Just exercise just what we manage to pay for below as competently as evaluation **The Stalking Of Julia Gillard Kerry Anne Walsh** what you similar to to read!

[The Good Fight](#) Allen & Unwin

Women have made significant inroads into political life in recent years, but in many parts of the world, their increased engagement has spurred attacks, intimidation, and harassment. This book provides the first comprehensive account of this phenomenon, exploring how women came to give these experiences a name: violence against women in politics. Tracing its global emergence as a concept, Mona Lena Krook draws on insights from multiple disciplines--political science, sociology, history, gender studies, economics, linguistics, psychology, and forensic science--to develop a more robust version of this concept to support ongoing activism and inform future scholarly work. Krook argues that violence against women in politics is not simply a gendered extension of existing definitions of political violence privileging physical aggressions against rivals. Rather, it is a distinct phenomenon involving a broad range of harms to attack and undermine women as political actors, taking physical, psychological, sexual, economic, and semiotic forms. Incorporating a wide range of country examples, she illustrates what this violence looks like in practice, catalogues emerging solutions around the world, and considers how to document this phenomenon more effectively. Highlighting its implications for democracy, human rights, and gender equality, the book asserts that addressing this issue requires ongoing dialogue and collaboration to ensure women's equal rights to participate--freely and safely--in political life around the globe.

The ideal of an inclusive and participatory Internet has been undermined by the rise of misogynistic abuse on social media platforms. However, limited progress has been made at national - and to an extent European - levels in addressing this issue. In England and Wales, the tackling of underlying causes of online abuse has been overlooked because the law focuses on punishment rather than measures to prevent such abuses. Furthermore, online abuse has a significant impact on its victims that is underestimated by policymakers. This volume critically analyses the legal provisions that are currently deployed to tackle forms of online misogyny, and focuses on three aspects; firstly, the phenomenon of social media abuse; secondly, the poor and disparate legal responses to social media abuses; and thirdly, the similar failings of hate crime to tackle problems of online gender-based abuses. This book advances a compelling argument for legal changes to the existing hate crime, and communications legislation.

[Battlelines](#) Allen & Unwin

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

[Destroying the Joint](#) Allen & Unwin

Australians came to the ABC's *The Killing Season* in their droves, their fascination with the Rudd-Gillard struggle as unfinished as the saga itself. Rudd and Gillard dominate the drama as they strain to claim the narrative of Labor's years in power. The journey to screen for each of their interviews is telling in itself. Kevin Rudd gives his painful account of the period and recalled in vivid detail the

events of losing the prime ministership. Julia Gillard is frank and unsparing of her colleagues. More than a hundred people were interviewed for *The Killing Season*—ministers, backbenchers, staffers, party officials, pollsters and public servants—recording their vivid accounts of the public and private events that made the Rudd and Gillard governments and then brought them undone. It is a damning portrait of a party at war with itself: the personal rivalries and the bitter defeats that have come to define the Rudd-Gillard era. "The making of *The Killing Season* matched the drama on screen and that's a story we wanted to tell. And now we have a place for the episodes of rich material we could have put into a 5-part series." — Sarah Ferguson

[The Gillard Governments](#) Macmillan Publishers Aus.

Drawing on more than sixty on-the-record interviews with all the major players, *Triumph and Demise* is full of remarkable disclosures. It is the inside account of the hopes, achievements and bitter failures of the Labor Government from 2007 to 2013. Kevin Rudd and Julia Gillard came together to defeat John Howard, formed a brilliant partnership and raised the hopes of the nation. Yet they fell into tension and then hostility under the pressures of politics and policy. Veteran journalist Paul Kelly probes the dynamics of the Rudd-Gillard partnership and dissects what tore them apart. He tells the full story of Julia Gillard's tragedy as our first female prime minister—her character, Rudd's destabilisation, the carbon tax saga and how Gillard was finally pulled down on the eve of the 2013 election. Kelly documents the most misunderstood event in these years—the rise of Tony Abbott and the reason for his success. It was Abbott's performance that denied Rudd and Gillard the chance to recover. Labor misjudged Abbott and paid the price. Kelly writes with a keen eye and fearless determination. His central theme is that Australian politics has entered a crisis of the system that, unless corrected, will diminish the lives of all Australians.

