb examines the tenacity of fossil-fuel interests and their allies in business, politics and the media when their power is

challenged. He reveals and analyses the political strategies of prime ministers Kevin Rudd and Julia Gillard as they tried to overcome the obstacles created by Australia's carbon-intensive economy. This is a dramatic study of leadership replete with new revelations. Using more than 75 interviews with key figures (including Julia Gillard, Kevin Rudd, Wayne Swan, Greg Combet and Penny Wong), freedom-of-information requests and good old-fashioned leaks, Chubb gives a persuasive account of success and failure in climate policy, and of the strategies that leaders must use in future. **Battlelines Melbourne Univ. This book explains why the level of party presidentialization varies from one country to another. It considers the effects of constitutional structures as well as the

party's original features, and argues that the degree of party presidentialization varies as a function of the party's genetics. **Cambridge University Press**

In the June 2010 Quarterly Essay, Australia's leading journalist delves deep into the life, character and style of Kevin Rudd. This irreverent, controversial account is sure to be one of the most talked-about publications of election year 2010 - a groundbreaking, in-depth profile that traces Rudd's years in Queensland, in China, in opposition and finally in government. Based on extensive research, observation and interviewing, it examines the forces that have made Kevin Rudd and

the way he wields his power. Marr investigates both the fragility of Rudd's hold on the Labor leadership, and considers what he might do with his popularity - if it is to be translated into a legacy of true achievement. Is he playing a long game? What manner of leader is he?

Globalization: A Very Short Introduction

Melbourne Univ. Publishing

Drawing on more than sixty on-the-record interviews with all the major players, *Triumph and Demise* is full of remarkable disclosures. It is the inside account of the hopes, achievements and bitter failures of

the Labor Government from 2007 to 2013. Kevin Rudd and Julia Gillard came together to defeat John Howard, formed a brilliant partnership and raised the hopes of the nation. Yet they fell into tension and then hostility under the pressures of politics and policy. Veteran journalist Paul Kelly probes the dynamics of the Rudd-Gillard partnership and dissects what tore them apart. He tells the full story of Julia Gillard's tragedy as our first female prime minister—her character, Rudd's destabilisation, the carbon tax saga and how Gillard was finally pulled down

on the eve of the 2013 election. Kelly documents the most misunderstood event in these years—the rise of Tony Abbott and the reason for his success. It was Abbott's performance that denied Rudd and Gillard the chance to recover. Labor misjudged Abbott and paid the price. Kelly writes with a keen eye and fearless determination. His central theme is that Australian politics has entered a crisis of the system that, unless corrected, will diminish the lives of all Australians.

'Bargaining and puzzling; power and thought; dealing and agonising; compromise and commitment. These are two sides of political practitioners whether politician, public servant or campaigner. Understand the interplay and we can, just sometimes, make sense of the real world we seek to interpret.' Patrick Weller's observation comes from half a century of contemplating politics in action. The question of how government works lies at the heart of political science, and it has also been the

career focus of this pioneer in the field. The Craft of Governing offers a tribute to the contribution of Patrick Weller to Australian political science, with chapters from leading political commentators including Michelle Grattan, Peter Shergold, Bob Jackson and James Walter. Contributors consider the role of the prime minister, approaches to studying executive government, the continuing significance of senior public servants and the nature of leadership in public bureaucracies. They also reflect on how insights from the study of domestic public policy can be applied to international organisations, challenges faced by Westminster

democracies and approaches to political biography. The Craft of Governing is an invaluable resource for readers interested in approaches to studying politics and the development of political science as a discipline.

Mission traces a life of politics, ideas and inspiring words. Whether he is recalling his boyhood in Hope Vale, Queensland,

making the case for Indigenous recognition, or evoking a reconciled, multicultural Australia, Noel Pearson confirms he is one of Australia's most powerful and influential thinkers - and an extraordinary writer. Mission selects the best of Pearson's work to date. There are indelible portraits of political leaders seen close up - Keating, Rudd, Whitlam, Turnbull and more. There is Pearson's brilliant exploration of a Voice to Parliament, which

led eventually to the Uluru Statement from the Heart. And there are acute analyses - of passive welfare; of the fate of the Labor Party; of identity politics, good and bad; and of education and the role of a great teacher. The volume also contains a remarkable new extended title essay, in which Pearson reflects on his life and work so far. Mission is honest, provocative and utterly original. Noel Pearson is a lawyer, activist and founder of the Cape York Institute. He is

author of Up From the Mission, Our Right to Take Responsibility, Mission, two Quarterly Essays and many essays, articles and speeches.