[A Bigger Picture](#) Hardie Grant Publishing

The inside story of a wicked problem ... What should Australia do about climate change? A succession of leaders has tried to answer this question – and come unstuck. Politicians and public servants call it a “wicked” problem – one highly resistant to solution – and many approaches have been developed and discarded by the major parties. Some believe Australia's dependence on coal makes effective action impossible. In this book, award-winning journalist Philip Chubb examines the tenacity of fossil-fuel interests and their allies in business, politics and the media when their power is challenged. He reveals and analyses the political strategies of prime ministers Kevin Rudd and Julia Gillard as they tried to overcome the obstacles created by Australia's carbon-intensive economy. This is a dramatic study of leadership replete with new revelations. Using more than 75 interviews with key figures (including Julia Gillard, Kevin Rudd, Wayne Swan, Greg Combet and Penny Wong), freedom-of-information requests and good old-fashioned leaks, Chubb gives a persuasive account of success and failure in climate policy, and of the strategies that leaders must use in future.

[Dirty Politics](#), [Dirty Times](#) Scribe Us

This book explains why the level of party presidentialization varies from one country to another. It considers the effects of constitutional structures as well as the party's original features, and argues that the degree of party presidentialization varies as a function of the party's genetics.

[The Misogyny Factor](#) Macmillan

'Bargaining and puzzling; power and thought; dealing and agonising; compromise and commitment. These are two sides of political practitioners whether politician, public servant or campaigner. Understand the interplay and we can, just sometimes, make sense of the real world we seek to interpret.' Patrick Weller's observation comes from half a century of contemplating politics in action. The question of how government works lies at the heart of political science, and it has also been the career focus of this pioneer in the field. *The Craft of Governing* offers a tribute to the contribution of Patrick Weller to Australian political science, with chapters from leading political commentators including Michelle Grattan, Peter Shergold, Bob Jackson and James Walter. Contributors consider the role of the prime minister, approaches to studying executive government, the continuing significance of senior public servants and the nature of leadership in public bureaucracies. They also reflect on how insights from the study of domestic public policy can be applied to international organisations, challenges faced by Westminster democracies and approaches to political biography. *The Craft of Governing* is an invaluable resource for readers interested in approaches to studying politics and the development of political science as a discipline.

[Advance Australia...Where?](#) Biteback Publishing

Liberal Party leader and parliamentary pugilist Tony Abbott offers a frank analysis of the way forward for the Liberal Party. Here he draws lessons from the dying days of the Howard Government, and gives his views on his contemporaries, including Kevin Rudd, Peter Costello, Julia Gillard and Malcolm Turnbull. In *Battlelines*, Abbott looks at the values and instincts that drive the Liberal Party and proposes policy that the party should adopt. This is the often humorous story of his own political development. He describes the truth about politicians' lives; his 'days from hell'; insider moments from the halls of power; and how a would-be priest believed he had fathered an unknown son. *Battlelines* outlines a state of play for the Liberal Party, cementing Tony Abbott's reputation as one of the Liberal Party's most interesting thinkers and fearless advocates.

[The Stalking of Julia Gillard](#) Allen & Unwin
[Stalin](#) University of Queensland Press (Australia)

In the June 2010 Quarterly Essay, Australia's leading journalist delves deep into the life, character and style of Kevin Rudd. This irreverent, controversial account is sure to be one of the most talked-about publications of election year 2010 - a groundbreaking, in-depth profile that traces Rudd's years in Queensland, in China, in opposition and finally in government. Based on extensive research, observation and interviewing, it examines the forces that have made Kevin Rudd and the way he wields his power. Marr investigates both the fragility of Rudd's hold on the Labor leadership, and considers what he might do with his popularity - if it is to be translated into a legacy of true achievement. Is he playing a long game? What manner of leader is he?

[Power Failure](#) Brookings Institution Press

Investigates the underrepresentation of women in politics, by examining how language use constructs and maintains gender inequalities in political institutions.

[The Gatekeepers](#) Simon and Schuster

This book is an important contribution to the fields of law, politics and to comparative constitutional law more generally.

[The Killing Season](#) Uncut Hachette Australia

'Globalization' has become one of the defining buzzwords of our time - a term that describes a variety of accelerating economic, political, cultural, ideological, and environmental processes that are rapidly altering our experience of the world. It is by its nature a dynamic topic - and this Very Short Introduction has been fully updated for a third edition, to include recent developments in global politics, the global economy, and environmental issues. Presenting globalization in accessible language as a multifaceted process encompassing global, regional, and local aspects of social life, Manfred B. Steger looks at its causes and effects, examines whether it is a new phenomenon, and explores the question of whether, ultimately, globalization is a good or a bad thing. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Mr Wigg](#) NewSouth

Jack used to say that a good orchard was like a well-lived life. The one up at the old farm, with its hundred-year-old pears leaning over the entrance gates, held more Wigg history than anything written down. It's the summer of 1971, not far from the stone-fruit capital of New South Wales, where Mr Wigg lives on what's left of the family farm. He spends his time working in the orchard, cooking and preserving his produce and, when it's on, watching the cricket. It's a full life. Things are changing though, with Australia and England playing a one-day match, and his new neighbours planting grapes for wine. His wife died a few years ago, his daughter never visits, and his son thinks he should move into town. But Mr Wigg has trees and chickens to look after on the farm. His grandchildren visit often: to cook, eat and hear stories. And he has a project to finish...

[The Road to Ruin](#) Melbourne Univ. Publishing

Poor people don't drive cars. People have the right to be bigots. I'm a fixer. Team Australia. Shirtfonting. Choppergate. Stop the boats. Coal is good for humanity. No cuts to health. Sir Prince Philip. The flags. It's all the fault of the febrile media. And that whole onion thing. In August 2013, Australia welcomed Tony Abbott as its new prime minister. This promised to be a marriage between responsible government and a nation tired of the endless drama of the Gillard-Rudd years. But then well Andrew P Street details the litany of gaffes, goofs and questionable captain's calls that characterised the subsequent reign of the Abbott government, following the trail from bold promises to questionable realities, unlikely recoveries to inexplicable own goals, Malcolm Turnbull's assurances of support to the day he pushed the Captain off his bike once and for all. And all this comes with a colourful cast of supporting characters and dangerous loons that only a nation unfamiliar with the concept of below-the-line voting could elect. Here is a unique take on a modern politics Australian style. If *Game of Thrones* was a deeply irreverent book about politics, then the TV series would probably not rate nearly as well.

It would, however, look something like this.

Mission Random House Australia

In this compelling and comprehensive work, renowned historian Frank Bongiorno presents a social and cultural history of Australia's political life, from pre-settlement Indigenous systems to the present day.

Depicting a wonderful parade of dreamers and schemers, Bongiorno surveys moments of political renewal and sheds fresh light on our democratic life. From local pubs and meeting halls to the parliament and cabinet; from pamphleteers and stump orators to party agents and operatives - this enthralling account looks at the political insiders in the halls of power, as well as the agitators and outsiders who sought to shape the nation from the margins. A work of political history like no other, *Dreamers and Schemers* will transform the way you look at Australian politics.

The Short and Excruciatingly Embarrassing Reign of Captain Abbott
Melbourne Univ. Publishing

In an enthralling sequel to her bestselling *The Road to Ruin*, Niki Savva reveals the inside story of a bungled coup that overthrew the Liberal prime minister, Malcolm Turnbull, and installed a surprise successor, Scott Morrison, who went on to take the party to a miraculous electoral victory. On 21 August 2018, 35 Liberal MPs cast their vote against Malcolm Turnbull, effectively signalling the end of his leadership. Three days later, the deed was done, and Scott Morrison was anointed prime minister. Tony Abbott's relentless campaign of destabilization, helped along by his acolytes in the parliament and by his powerful media mates, the betrayals of colleagues, and the rise of the religious right--climaxing in Peter Dutton's challenge--all played a part in Turnbull's downfall. But so did Turnbull's own poor political judgement. He was a good prime minister and a terrible politician. The good bits of Malcolm were not enough to make up for the bad Malcolm. Nevertheless, the sheer brutality of his removal left many Liberals aghast. MPs were traumatized or humiliated by eight days of madness. Men and women cried from sheer anguish. They went through hell, and feared when it was over that they would not make it back--and nor would the Liberal Party. As it turned out, redemption came with Morrison's unexpected single-handed 2019 election victory. Turnbull's road ended in ruins, as it was always bound to and as he always knew it would, as he predicted to Niki Savva less than three years before it happened. But when his end was imminent, he could not bear to let go. And when it was over, he was defiant, fragile--and, yes--vengeful. This is the inside story of what happened--and what happened next.

The Insider Oxford University Press

"The astonishing story of one man's breakneck race against time ... and an implacable enemy. An anonymous young woman murdered in a run-down hotel, all identifying characteristics dissolved by acid. A father publicly beheaded in the blistering heat of a Saudi Arabian public square. A notorious Syrian biotech expert found eyeless in a Damascus junkyard. Smoldering human remains on a remote mountainside in Afghanistan. A flawless plot to commit an appalling crime against humanity. One path links them all, and only one man can make the journey. Pilgrim"--

The Craft of Governing Springer

This is a newly revised and updated paperback edition of the former Conservative Party Treasurer's personal account of his battle over unsubstantiated claims concerning his business affairs which culminated in a libel action against "The Times" newspaper. The book reveals the dirty tricks that were used to destabilise the Conservative Party, including the newspaper's alleged bribery of US government officials, and the abuse of parliamentary privileges by New Labour MPs. This is Lord Ashcroft's compelling account of the attacks on his reputation by New Labour spin-doctors out to slander the Conservative Party and journalists seeking to create a story. This new edition also sheds new light on Michael Ashcroft's private life; his childhood and love of Belize, his business career and his many and varied interests.
